ESTABLISHED 1833. FORT WAYNE, IND., MONDAY; JULY 1, 1901. PRICE TWO CENTS

WEATHER MAN DOES FANCY TURN

Fort Wayne Swelters in Highest Temperature of Year---Thousands Flock to the Parks to Seek Relief from the Heat.

Between merciless rays of a sun which has beaten down with pitiless intensity and blistering heat waves which rise from pavements surcharged with an extremely high temperature Fort Wayne people have been sweltering for two days in the throes of genuine summer weather. It is the hot weather record of the year, and it would have been at least neighborly on the part of the ice man and the weather man to have dropped a hint of their intentions before cooking up this conspiracy against public comfort and complacency. And there is also evidence accumulating that tends to show the guilty participation of the ice cream soda man and vendors of sundry other summer beverages in the collusion.

The prophet who went on record some weeks ago in the positive assurance that there would be no hot weather this summer started in yesterday morning to hunt up his friends and square himself. Even at 6 o'clock Sunday morning the thermometer at the Gas office had crawled up to 72 degrees, and it got so early a start that the high mark of the day, 92 degrees, was reached at 3 o'clock without perceptible exhausting effort upon the part of the machine.

STILL WARMER TODAY.

The man who has religiously refrained from consulting a thermometer may have difficulty in believing it, but the fact remains that the record today is still higher than that of Sunday, though the heat is tempered partially by a slight breeze that takes off the edges somewhat. The record by hours since midnight as shown by the Gas company's thermometer on Court street today is as follows:

1 a. m.	77
2 a. m.	75
3 a. m.	75
4 a. m.	74
5 a. m.	74
6 a. m.	76
7 a. m.	78
8 a. m.	80
9 a. m.	83
10 a. m.	84
11 a. m.	86
Noon	89

At 1 o'clock this afternoon the 91 mark was reached; an hour later there had been little change, but Sunday's record will undoubtedly be passed before the afternoon is done. The temperature during the morning hours ranged considerably higher than for the corresponding hours yesterday. Thermometers in other pars of the city have almost invariably shown a higher temperature than that at the Gas office, the machine at Pellens & Polster's drug store at noon today registering 97 degrees.

SOUGHT COOL SPOTS.

There were several hundreds of visitors in the city yesterday and they joined in the general rush for the parks and other cool spots to seek relief from the oppressive heat which hung a persistent burden over the city, with hardly a breath of breeze stirring to give relief. All the parks in the city, and many groves adjacent, held their quota of visitors, and toward evening the rush to Robison park became tremendous. Twenty-five cars were in operation on the park line with a three minute service last night, and at one time more than five hundred people were gathered at the transfer corner awaiting transportation to the park. More than 5,000 people made the trip during the day.

Despite the tremendous heat remarkably few prostrations have been reported, and despite the discomfort it is probable still more of the same brand of weather is to be served up. The weather indications today give no promise of immediate relief, though Chicago reports a big drop in temperature and a fierce thunder storm.

SUNDAY'S TEMPERATURE.

NO CIVIL LIBERTY IN SOUTH AFRICA

London, July 1.—The Daily News publishes an article by its parliamentary correspondent on the political situation in Cape Colony, in view of the prorogation of the cape parliament, the writer saying that an issue of the gravest moment, namely, the suspension of the constitution of Cape Colony, is involved. He adds:

"From the night of June 30 for an indefinite period the king's subjects in Cape Colony will be deprived of the protection of law and will be governed contrary to its express provisions. Taxes will be applied under warrantee of the government without appropriation by parliament, which has been prorogued until August 27, and is not likely to sit even then. This illegal method has been resorted to by the governor and the ministry doubtless at the instigation of Lord Milner and Colonial Secretary Chamberlain. In a word, the imperial government has abrogated every article of the compact under which a free people owes allegiance to its rulers.

"Liberty is dead, so far as our Dutch subjects are concerned. The critics call for the authoritative intervention of the liberal party, in which there is a feeling in favor of summoning a great popular conference to consider the situation."

LIGHTNING SLAYS TWELVE MEN

Single Flash Deals Death to Party of Men Fishing on the Lake Front in Chicago---Fatal Bolt Struck Pier on Which they Sat.

Chicago, July 1.—Eleven boys were killed and another probably fatally injured this afternoon by a single bolt of lightning. The victims were fishing on Lake Michigan at the foot of Montrose boulevard, on the north side. The fatal bolt struck the pier where they were seated, and all were thrown into the lake.

A policeman attracted to the pier by the crashing timbers found it impossible to rescue any of the victims. The heavy timbers of the pier had been shattered and the whole structure toppled into the water. He hurried to a patrol box and called for assistance. Nearly half an hour elapsed before aid arrived. The work of recovering the bodies was extremely difficult, but finally all were carried ashore.

Owing to the terrific thunder storm prevalent the work of identification was extremely slow.

Oppressed by the extreme heat, the boys had gone in bathing. When the rain began to fall and it became evident a severe electrical storm was coming, they rushed to a shelter they had built on the pier. Willie Anderson, 12 years of age, was the only survivor of the shock which followed a moment later. To a policeman he gave a bare idea of the horrible ending of an hour's sport and then fainted. He was carried to a nearby house, where medical assistance was rendered.

The fatal stroke was the most powerful seen here in years. The pier was demolished in a trice, giving the boys not the slightest chance of escape.

In age the victims ranged from twelve to twenty-five years.

LOOTERS ARE CAPTURED.

Pekin, July 1.—Five men calling themselves Americans were captured by Chinese troops in a town fifty miles from Pekin, and were today turned over to Major Roberts, commander of the United States legation guard here. The men, who were armed, demanded 5,000 taels from the keeper of a pawn shop and got 500. They filled five carts with plunder and then began shooting, not knowing the town was occupied by 100 Chinese troops. The United States legation was notified, and the quintete were brought in. All parts of Pekin occupied by the British for police purposes were turned over today to the Chinese authorities. The foreigner ministers will meet July 3.

MAY END READING STRIKE

NEGOTIATIONS NOW UNDER WAY MAY SUCCEED.

Bitter Struggle Likely to Be Ended on a Basis of Fair Compromise —Other Strike News.

Reading, Pa., July 1.—It now looks as if the end of the strike of the Reading railway shop hands, inaugurated ten days ago, is in sight. President Baer, of the railroad company, and Chairman Boscher, of the strikers' committee, will hold a conference in New York tonight. Mr. Boscher will reporte to the employes here tomorrow. Concessions have already been made by both sides.

STRIKERS HOLD OUT.

Newport News, Va., July 1.—The striking machinists at the ship yard are adhering to their determination to hold out for their demands. The strike is no in its fiftieth week and seems no nearer a settlement than on the day of its inauguration.

The machinists claim they have 98 per cent. of the number solid for a continuance of the strike. The ship yard employed 7,500 men before the present trouble.

Now about 3,000 are employed. General Superintendent Post states that no concessions will be made.

MAY SETTLE IT.

Cincinnati, Ohio, July 1.—A conference was held here today which may result in settlement, locally, of the machinists' strike. No details have yet been given out.

ABOUT THE CITY HALL.

At the board of works meeting this afternoon City Engineer Randall presented plans and specifications for the paving of Wayne street, from Hanover street to Grant avenue. It was contemplated to extend the Wayne street pavement through to Glasgow avenue, but an examination of the premises at once convinced the engineer as well as the board of the utter inadvisability of such an extension at this time. From Grant avenue to Glasgow avenue the street is narrow and on the north side a long fill of an average of six feet would be required. No pavement would stand on a fill of this kind until long after the made ground had thoroughly settled and become compact. For this reason the engineer prepared his plans to Grant avenue only.

This is regular monthly pay day at the city hall and about $7,000 was disbursed. Of this amount $3,895 was paid to the fire department and $2,605 to the police department.

City Clerk A. M. Schmidt returned from Buffalo last night and was at his desk at the city hall as usual this morning. He says that Buffalo has a great show on hand, but that people who go there, as a rule, expect too much. It does not compare with the world's fair, and aside from that, he don't think that Buffalo can play any better ball than Fort Wayne.

Mrs. H. E. Taylor, who is to remove to Columbus, where her husband is in charge of the Union Pacific Tea company's store, was ready to leave Saturday, when her little son, Lloyd, was taken very ill, and it has been necessary to postpone her departure.

French scientists have been making experiments in regard to the effect of certain perfumes upon the voice. Many of the most successful teachers in singing have cautioned their pupils stringently against the use of perfumes or the proximity of odorous flowers. Some masters go so far as to forbid their pupils the use of any perfumes at all, and if one of them is detected wearing a bunch of violets, the lesson is postponed. The perfume of the violet has been found by the use of the laryngoscope to be particularly injurious.

The eastern Canadian seacoast from the Bay of Funday to the Straits of Belle Isle, covers a distance of 5,000 miles, and British Columbia, with its multitude of bays and mountainous islands, has a seacoast of 7,180 miles and a salt water inshore area, not including minor indentations, of 1,500 square miles.

BEATS NEW BOAT

GALLANT OLD COLUMBIA OUTSAILS COSTITUTION.

FIRST OF YEAR'S RACES

THE VICTORIOUS 1899 DEFENDER GOOD AS EVER.

LED NEW BOAT ALL THE WAY

RACE IS SAILED IN A VERY GOOD WIND.

Bateman's Point, R. I., July 1.—Columbia, the gallant and victorious defender of the America's cup in the international races of 1899, defeated the new defender Constitution today. Columbia crossed the line at the finish at 2:32:35 and was followed by the Constitution at 2:33:18.

Just after crossing the finish line the Columbia's main boom broke at the middle. This acident may cause a postponment of the second trial race, which was set for Wednesday.

When the Constitution and the Columbia hoisted sail for the first race of the season between American cup defender yachts the breeze inside the bay was very light and the yachts had some difficulty in getting out to the starting point.

The contest was a windward and leeward affair of thirty miles. By the time the yachts has reached the lightship they found a good breeze from the southwest, and at 10:30 there seemed little chance of postponement. Both yachts came out of the harbor with large club top sails set. The Columbia was the first out, but she was only a few minutes ahead of the Constitution. The boats were almost identical in appearance. After waiting at the lightship about ten minutes the judge decided that the wind was too near the southwest to risk starting from the lightship, so the whole fleet started off to the eastward.

On the way signals were hoisted on the flagship to indicate a beat to windward for fifteen miles and return.

The starting gun was fired at 11:30. Five minutes later the warning signal was given.

Both yachts at the time were to leeward of the line, the Constitution being farther away. Both yachts at once began maneuvering for position.

The starting guns was fired at 11:40, the Columbia crossing first and to windward at 11:40:21, and the Constitution right under her lee at 11:40:33.

Both boats went that distance on the starboard tack under all sail and stood about south, wind being southwest.

In the first eighth of a mile the Columbia pulled out a bit on the Constitution; later, however, the new boat drew upon her so that she was almost on even terms, although still to leeward. When the yachts had covered about a mile of the course they were still standing out to sea on the starboard tack.

The Columbia from this point seemed to have gained a bit to windward. During the next five minutes the Columbia outpointed the Constitution and gained to windward.

TWO UNFORTUNATES.

Herman Lempke, a driver for S. W. Hull, was thrown from his wagon Saturday afternoon and sustained a fracture of the right wrist, besides other injuries. He was removed to his home, on Madison street, where Dr. McCausland attended him.

The 8-year-old son of John Neumeyer, the East Lewis street grocer, fell down stairs yesterday afternoon and received a bad gash over his right eye. Dr. McCausland put several stitches in the wound.

THE BIRTH RECORD.

Born, to Mr. and Mrs. Henry Dornte, of 230 West Washington street—a daughter.

Born, to Mr. and Mrs. Henry Paulsen, of 107 Wall street—a son.

Born, to Mr. and Mrs. Frank Shane, of 6 Orchard street—a son.

DID NOT GET HERE.

Officials of the new Fort Wayne, Dayton and Cincinnati Traction Railway company, who were to have arrived in the city Saturday evening, did not come. The Commercial club's committee was in waiting to receive them, but a message to Mayor Berghoff from Decatur said: "Impossible to make Fort Wayne at present." Will write." No later word has been received from them and it is assumed that the extremely hot weather has necessitated the temporary postponement of the inspection tour. It is likely they will reach Fort Wayne tomorrow.

CAR OFF THE TRACK.

Just before the noon hour today a Belt line car left the track at Broadway and Lavina street, but there was no damage aside from delaying traffic for about fifteen minutes.

The entire street car system was tied up for nearly half an hour Sunday evening by a break in the trolley line near Centlivre park.

NEGRO IS LYNCHED.

Richmond, Va., July 1.—The negro who attempted a criminal assault upon a young lady in Brunswick county a few days ago, was taken from the jail at Lawrenceville Sunday night by a mob and lynched.

A SATURDAY HALF HOLIDAY

MOVEMENT AFOOT TO CLOSE STORES.

Well Known Women Inaugurate an Effort to Give Salesladies and Salesmen a Day of Rest.

Well known women of this city have inaugurated a movement for the closing of retail dry goods stores Saturday afternoon during the term of extreme hot weather. A petition will at once be circulated for signatures to a request to proprietors of the large stores that business be suspended at noon Saturday.

There are hundreds of men and women employed in the large dry goods establishments of Fort Wayne to whom such an innovation would be a great boon. In most of the larger cities the Saturday half holiday has long been established and the people have become so accustomed to it that they suffer no inconvenience nor the stores any loss of patronage. The wholesale houses and the banks of Fort Wayne several years ago adopted the Saturday half holiday rule and it has been found to work most admirably. It is believed by the promoters of the present movement that the retail stores of Fort Wayne would suffer none by establishment of the custom. It is pointed out that the people of Fort Wayne after years of familiarity with the custom of grocers to keep their stores open every weekday night until 9 or 10 o'clock very readily accommodated themselves to the new rule of closing at 6 o'clock in the evening, excepting Saturday. Every one is now used to the new order and no complaint is heard.

It is proposed that the dry goods stores close at noon from July 4th to September 1st, less than two months, much interest is being taken in the movement.

TAFT IS MADE GOVERNOR

APPOINTED CIVIL RULER OF PHILIPPINES.

According to Expectations the President Makes Appointment of Important Official.

Washington, July 1.—Among the commissions signed by the president today was that of Judge William H. Taft of Ohio, to be civil governor of the Philippine islands.

Judge Taft was notified some time ago when instructions were sent him relative to the inauguration of civil government in the islands July 4 that he would be appointed civil governor.

NEW MOVE IN BARKER CASE.

Trenton, N. J., July 1.—Counsel for Thomas Barker, who was sentenced to five years' imprisonment for assaulting Rev. Dr. John Keller at Arlington, today took out a writ of error, which will carry the case to the court of errors and appeals. In the meantime Barker will be at liberty.

NEW LAUNDRY STARTS.

The Union laundry, a new institution at 20 East Columbia street, opened its doors for business this morning. C. E. Brown and C. E. Pierce are the owners. Mr. Pierce was formerly with the Bahner laundry.

There are 28,894 juvenile temperance societies in the British islands, with a membership of 3,386,000.

OLD SOL SMITES THE COUNTRY

Fierce Heat Prevails from the Rockies to the Atlantic---Many Deaths in Large Cities--- Baltimore the Hottest Place.

Baltimore, Md., July 1.—This city today is the hottest place in the United States, according to the weather bureau's reports. At 8 a. m. the mercury registered 88 degrees, which is four degrees higher than at the same time yesterday.

At 2 p. m. the thermometer indicated a temperature of 101 degrees and the relative humidity was about 65 per cent. Two prostrations have been reported, but as yet no deaths are known to have occured due directly to the heat.

IN WASHINGTON.

Washington, July 1.—The hot wave in Washington shows no signs of breaking. At 8 o'clock this morning the down town thermometers registered 85 degrees and at 9 o'clock the mercury had climbed up to 92 degrees. This is 7 degrees hotter than at 9 o'clock yesterday morning. The weather bureau thermometer at 9:30 this morning recorded 91. It was 86 at 8 o'clock and the mercury rose to 90 by 9 o'clock. The hot wave is general east of the Rocky mountains and there is no immediate prospect of relief.

At 2 o'clock this afternoon the official temperature was 100. Twelve prostrations have been reported during the past twenty-four hours, none fatal, but one of the victims is expected to die.

SUFFERING IN NEW YORK.

New York, July 1.—The hot weather which has caused so much suffering in this city last week, continued today. At 9 o'clock the weather bureau thermometer showed a temperature of 87 degrees as compared with 83 at the same hour yesterday. At 10 o'clock the temperature was 89. Between 1 and 9 o'clock seven deaths due to the heat were reported in this city.

Six deaths from the heat were reported from Brooklyn between midnight and 10 a. m.

At 2 o'clock the weather bureau reported a temperature of 96 degrees. This was within one degree of yesterday's highest, which was recorded at 4 p. m. There were twenty-three deaths due to the heat in New York and Brooklyn between midnight and 1 p. m. today.

MANY DEATHS IN ST. LOUIS.

St. Louis, July 1.—Intense heat continued here today. At 5 a. m. the lowest point reached during the past twenty-four hours was recorded. The thermometer then registered 80 degrees, and two hours later it had risen to 82. There were eight deaths and twelve prostrations yesterday. The dead: Edward Conrad, John B. Ward, Anthony Siegmaszki, George Overstreet, James Monohan, Henry Miller, Peter Melvin, Mrs. G. Siebolt.

Weather bureau thermometer at 1:20 this afternoon registered 95. Up to that time four deaths and four prostrations had been reported.

FIERCE IN PITTSBURG.

Pittsburg, July 1.—The torrid wave continues. Last night was one of the hottest in years and at 8 o'clock this morning the mercury registered 84 degrees. Two deaths and eight prostrations were reported at noon. The

(Continued on Second Page.)

THIRD BROTHER TO DIE IN ACCIDENT

The tragic death of Charles J. Dinkel, the carpenter, who succumbed to injuries received in a frightful fall from the Bayer building at Wayne and Barr streets last Wednesday, brings to light a strange fatality that has attended the family.

Mr. Dinkel was the third brother to meet his death in a violent manner. Some years ago Fred Dinkel was killed in an accidental fall from a windmill in Pleasant township, and later another brother succumbed to injuries received in a runaway accident in the same locality. The sad circumstance is certainly a very unusual one.

THE BIG STRIKE IS UNDER WAY

Amalgamated Steel Workers are Prepared to Obey President Shaffer's Order---May be Biggest in History.

Pittsburg, Pa., July 1.—As a result of the refusal of the representatives of the American Sheet Steel company and the American Steel company, subsidary companies of the Great United States Steel corporation, to sign the workers' new scale at Saturday's conference, circulars were sent out from the national headquarters of the Amalgamated Association of Iron, Steel and Tin Workers yesterday and today declaring a strike at all the plants of the two combines. The great strike is now on, but it will be several days before its actual extent is known.

PLANTS NOW AFFECTED.

At the outset, however, over 35,000 men will be involved, as follows:

Union Sheet Mills—Aetna-Standard Steel mills, Bridgeport, Ohio, 2,500; Midland Steel mills, Muncie, Ind., 1,000; Old Meadow Rolling mill, Scotdale, Pa., 400; Saltsburg Rolling mill, Saltsburg, Pa., 300; W. Dewes Woods mills, McKeesport, Pa., 1,000; Cambridge Iron and Steel mills, Cambridge, Ohio, 400; Canton Rolling mills, Canton, Ohio, 250; Charter Iron and Steel mills, Carnegie, Pa., 300; Dennison Rolling mills, Dennison, Ohio, 350; Dresden Iron and Steel mills, Dresden, Ohio, 300; Falcom Iron and Nail mills, Niles, Ohio, 450; New Philadelphia mills, New Philadelphia, Ohio, 700; Piqua Rolling mills, Piqua, Ohio, 600; Reeves Iron mills, Canal Dover, Ohio, 750; Struthers Iron mills, Struthers, Ohio, 400; Corning Steel mills, Hammond, Ind., 300; Lauffman Steel mills, Paulton, Pa., 200; Hyde Park Iron and Steel mills, Hyde Park, Pa., 350. Total, 11,650.

Non-Union Sheet Mills—Apollo Iron and Steel mills, Vandergrift, Pa., 3,600; Kirkpatrick mills, Leechburg, Pa., 550; Wellsville Plate and Sheet Iron mills, Wellsville, Ohio, 400; Scotdale Iron and Steel mills, Scotdale, Pa., 550. Total, 5,100.

American Steel Hoop company, 14,000; Independent plants, twenty in number, 5,000.

TOTAL OF 35,000.

Total number of men involved in strike, 35,750.

The American Steel Hoop company's main offices are in this city. The company has three non-union plants in this city. They are Painters' mills, this city, and Lindsy & McCutcheon's and Clarke's, located in Allegheny.

The company has also a non-union plant at Monessen, Pa., and one at Duncanville, Pa., though the employes of the latter are ready for organization as soon as the amalgamated people will take them in. The other plants of the company are claimed by the amalgamated people as union. There are two at Youngstown, and one each at Sharon, Girard, Greenville, Pomeroy, and Warren, Ohio.

RESULTS PROBLEMATICAL.

What the strike just inaugurated may eventually lead to is problematical. Three months ago when a strike occurred in the Wood plant of the American Sheet Steel company, at McKeesport, when the company refused to allow its men to become members of the Amalgamated association, President Shaffer threatened if the McKeesport strikers could not win with their own strength he would order a strike of every plant of the company. If the latter would not yield he would then call out the union men in every plant of the United States Steel corporation.

MAY BE GIGANTIC.

Such a course would end in the biggest strike the country has ever seen, involving several hundred thousand men. For the first few weeks the situation will not show the strength of the association. Almost all the plants of the company, union and non-union, will be compelled to shut down during the early part of July to give the men a rest. They have been working steadily since the first of the year, many of

(Continued From First Page.)

dead: Samuel Jones, aged 68 years; Edward J. Rowen, aged 28 years. The intense heat played havoc among the mill men and many prostrations are reported. Oliver's puddling department at South Tenth street, the puddling department of A. M. Byers' mills and the Pennsylvania car wheel works were forced to suspend operations. In the latter plant 400 men and boys are thrown out of work. The Pittsburg forge and iron works, Allegheny, also closed down, throwing 500 men out of employment. The temperature at noon was 93 degrees.

The temperature at 2 p. m. was 96 degrees and still rising. Three deaths from heat were reported up to that hour making twelve in twenty-four hours. Eighteen prostrations were also recorded.

BOSTON SWELTERS.

Boston, July 1.—There was little promise of a change in the weather conditions early today. The record at 8 o'clock was the same as it was on the hot days of last week, 88. The wind was very light from the westward.

HOTTEST OF SPELL.

Philadelphia, Pa., July 1.—Today opened hotter than any day during the past week. The temperature, according to the weather bureau officials, was 86 at 8 o'clock, 2 degrees hotter than at the same hour yesterday, and at 9 o'clock had risen 2 degrees. The humidity registered 61 per cent.

The official thermometer at 1 p. m. recorded 96 degrees, a fall of two degrees since noon. At 2:30 p. m. the police and hospitals reported seven deaths today from heat, three adults and four children. There have been twenty prostrations thus far.

CHICAGO GETS RELIEF.

Chicago, July 1.—At 8 a. m. today thermometers at the street level showed 88 degrees, and during the next hour a rise to 89 degrees was noted. The humidity intensified suffering, the air showing 85 per cent. moisture.

At noon the official temperature was 91 degrees. Instruments on the street level at the same hour marked 96. At 12:30 p. m. suffering from the intense heat was alleviated by a sudden drop in temperature to 71 and shortly afterward by a heavy fall of rain. No prostrations were reported during the morning.

IN OTHER CITIES.

Cincinnati, July 1.—At 8 a. m. the mercury registered 82 above, and two to five degrees higher on the street level.

Three persons died today from the heat. Sixteen prostrations were reported. This brings the total up to fifteen deaths and sixty-nine prostrations within the past week. At noon the mercury registered 90 degrees.

Milwaukee, July 1.—At 8:30 a. m. street thermometers registered 82 above.

Buffalo, July 1.—The thermometer at the weather bureau registered 77 at 10 o'clock this morning, with a good breeze from the lake.

Rochester, N. Y., July 1.—The thermometer here at 8 o'clock this morning stood at 86, with indications that it would reach 90 by noon.

Kansas City, Mo., July 1.—At 9 a. m. the temperature was 87 degrees. No relief is predicted for the present.

At noon the government thermometer registered 94 degrees. Only two prostrations have been reported since Saturday.

Louisville, Ky., July 1.—Street thermometers registered 87 degrees at 8:30 o'clock and indications were favorable to a record breaking day.

At 1 p. m. the temperature was 94 and the humidity was excessive. Two prostrations were reported today.

New Haven, Conn., July 1.—At 9 o'clock the official temperature was 94, the same as yesterday at the same hour.

Detroit, July 1.—The temperature at 8:30 this morning was 78 and Forecaster Congor prophesied that it would pass 90 before the day was over. Last night was the hottest of the summer, with 76 as the minimum temperature.

At 1:30 this afternoon the official temperature was 92 degrees, with a fifteen-mile northwest breeze blowing. No prostrations have been reported.

Cleveland, Ohio, July 1.—There was no abatement in the heat in this city today, the mercury hovering around 90 during the morning hours.

At noon the weather bureau thermometer on top of a ten story building still registered 90. Down on the streets, however, the thermometers in the shade indicated from 97 to 99. Six prostrations reported up to noon.

St. Paul, Minn., July 1.—During the early hours the mercury here hovered about 70 mark. A storm appears probable.

Columbus, July 1.—Three prostrations from the heat had been reported at 1 p. m. The thermometer at that hour stood at 95.

Omaha, July 1. — At the weather bureau the mercury at 1 p. m. reached 93, four degree below yesterday's record. No prostrations were reported. The hot winds prevailent in the state the past three days have abated.

Indanapolis, Ind., July 1. —At 2 p. m. the mercury registered 92. No prostrations.

Looks quite so stylish as those made by G. Schmidt, merchant tailor, 57 East Berry street. Full line of samples. 27-tf

Consul Warner writes from Leipzig that according to the Leipsiger Tageblatt a new device for removing slag has been pattented, by which the grate is lowered into the ash box or pit, a set of iron rods which fit into the spaces between the bars passing upward between them and knocking off any clinkers or slag which may have adhered to the bars of the grate.

TWO PERFORMANCES DAILY

IN POLICE COURT IF THEY ARE REQUESTED.

Judge Louttit May Hold a Session at 8 O'clock and the Matinee at Advertised Hour.

Judge Louttit held no police court this morning but intimated that he might soon make a few more rules. He suggested that possibly he would hold one session of his court at 8 o'clock and another at 2 and thus give everybody a chance. He might run in a few more somewhere else and give a sort of continuous performance and bye and bye might add another ring and an elevated stage. He said that those who wanted a trial at 8 o'clock could have it.

A man who gave his name as Brown was arrested yesterday morning for being drunk. Later he was released on his own recognizance by Judge Louttit who was informed on reliable authority that the man's wife was in a delicate condition and that the husband's presence at home was needed. He promised to report at any time he was called upon and went home. He may report at today's matinee performance.

Two Syrians with unpronounceable names were arrested yesterday afternoon for vagrancy and mendicancy. They said that they had but recently reached this country and were not accustomed to American ways. In their native country when a fellow gets broke he is allowed to go out into the highways and byways and beg until he has enough to start him up in business, and they did not know that it was different in Fort Wayne. When they struck here they took account of cash and found that they were short so they lost no time in getting to work, even if it was Sunday. They started down West Berry street and missed nobody. When arrested they had all their pockets filled with food and had a little money, too, which they had gathered by the way. Salem Bashara stood good for their appearance at the afternoon matinee at the city hall and they were released.

Philip B. Smith, the man who has volumes of trouble with his wife, has finally broken into the municipal court. His wife has filed an affidavit against him charging him with associating with prostitutes. His case will be heard this afternoon, he being released on bail.

Another false burglary alarm was sent in from 3 Hanover street last night. Officers made an investigation but found nothing to warrant any suspicion.

Another fight was reported at the Consumers' Ice company's barn on Columbia street yesterday. When the officers arrived the belligerants had sseperated and nobody seemed to know anything about any scrap. The superintendent of police says that Sunday fights are getting so regular there that he will detail a man next Sunday to be on hand when the scrapping commences.

Theodore Johnson got on a rampage on Saturday night and began doing things down in Duck alley. He started a fight or two but did no harm and when the officers got around to take him in he had faded.

The drinking fountain at the corner of Broadway and Taylor streets has been reported broken.

An attempt to burglarize the Wayne club on Saturday night failed because the burglars provided themselves with too short a ladder. The ladder was found placed at one of the side windows but was too short to be of any service. An investigation by the officers at about 2 o'clock showed nothing unusual about the place.

Affidavits were today filed against the following named saloonkeepers for volation of the law and Mayor Berghoff's explicit orders regarding to position of screens and curtains after 7 o'clock on Sunday evening: William Christen, Ed O'Mera, William Hollenbeck, John Condon, L. Singleton and Ed Kleindinst. All of the offenders have salons on Calhoun street and the affidavits were made by Officers Blum, Elliot and Cheviron.

ARRESTS IN JUNE.

Arrests during the month of June, 1901, are reported by Lieutenant Lapp:

Playing base ball on Sunday	54

Partitions in room where liquor is sold	1
Shooting inside city limits	1
Trespass	1
Keeping gaming house	1
Giving liquor to minors	1
Total	112

BARROOMS OF THE BISHOP.

The people of England are much interested these days concerning the working of the plan of the bishop of Chester for dealing with the evil of excessive drinking, says a London correspondent. The bishop thinks that prohibition does not prohibit and that regulation is much better. As regulation has in view the evil done by drinking, special pains are taken to supply only the purest drinks. The houses under the bishop's scheme are to have a uniform external appearance, distinguishing them from ordinary licensed houses, notices prominently displayed that food and non-intoxicants are supplied at popular prices, the intoxicants to be placed at one end of the bar and the non-intoxicants at the other, with tables at which buns, sandwiches, tea, coffee, etc., can be served.

In villages the houses are to have club, temperance and recreation rooms, and where space is available a billiard room and library, with backgammon, drafts and similar games, are to have also a bowling green and other counter attractions to the bar and tap room. The idea is that it is hopeless to try to extinguish thirst for stimulants, but wise to reduce the danger arising from excess or from bad whisky and beer to the minimum. The good of the drinker, not the promotion of a theory, is the main object.

The making of spools and the sawing of wood for them have assumed such immense proportions that they are classed among the leading industries of Maine. Not all the spool bars sawed in Maine are made into spools within the state, but are shipped to Europe. About 15,000,000 feet are sent across the water annually, chiefly to Scotland, one-half of the total being shipped by one concern in Bangor, almost all in steamships.

A new method for producing anaesthesis was discussed at a recent meeting of the Medical society of Berlin. Dr. Wohllgemuth has constructed an apparatus by which patients inhale chloroform mixed with oxygen. It has been tried by many prominent surgeons, with results that are reported as satisfactory, the disagreeable sensations being obviated.

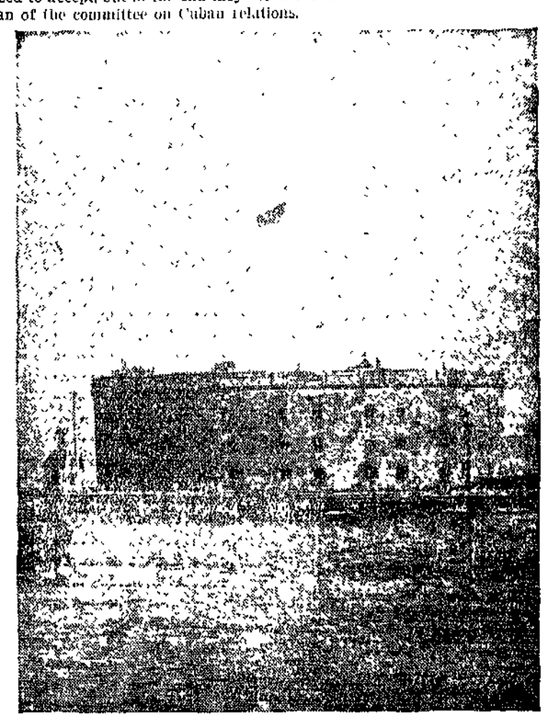
SENATOR O. H. PLATT, AUTHOR OF THE MUCH DEBATED CUBAN AMENDMENTS.

Something in the nature of a personal victory to Senator Orville H. Platt of Connecticut has been the recent acceptance by the Cuban constitutional convention of the amendments which he proposed to the resolutions adopted by congress. These amendments the Cubans for a long time stubbornly refused to accept, but in the end they "toed the mark." Senator Platt is chairman of the committee on Cuban relations.



CASTLE WILLIAM, GOVERNORS ISLAND, NEW YORK.

The war department is planning an elaborate enlargement of Governors Island, New York harbor. It is intended to make this little islet at the end of Manhattan the chief Atlantic headquarters of the quartermaster's department and to use it as a place for the loading and unloading of transports. Definite plans for the proposed work, which, it is estimated, will cost something like $1,500,000, will soon be submitted to the secretary of war.

According to the official reports regarding the state of the crops in France winter wheat is very good in 3 departments, good in 43, fairly good in 34 and passably good in 5. Spring wheat is given as very good in 1 department, good in 18, fairly good in 20 and passably in 3 departments.

AT ROBISON PARK.

Yesterday was a record breaker in point of attendance at Robison park, and it is estimated that fully 5,000 people visited the pretty resort during the day. From the time the cars started in the morning, parties made their way to the park to spend the day, and in the afternoon the crush at the transfer corner was so great that twenty cars were put on the line, and even these were not adequate to accomodate the crowds. In the evening twenty-five cars were in service and every one was crowded. The Fourth of July illuminations at the park are magnificent. Strung along both banks of the river were hundreds of red, white and blue lights in festoons, and the island across from the pavilion was a mass of colored globes. Near the bridge was an anchor of red, white and blue lights, and at the tower the words "Robison Park" stood out in colored lights in letters ten feet high. One of the handsomest pieces is the American flag in colored lights over the band stand. It is thirty feet long and fifteen feet high and is very beautiful when seen from a distance. The illuminations this evening will be even more beautiful than they were last evening. On the island will appear the outlines of a gigantic trolley car in colored lights, and the big loving cup will have been completed. Two thousand lights failed to arrive yesterday but they will be put in place in time for tonight's illumination. There will be a big display of fireworks on the evening of the Fourth.

RICH GIFT FROM CARNEGIE.

Detroit, Mich., July 1.—Geo. W. Bradford, member of the Detroit public library board, has received a letter from Andrew Carnegie, stating that Mr. Carnegie will contribute $750,000 toward the erection of a new public library building in this city.

ENFORCE PAYMENT.

Warsaw, Ind., June 29.—What are known as the canning factory cases are being heard in the circuit court. Several years ago lots were sold at $100 each to raise money with which to locate a factory here. The lots were raffled off and the company is now trying to collect the money. About fifty suits have been filed against persons who have refused to pay for the lots.

Mr. and Mrs. H. G. Olds and three grandchildren, together with Miss Carlie Olds, Mrs. S. C. Lumbard, Miss Effie Lumbard, of Fort Wayne, and Mr. and Mrs. S. D. Bond and daughters, of Indianapolis, left at 4:15 o'clock this afternoon on Grand Rapids train No. 3 for Petoskey, where they will remain during the summer months.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by the Trustees of the Public Schools at the office of the trustees in the High School Building, Fort Wayne, Indiana, until 7:30 o'clock p. m., July 6, 1901, for adding another story (4 rooms)to the Nebraska Public School building.

Plans of building and detailed specification can be obtained from Frank F. Allen, architect, 208 W. Creighton avenue.

The board reserves the right to reject any and all bids.

The brothers who have been teaching in the Cathedral school will leave this week for retreat and recreation at Notre Dame. The sisters of the various orders represented here will also leave for their respective mother houses for the annual retreat.

A meeting of Rome City cottagers will be called for the near future to make preliminary arrangements for the annual Venetian night entertainment at the resort, which will take place in the latter part of August. The celebration this year will eclipse anything ever given before, and many new features will be added.

Mrs. Celia Fox and John Saunders were united in marriage at noon Sunday at the residence of Mr. and Mrs. John W. Pfeiffer. Rev. L. J. Motschman was the officiating clergyman. Mr. Saunders is a prominent farmer near Angola and the bride, who has made her home in this city for several years, has made many friends. Mr. and Mrs. Saunders left at once for Angola.

THE COMMUTER.

How He Spends His Hours of Daily Railroad Traveling.

The much abused suburbanites whom the cartoonists picture as coming to the city every morning from "Lonesomehurst," "Lost Man's Lane," "Trunchurst-by-the-Trolley" and other places with equally suggestive names, are an interesting class of individuals. The transient element of the city's population spends several hours every day whirling over the railroads. When the novelty of these daily bits of railroading has passed into the monotony of years of travel through the same country the commuter has learned to make the best of the time he spends on the train.

The "card fend" is a prominent figure in this class. Both morning and evening four or five games of cards are going on in every smoking car, and it is safe to say that thousands of dollars change hands in this "innocent amusement" while the players are hurrying to or from business.

Next to the "card sharp" is the man who only enjoys his cigar and paper. He is oblivious to all his surroundings and only shows animation when he is at his journey's end.

Many of the policies and plans of some of this city's most successful business men have been born or developed on these trains. The short respite between the bustle of the city and the cares of home life is to this type of man a season for meditation.

Another interesting commuter is the individual who is on good terms with all his fellows. He travels up and down through the car exercising his repertory of latest jokes or sympathizing with some gloomy looking friend who thinks that all the world is against him. He seems to never grow weary in his well doing

The train life of the commuter is now and then enlivened by wrecks. Though tossed about and sometimes cut and bruised, he generally escapes serious injury. Such experiences as these he considers the spice and coloring of his existence.—New York Mail and Express.

COLOR OF GOLD COINS.

Reasons For Differences In Tint of Coins of French Mintage.

Some time ago a Frenchman placed together a number of gold coins of French mintage of the beginning, middle and end of the last century. He was much surprised to see that they differed in color. He set about finding out the reasons for this difference, and the results of his investigations have been published in La Nature.

There is a paleness about the yellow of the 10 and 20 franc pieces which bear the effigies of Napoleon I and Louis XVIII that is not observed in the goldpieces of later mintage. One admirer of these coins speaks of their color as a "beautiful paleness" and expresses regret that it is lacking in later coins. The explanation of it is very simple. The alloy that entered into the French gold coins of those days contained as much silver as copper, and it was the silver that gave the coins their interesting paleness.

The coins of the era of Napoleon III were more golden in hue. The silver had been taken out of the alloy.

The gold coins of today have a still warmer and deeper tinge of yellow. This is because the Paris mint, as well as that in London, melts the gold and the copper alloy in hermetically sealed boxes, which prevents the copper from being somewhat bleached, as it always is when it is attacked by hot air. So the present coins have the full warmness of tint that a copper alloy can give.

If the coins of today are not so handsome in the opinion of amateur collectors as those issued by the first Napoleon, they are superior to those of either of the Napoleons in the fact that it costs less to make them. The double operation of the oxidation of the copper and cleaning it off the surface of the coin with acids is no longer employed, and the large elimination of copper from the surface of the coins, formerly practiced, made them less resistant under wear and tear than are the coins now in circulation.

No Keys to White House.

In these modern days the front door of the White House is not locked at night. Practically no doors are locked, and if the steward should look around for keys he would probably not find half of those formerly in use. Big policemen are about the only doors at the executive mansion. They guard the main doors at all hours of day and night, and there is no need to close and lock the inner doors. Before President Lincoln's time policemen were rare at the president's home, and when all the clerks and servants had gone home at night the housekeeper went around and carefully locked all the doors inside and outside except to rooms occupied by those going in and coming out. —Washington Star.

Don't Be Sparing of Your Love.

The power of love is one of the greatest gifts to humanity. It generates the sunshine of the moral universe, without which life would be a desert waste. Use this divine power without stint. Be prodigal of your love. Let it radiate freely. It will brighten the dark places. It will gladden the sorrowing. It will lift you above the petty, grinding cares that so soon corrode the mind and sap the energies. It is the golden key that will admit you to the palace of the true life.—Success.

Well Enough.

"Didn't I tell you to let well enough alone?" said the doctor to the convalescent who had disobeyed and was suffering a relapse.

"Yes, doctor," whined the patient, "but I wasn't well enough."—Detroit Free Press.

Mrs. W. C. Cassidy and two sons, of Lenore, Tenn., are visiting the lady's parents, Mr. and Mrs. Martin Kramer.

BADLY INJURED IN A FALL.

Mary Sieler, 8 years of age, a daughter of Peter Sieler, of Adams Center, fell from a step ladder while engaged in picking cherries on Saturday, sustaining a compound fracture of the right elbow, a fracture of the wrist with dislocation of the joint, and injury to the shoulder. The arm may be saved from amputation, but it is not believed the full use of it will ever be regained.

MAY RETURN TO PHILIPPINES.

Lieut. J. B. Fonner, who arrived in the city Saturday after a service of twenty-two months with the Thirty-first regiment in the Philippines, states that he is favorably impressed with the islands, and may return there in a civil capacity. Lieutenant Fonner is considerably heavier than when he left Fort Wayne and looks the picture of health. He was stationed during the entire term of service on the island of Mindanao, and his regiment got no taste of the fighting, being located for fourteen months at one point. It was in a delightful climate and on the seacost, but the life grew very monotonous.

Wear the "Knox" straw hat sold by Patterson.

Spend the 4th of Juyl at Rome City. 75c round trip.

There is no need for any one to suffer from indigestion when Bromo-Pepsin is so easily obtainable. Physicians prescribe it for headache, indigestion and insomnia, because it cures and because it is absolutely harmless. All druggists. 10c, 25c and 50c per bottle.

JUDGE LOUTTIT'S RULE.

Municipal Judge Louttit has made a grave mistake in establishing 2 o'clock in the afternoon as the hour for convening police court. Unless he has conceived that such a rule will better serve his private conveniences we do not see a single advantage that can come out of it to anyone. If Judge Louttit has, as he claims, really had in mind a purpose to give patrolmen of the night force who appear as witnesses an opportunity to obtain more repose than the former order of things permitted, he has calculated most wretchedly. Night patrolmen do not go off duty until 6 o'clock in the morning. By the time they have reached their homes, breakfasted and prepared for rest from an hour to two hours must elapse. In case any patrolman is to appear at 2 o'clock in police court his rest must end not later than 1 o'clock in the afternoon, possibly earlier than that. About five and one-half hours of sleep is what in most cases he will be able to get under Judge Louttit's new order. Thus Judge Louttit's assigned reason for convening police court in the afternoon is no reason at all. It is the proof that he simply gave the matter no intelligent consideration.

The effect of this new rule will be in the main outrageous. The majority of offenders arraigned at Judge Louttit's bar are men arrested for public intoxication. A large if not the larger percentage of these are taken into custody in the latter part of the afternoon or in the earlier hours of the evening. These poor unfortunates, who in most cases have punished themselves sufficiently for their transgressions of the law, must lie all night and the greater part of the following day in the ill-ventiiated, dark and foul-smelling city prison, without food if they are without money—and most of them are—until police court convenes. The poor ots who make up the bulk of the police court grist are guilty of nothing to deserve such affliction.

Judge Louttit's rule is utterly senseless and indefensible. The effect of it will in no instance be beneficial and in many cases it will prove inhumane and outrageous. Judge Louttit ought to revoke his new order as soon as possible.

The privilege allowed by the postoffice department to carriers on the rural free delivery mail routes of making purchases, carrying parcels and the like for the patrons along their routes has fostered several abuses, according to reports. In some instances, it is said, carriers have gone quite extensively into the peddling business, carrying goodsized stocks of notions in their mail carts. But the worst abuse is one which the postmaster general has just abolished with a stringent order. It has been found that some of the carriers have been regularly making purchases of whisky in quarts and pints and delivering it to their patrons. Postmaster General Smith announces that any rural free delivery carrier hereafter found guilty of this practice will be punished with instant dismissal. There is not only no harm but there is much good in carriers making themselves generally useful to their patrons in the doing of legitimate errands, but engaging in peddling and especially in purveying whisky ought not to be tolerated and it is evident that the latter at least will not be. No complaints on such score have so far as we have learned ever been made of any of the carriers on the free delivery routes of Allen county.

One reading the exhortations of "Elijah-St. John" Dowie to his Zion congregations in Chicago, is apt to be impressed by the fact that the reincarnated prophet appeals more strenuously for the cash of his followers than for their repentance. Indeed, giving all they can get to Dowie seems to be the Zion overseer's notion of repentance.

WILL COME SOME DAY.

(Ella Wheeler Wilcox in Chicago American.)

Some day there will be no idlers, either among the rich or poor, because enormous properties will no longer exist, and consequently pauperism will cease. It is useless to smile and tell me I am a dreamer of impossible dreams. What man has done man can do. And America is especially happy in the ability to perfect other nations' good ideas.

There are large and successful cooperative societies existing in Holland and in Flanders. They have existed for twenty years, steadily growing in strength and power. No pauper—no object of charity—is known among them, though one society is 35,000 strong, the other nearly as large.

Mr. Bradford Peck, of Lewiston, Me., has begun a similar movement in his Co-operative Association of America. Success to it.

In New Zealand wonderful things have been achieved by changing the laws of taxation.

Henry Lloyd, in a work called "Newest England," describes this improved system in New Zealand, and says of it:

"It enters upon the practice of direct construction by the state of its own public works and direct employment, without middlemen, of its own labor. The men hired by the new regime to build the railroads, bridges, public buildings, make roads, etc., are taken by preference from those citizens who need work.

"In giving them work the new regime also gives them farms and homes from the public lands near by or from the private estates which it buys up for that purpose. The workingmen themselves are made their own contractors, and taught, even the tramp and the casual, to work together co-operatively.

"The state as an employer sees and saves for the community the economic value of the labor of the old and incompetent, the unskilled and the tramp, which the private employer lets go to waste."

I would advise all intelligent workingmen to get this book and learn how the old miserable conditions were changed to the present happy and hopeful ones. I would advise them to think well on what they read and be ready to lend comprehensive aid to our own country when the hour comes for a similar right about face.

OUT IN SYMPATHY STRIKE.

Easton, Pa., July 1.—The carpenters, painters, tinsmiths, plumbers and electricians of this city quit work today in sympathy with the bricklayers and plasters, who went on strike May 1 for shorter hours, with no reduction in pay.

CELEBRATE SILVER JUBILEE

TWENTY-FIFTH ANNIVERSARY IS OBSERVED.

By St. Stephen's Young Men's Society of St. Peter's Catholic Church—Special Program.

The twenty-fifth anniversary of the organization of St. Stephen's Young Men's Society of St. Peter's Catholic church was observed yesterday with special services during the day and an appropriate program in the evening. In the morning Father Koeidt read solemn high mass, and at 10 o'clock Rev. John Tremmel, of Covington, Ky., who was a former member of the parish, officiated. In the afternoon the society attended vespers in a body.

A very interesting program was observed in the evening in St. Peter's school hall. The opening address was delivered by the president Charles Roth, and Mayor Henry C Berghoff delivered a brief speech Joseph Becker, one of the pioneer members, gave a short history of the society. The society was organized February 6, 1876, under the direction of Father Wemhoff. In the years 1889 and 1890 the organization was on the verge of disbanding but determined efforts on the part of Rev. Messman prevented a dissolution. The society was reorganized in 1890 with a membership of 100 and it has been most prosperous since.

The closing address was made by Secretary Willian Rhine. The program was interspersed with many interesting features, and at its conclusion a banquet was served, Mayor Henry Berghoff presiding.

DOSWELL—WHITFIELD.

Miss Lucy Caroline Doswell, daughter of Mr. and Mrs. George Doswell was united in marriage at 8 o clock Saturday evening to William E. Whitfield, of Chicago, and the event was one of the prettiest of the season. It was solemnized at the home of the bride's parents, under a floral arch beneath a canopy on the lawn. The grounds were lighted with Chinese lanterns, and the tent was beautifully decorated with ropes of evergreen, pots of flowering fuschias and an abundance of carnations. Rev. A. W. Seabrease officiated and Mrs. G. W. Doswell played the wedding march as the bridal party appeared. Two flower maidens, Rhoda Doswell and Haidee Adams, were first, strewing the pathway with flowers which they carried in hats hung from their arms. Miss Nellie Brady was bridesmaid, and was attired in pink, while John Adams was best man. The bride wore a charming gown of white batiste, made over a silk slip, and carried an arm boquet of bride's roses. She walked with her father, who gave her away. After the ceremony a delicious supper was served by Seidel, on tables set on the lawn and under the canopy. The bride's table was done in green and white. The decorating, which was very artistic, was done by Miss Flick. Mr. and Mrs. Whitfield left on an early morning train for Buffalo and Niagara, and on their return will reside in Chicago. Out-of-town guests were Mrs. W. Whitfield and daughter, Miss Whitfield, mother and sister of the groom; Mr. and Mrs. Enswelier, Mr. and Mrs. Burton and Miss Nettie Burton, all of Chicago.

ILL AT COLUMBIA CITY.

(Columbia City Post.)

"Wm. Harris, of Fort Wayne, reached this city Friday at 12:51 and started to walk over to his brother's saloon on Whitley street. When he reached the bridge at the brewery he was seized with cramps and was also suffering from pleurisy. He managed to get as far as the Wabash tracks, when he collapsed. Several bystanders went to his assistance, among them his brother Frank. The sick man was taken to the home of his brother and was able to afford him such relief that he returned to his home at 10 o'clock. Mr. Harris is a carpenter and builder and his purpose in coming here was to make a settlement for a car load of lumber he had purchased of Mosher & Grant."

TWO KILLED AT SEDAN.

Auburn, Ind., July 1.—Lee Hine and Isaac Tryor were struck by a Lake Shore train at Sedan Saturday afternoon, while crossing the tracks in a buggy, and both were instantly killed. Tryer carried the mails between the postoffice and the depot and was 50 years of age. Hine was about 35, and both were married.

WILLIAM HELWIG HURT.

William Helwig, residing at 105 Taylor street, was struck by a Wabash engine at the crossing of the shop track on Fairfield avenue shortly after 3 o'clock Saturday afternoon and sustained painful injuries. Helwig was formerly employed at the organ factory, but is convalescing from recent illness, and lately has been devoting his time to canvassing for a patent ironing board. He carried one of these boards at the time he was struck Saturday, and to this fact probably owes his life. The engine had just left the repair shops and was being tested. Helwig did not notice the aproach of the engine which was backing slowly toward the shops, but the ironing board he carried received the force of the impact in such a manner as to throw Helwig clear of the rails. The injured man was unconscious when yard men rushed to his assistance, and he was taken to his home. Dr. Maurice Rosenthal, who was summoned to attend him, found the patient suffering from concussion of the brain. There was also a severe cut across the forehead and numerous bruises upon the body, but no bones were broken.

FOREIGN CROP OUTLOOK.

London, July 1.—The Mark Lane Express in its weekly review of the crop situation says otday:

"The official report giving the yield of the Indian wheat crop as 30,926,000 quarters should mean that nearly six millions will be available for export, but as the granaries are completely depleted it is not likely that more than three millions will be exported."

Summarizing the continental position the Mark Lane Express says it expects over the average wheat yield in Russia, Spain and Servia, average yield in Italy, Austria-Hungary, Roumania and the Netherlands and belowe the average yield in Germany, Poland and Scandinavia. The feature of the maize trade continues to be the spirited competition of Roumania, Bulgaria and Turkey with the United States and Argentina.

WANT EIGHT HOUR DAY.

Boston, July 1.—Carpenters of this city who had not been granted the eight-hour working day presented a demand today for that schedule. There are only a few hundred of the 3,000 carpenters in the city whose employers have not already conceded the eight-hour rule.

HEALTH BREAKING IN JAIL.

Lexington, Ky., July 1.—James Howard, of the noted Howard feud faction of Clay county, and Caleb Powers, secretary of state under W. S. Taylor, both convicted of complicity in the assassination of Senator William Goebel and both awaiting new trials, are almost physical wrecks as the result of their long confinement in jail. The narrow steel cells, almost without ventilation, are ruining the health of the men, already weakened by confinement. Both were fine specimens of mountain manhood, but they are now thin and pale.

A number of the women of the state started a movement to raise funds for the defense of the men and to create sympathy for them. Close on the heels of this were statements that the noted prisoners had planned to escape and they were then placed in even closer quarters than before. Republicans claim that there was nothing but political malice in the rumor of escape, but Jailer Lawrence, of the Franklin county jail, says that a mysterious stranger visited Powers' cell and left a large sum of money and that Powers immediately began to insist on the jail employes drinking at his expense. Lawrence claims also to have observed other indications of a plot to escape.

DEATH TERMINATES A VISIT.

Dublin, Ind., July 1.—Mrs. James Conn yesterday stepped from the train in London, in Shelby county, where she contemplated making a visit to her sister, Mrs. John Vernon. The sisters twenty-five years ago were separated and have not seen each other since. Recenly Mrs. Conn, who lives in Missouri, learned the whereabouts of her long lost sister and at once started for Indiana to meet her. Mrs. Conn was much excited over the glad tidings, and, filled with the joy of meeting her sister, she rushed into her home and surprised her. In ten minutes aftre she reached her sister's home she died.

What's the secret of happy, vigorous health? Simply keeping the bowels, the stomach, the liver and kidneys strong and active. Burdock Blood Bitters does it.

Laphtheria relieved in twenty minutes. Almost miraculous. Dr. Thomas' Eclectric Oil. At any drug store.

Hives are a terrible torment to the little folks, and some older ones. Easily cured. Doan's Ointment never fails. Instant relief, permanent cure. At any drug store, 50 cents.

A little life may be sacrificed to an hour's delay. Cholera Infantum, Dysentery, Diarrhoea comes suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

ASK FIFTY-YEAR FANCHISES

MUNCIE-FORT WAYNE LINE MEN ARE MOVING.

Say the New Electric Road is Practically Assured—Cleveland Capitalists Interested.

"Promoters of the proposed electric line, which has been built so many times, are hustling, despite the warm weather, and the line is practically assured, not only to Hartford City, but to Fort Wayne," says the Muncie Herald.

The above information was given out this morning by a conservative business man of this city who has been interested in the enterprise for some time. The decision of the eastern men, who are to furnish the greater part of the capital, the informant continues, have virtually not only accept the proposition, but are seeing about the granting of franchises for fifty years, instead of only twenty, as was the case in many instances. They feel assured that the teritory is valuable, and that the road will ble a winner. The line will extend to Hartford City first, but it is as much assured that it will eventually be built into Fort Wayne.

Mr. Hexter, one of the Cleveland men interested in the proposed road, is in Chicago at present. He will be in Muncie within a few days, and the matter will be given more serious consideration. The name of the company, as spoken of in the franchise, a number of which have already been secured, is the Muncie, Hartford City and Fort Wayne Traction company.

The work of securing the remaining franchises will require but a short time, when the organization of the company will follow. This will be completed with the closing of the franchises and the completion of the great amount of other detail work necessary in such a project. It is expected that the company will be organized in this city in the near future. Other binding features, which will insure the completion of the road will also occur soon.

MARS A TORONTO SABBATH.

Toronto, Ont., July 1. — The first Sunday steamboat excursion ever run to Toronto arrived shortly after 2 o'clock yesterday afternoon by the steamer Argyle, from Buffalo. Passengers were mostly Buffalo street railway employes and were greatly amused over the fact that they could get no intoxicating liquors in this city, all saloons being closed. The vessel left again shortly after 5 o'clock. Police got all information as to captain and owner and will prosecute both. The Ontario government has promised that if the existing legislation is not stringent enough to prevent such trips further legislation will be attempted. The Sunday steamboat excursions from the city have heretofore left at midnight Saturday, returning after midnight Sunday.

BARKER GIVES UP APPEAL.

New York, July 1.—No appeal will be taken from the sentence of Judge Blair by Thomas G. Barker, who was convicted of shooting Rev. John Keller and given five years' imprisonment in the Trenton state prison. Mr. Barker, after consultation with his friends, has decided that the money which was to have been raised to make an appeal shall be used to keep Mrs. Barker in comfortable circumstances while he is serving his sentence. But for this fund Mrs. Barker would be practically penniless. It is said that Barker will begin serving his sentence before the end of this week. Mrs. Barker will probably make one more visit to the Hudson county jail to see her husband and bid him good-bye. His attorneys will also call and after this Barker will ask that he be sent to the penitentiary at once, so that he may begin his term.

Mothers, be sure and use Mrs. Winslow's Soothing Syrup for your children while cutting teeth. It is the best remedy of all. may 8eod&w

BANK'S DOORS CLOSED.

Buffalo, N. Y., July 1.—The City National bank, which was placed in the hands of a receiver on Saturday night by Comptroller of the Currency Dawes, did not open its doors this morning. M. D. Lynch, chief of the division of insolvent banks, and Special Bank Examiner W. A. Mason took charge of the bank today pending the arrival of Mr. Vaughn, the temporary receiver. President Cornwell said that he would probably make a statement later in the day, but had nothing to say just now. Not more than fifty people were at the bank at 10 o'clock, the usual opening hour, and a few minutes later most of those had left.

The per capita of wealth in the United States was $308 in 1850, $780 in 1870 and is now $1,200.

WILL GO TO PEKIN

CHINESE COURT TO RETURN TO OLD CAPITAL.

CONTRARY REPORTS DENIED

CAPITAL NOT TO BE FIXED IN HUNAN PROVINCE.

DISCUSSION OF INDEMNITY

THE SUBJECT HAS NOT YET BEEN EXHAUSTED.

Berlin, July 1.—Nothing is known in German official circles regarding the news from Shanghai to the effect that Kai-Fong-Fu, in the province of Ho-Nan, is to become the Chinese capital. The latest reports received here from Pekin reiterate the statement that it is the court's intention to return to Pekin.

The German government has not been informed touching the plans of Prince Chuan, further than that he is coming to Berlin to apologize for the Baron Von Ketteler murder. If Prince Chuan's plans are to visit other European courts and Washington, the Berlin authorities have not been informed. In relation to the present status of the Pekin diplomatic negotiations, the representative of the Associated Press here learns on reliable authority that the question of the guarantees of bonds securing the indemnities is still unsolved, a difference of opinion between Great Britain and Russia still existing. Russia's proposition is to raise the sea tolls from 5 to 10 per cent., but if the junk and salt taxes with 5 per cent. of sea tolls shall not hold sufficient.

Great Britain's objections to the Russian proposition are believed to be dictated by practical reasons, since the above taxes would most probably suffice, than by the popular sentiment in Great Britain and by parliament. The Berlin authorities believe, also, like other powers, that Russia's proposition is not likely to go into effect.

Hence Germany confidently expects a final agreement upon the above question. The matter of the renewal and modification of commercial treaties with China has meanwhile been taken up jointly by the Pekin diplomatists, since this, like the indemnities matter, is expected to be settled in unison, at least in its general features. Germany, with the other China sea trading powers, advocates the principal of the "open door," the opening of additional harbors and the greatest possible commercial liberty. Well informed circles here believe Russia does not oppose the above on principle, but though she may object to certain details when the treaty negotiations are more advanced.

The Library Hall Athletc Association will meet this evening.

Little prices and high quality at Patterson's.

Mr. A. V. Powers, foreman of the Paragon Shirt Waist factory laundry, will for the next sixty days, do custom laundering, making a specialty of colored shirts and ladies' shirt waists, collars, cuffs, etc. Collars and Cuffs, 18c per dozen, shirts, 8c. The wagon will call to any part of the city in answer to Home 'Phone 1610. All goods strictly C. O. D. 1-3t

The best 50c knee pant in the city at Patterson's.

CELERY KING
NATURE'S CURE

A Girl's Experience.

My daughter's nerves were terribly out of order. She was thin and weak; the least noise startled her, and she was wakeful at night. Before she had taken one package of Celery King the change in her was so great that she could hardly be taken for the same girl. She is rapidly growing well and strong, her complexion is perfect, and she sleeps well every night.—Mrs. Lucy McNutt, Brush Valley, Pa.
Celery King cures Constipation, and Nervousness, Stomach, Liver and Kidney Disease.

THE BIG STRIKE IS UNDER WAY

(Continued From First Page.)

them without a week's cessation, Union and non-union alike, they are demanding a short vacation, and the prediction is made that the companies will be unable to keep any one at work for two or three weeks after tomorrow. The heat is intense and the men, one vice president said today, are almost in a state of revolt.

THE REAL BATTLE.

It will be after, perhaps, the first of August when the combine makes a serious attempt to start up in full, that the real battle will begin if no settlement has been reached at that time. The company cannot well delay operations longer than that on account of the present floods of orders. In fact, the urgent orders now on the books can scarcely wait through July.

Thus the association has almost a month more to prepare for the coming struggle. It is the boast of the Amalgamated association officials that by that time they will control 80 per cent of the capacity of the combines of the plants.

SHAFFER'S PLANS.

Gradually the plans of President T. J. Shaffer, of the Amalgamated association are being uncovered. Since the trouble in the W. Dewes Wood Mills, in McKeesport, a few months ago, the Amalgamated association has been actively engaged in breaking up the present arrangement of the plans of the combine in operating parts of the plants with non-union men and the others with union men. Mr. Shaffer says that if this is not checked, the life of the Amalgamated association is threatened, for the combine will always work their union mills last, and the union men will be sufferers by this discrimination.

It was believed by the Amalgamated association that the promptness with which the sheet steel combine came to their terms in the McKeesport trouble and allowed the union to exist in that plant would prove a boom to further aggressive action on the part of organized workmen Taking advantage of the new United States Steel corporation as the parent head of all the other combines with which the Amalgamated association had to deal, it was felt that by a theatened strike of all the union men in all the branches of the steel business would so frighten the combine officials that they would give in and allow every one of the non-union plants to be unionized.

WHY THEY STRIKE.

The strike order against the American Sheet Steel company has been ordered because this portion of the United States Steel corporation has thus far stood out against the increase in union mills, now recognized as union, to remain so. The American Steel Hoop company stands in the same position.

Thus is arrayed against the union organization the two branches of the United States steel corporation. The scale for the American tin plate company, also a part of the greater corporation has been signed. It is said, however, that in case the struggle continues the Amalgamated officials have the power to call out these tin plate workers as a means of defense against the parent corporation which they hold responsible for all disagreements.

The strike now threatened in the bar mills, following so closely upon that of the sheet mills, has therefore a most serious aspect and may spread to enormous proportions.

A PREDICTED STRUGGLE.

Indeed, in some circles, it is predicted that the gigantic struggle that has been talked of since the organization of the United States Steel corporation was formed is on the eve of breaking out, and that its coming is much sooner than many believed was possible.

The position that the greater combination was placed in, practically frees the independent plants from complicty in the battle. The fight is not for wages, but for organization. Either the Amalgamated association must bow to the will of the greater combine or else the greater combine will have to give up its non-union mills.

Members of the advisory board of Amalgamated association declare that the association has a surprise in store for the combine.

ORGANIATION STRONG.

"We have not been idle during the first half of the present year," said one. "We have strong lodges organized in several non-union plants over which the combine imagines it has absolute control. We are in better shape for a strike than we ever were before. Our membership among the sheet workers is stronger than it has been in years, and our treasury has a larger defense fund than we ever had in our history. The question of signing for all mills must be settled this year. Next year or the year following will be too late."

At McKeesport the strike outlook is regard seriously. W. Dewes Wood mill was shut down a week ago and no effort will be made by the company to start up the mill within a few weeks. A party of twenty-two of the employes left yesterday for Port Marion, where they will go into camp. Other employes are to follow. The members of the Amalgamated association all endorse the stand taken by President Shaffer, and predict that unless the company signs the scale, the mill cannot be started. The Amalgamated people say men are joining their organization every day.

MEN FOLLOW ORDER.

In accordance with President Shaffer's orders the crews of sixteen furnaces in the Lindsay and McCutcheon's mills, Allegheny, are out on strike, and the four other crews are expected to quit today. The men say they will remain out until the scale is signed.

The strike began at 3:30 a. m. when four of the crews went to work and found that none of the men working on the other sixteen furnaces had shown up. The four crews went to work but were approached by the strikers, and it is understood have agreed to quit when the day's turn is over. The finishing and all other departments in the plant are running full.

At the Isabella furnace of the American steel hoop combine, at Aetna, it was stated today that the strike would not affect it. There are 800 employes, 700 of whom are Italians. The remaining 100 are machinists and are satisfied with their scale.

At the Lockhart Iron works, McKees Rocks, it was announced that the strike would not affect the operation of the plant, as the amalgamated scale was signed by the works on Saturday afternoon.

OUT AT MUNCIE.

A telegram from Muncie, Ind., reports that the plant closed down. Five hundred men are out.

An early settlement is expected. Signatures to the amalgamated scales from the following concerns were received at the headquarters this morning: Lockhart Iron and Steel company, McKees Rock, Pa.; Sharon Tin Plate company, South Sharon, Pa.; Stewart Iron company, limited, Sharon, Pa.; N. and G. Taylor Tin Plate company, Cumberland, Md.; American Rolling Mill company, Muskegon, Mich.; Southern Car and Foundry company, Anderson, Ala.; Bessemer Rolling Mill company, Bessemer, Ala.

CHRISTIAN JAUTZ NO MORE

SUCCUMBED TODAY AFTER A LONG ILLNESS.

Was a Gardener for More Than Fifty Years—Frederick Frey Dead—Other Mortuary Matters.

Christian Jautz, a well known gardener and for more than fifty years a resident of this section, died at 7 o'clock this morning at the home of his son-in-law, Christian Vollriede, corner of High and DeGroffe streets.

Death was due to dropsy and cancer and it followed an extended period of illness. Mr. Jautz was a native of Germany, but practically all his life had been spent in Allen county. His age was 68 years, 8 months and 14 days, and since his health began declining he and his aged wife have been making their home with their only child, Mrs. Vollriede. There are several grandchildren.

Funeral services will be held Wednesday at 2 o'clock from the residence and at 2:30 from Trinity Lutheran church.

FREY.

Frederick Frey, 82 years of age, died Sunday morning at St. Joseph hospital, from septicaemia, at the age of 82 years. Mr. Frey was a native of Germany, but came to Fort Wayne at an early age.

Thirty-five years ago he removed to Burlington, Iowa, where he resided for twenty-five years, and where his wife and two sons are buried. For the past ten years the deceased made his home with his brother-in-law, George Brouwer, in Madison township.

The remains were removed to the residence of J. H. Gable, No. 17 West Leith street, and will be taken to Burlington, Iowa, for interment, leaving in charge of Mr. Brouwer Thursday morning at 3:30 over the Pennsylvania railroad.

FUNERAL ANNOUNCEMENTS.

Dinkel.—The remains of Charles J. Dinkel were removed today from Klaehn & Melching's undertaking rooms to the residence, 1 Victoria avenue, where friends may view the body. Funeral services will be held Tuesday afternoon at 2 o'clock from the residenc and at 2:30 from Zion's Lutheran church. The Carpenters' union will attend in a body. The interment will be at Concordia. Mr. Dinkel's immediate family consists of the widow and four children. Other surviving relatives include the father, Christian Dinkle, of Battle Creek, Neb.; one brother, William Dinkel, and three sisters, Mrs. Mary Schacher, of this city, and the Misses Lizzie and Caroline Dinkel, residing in Nebraska.

MAYOR TOM JOHNSON'S WAY.

Major W. J. Gleason appeared before the board of control one day last week and announced that he wshed to make a complaint.

"Go ahead," said Mayor Tom L. Johnson.

"The Big Consolidated Stree Car company is preparing to relay its tracks on Cedar avenue and put down the old cobble stones between tracks."

"What's the kick?"

"They're an eyesore and—"

"Come forward, Mr. McCormick," called the mayor to the manager of the manager of the Big Consolidated.

"We're only relaying one track," said McCormick, "next year we'll relay the other and put down Medina block stone between both tracks."

"Is that satisfactory, Mr. Gleason?" asked the mayor.

"Yes, if they do it."

"Will you write a letter to the board agreeing to do that?" inquired the mayor of Mr. McCormick.

"I will."

"Another thing," said Mr. Gleason, "they're putting those cobble stones on our lawns."

"Will you repair all lawns?" said the mayor, turning to McCormick.

"We are willing to do anything we can."

"Will you repair the lawns?"

"We'll put down boards and protect them."

"Will you repair the lawns?"

"Um-er-yes."

"Will you include that in your letter?"

"Yes."

"Are you satisfied, major?"

"I am."

"What's the next business?" inquired the mayor.

Before the board adjourned Manager McCormick returned with the letter in question.

"Hold on," exclaimed the mayor, "this don't say you are going to relay the second track next summer. If you don't agree to relay it we'll make you pave between the tracks you are now tearing up with block stone if we can."

"I think we will relay the second track next summer, but if you insist on that I want to consider the matter further."

"All right. How long do you want?"

"Until tomorrow."

"Have you begun laying any of those cobble stones?"

"Yes."

"Stop it, will you, until we agree as to that second track."

"I don't know as I should."

"Then you won't?"

"I don't see why I should."

"Tom Gavin," cried the mayor. The deputy director of public works came forward. "Go right to Cedar avenue and stop the men who are relaying cobble stones there. Don't allow them to begin again until you hear from this board."

Galvin hustled out. McCormick's face flushed, but he didn't have a word to say.

New neckwear just received at Patterson's.

THE ACT OF A HERO.

He Snatched a Life Out of a Pool of Molten Metal.

Tarce men came up carrying a long iron shaft, which had been cut in two, so that an iron ring could be inserted between the two halves. An empty crucible a foot wide and deep hung in the ring. The forward end of the pole held a crossbar, making it, as it were, a huge T. Two men held the T part of the pole; the third grasped the rear end. The crucible hung between. The remainder of the molten metal from the caldron was tipped into one crucible, and the men trotted off with it, the two in front with strained faces, the man behind driving them complacently, the oddest team in the world. He steered them through a doorway, and they emptied their crucible into a small mold. As they went they kept step in an unusual manner. Instead of stepping out right foot with right foot the left man's right leg and the right man's left leg went forward together, knee with knee, foot with foot. We asked why.

"That," said our guide, "is to prevent them from tripping. If they should fall, you know, that metal would pour over them."

"Of course such a thing never happened?"

"Yes, it did once. One of the men went down. The other jumped clear, but the fellow on the floor swam in it."

"Horrible! Of course he died instantly, poor man?"

"No; the foreman of the carrying gang, taking in the situation, made several terrific leaps for him, jumped right into the middle of it, picked him up and threw him out of it bodily. Then he jumped clear himself, with the stuff dropping from his shoes. They both went to the hospital, but they are all right now. Heroic, wasn't it? By the way, that's him, the foreman, Jim H., over there now. He is still looking after those fellows."

We looked over to where a big muscular fellow was directing a gang of men manipulating molten metal. He was not disfigured, and he did not look like a hero, but thereafter the grime that covered him seemed noble indeed, and he would not say a word of his feat when we sought to talk with him about it. But Jim H. will probably never want for a job as long as Baldwin's is working.—From an Article on the Baldwin Locomotive Works in Frank Leslie's Popular Monthly.

ONLY AN OLD SONG.

But It Illustrated the Curiosity of a New York Crowd.

It was only a song, and an old one at that, but it came near causing a block on the Broadway surface line the other day. The singer was as black as the coal in the cart he was driving, but that fact cast no shadow on his exuberant spirits. As he swung his chariot from Broadway into Cortlandt street he raised his voice. Then the trouble began.

When the notes of "Old Black Joe" rang out high and clear above the din of traffic, expressions of blank amazement overspread the faces of the hurrying pedestrians who thronged the sidewalks. Necks were craned in a vain search for the location of some newly patented phonograph. Crowds collected and gazed vacantly upon the air, as if they expected to locate the sound in some office window; teams were drawn up until a long line of trucks extended up Cortlandt street to Broadway, barring access to the street, that their drivers might ascertain the cause of the crowd's curiosity. Suddenly a newsboy cried:

"Ah, rubber! Dontcher see it's only de nigger a-singin'?"

The crowd laughed. The darky, now lustily holding forth on "The Suwannee River," turned sharply into Church street, totally oblivious to the excitement he had caused. The crowd then dispersed, and the long line of wagons began to move once more.

"Well," exclaimed a Jerseyman on his way to the ferry, "New Yorkers call country people curious, but"— He shrugged his shoulders and passed on.—New York Mail and Express.

Treasures of the White House.

There are doubtless in every large city in the country larger and more valuable collections of bric-a-brac and art furniture than that to be found in the private apartments of the executive mansion, but it is a question whether there is in the length and breadth of the land any other half so interesting. Rarity is, of course, a universal characteristic of the artistic gems scattered through the home of the presidents, but better than that is the fact that almost every piece is fraught with memories and associations that make it a prized possession. Of the whole number probably half are the gifts of kings and rulers, tokens of appreciation from friendly nations, and the remainder, having been fashioned especially for the White House, have no duplicates anywhere else in the world.—Woman's Home Companion.

Very Like a Scandal.

"This dollar that I hold in my hand," he said, "reminds me of a deep, dark, scandalous secret."

"Oh, George!" his wife exclaimed, dropping her hands in her lap and bending forward eagerly, "tell me about it."

"Yes," he went on, "it reminds me of a secret of that kind, because it's so hard to keep."

And then she refused to speak to him for three hours.—Chicago Times-Herald.

It's Withholding That Costs.

Diner—Come, tell me straight. Is it any real advantage to a man who gives you a tip?

Truthful Waiter—Honestly, I can't say that it is, but it is apt to go hard with the gentleman that doesn't tip me.—Boston Transcript.

Took No Chances.

The passerby who happened to look through the open door of an up town fire engine house the other day might have wondered why one horse of the engine team was kept standing at the pole of the engine, hitched up, the horse belonging to the other being in his stall. The reason was extremely simple. Some men on electrical wires were occupied in front of the horse's stall, where in case of an alarm they would have offered more or less impediment to his free movement from the stall to the engine. Of course the firemen took no chances on anything of this sort, so while the work was going on they hitched the horse up in his place on the engine. This was not so comfortable for him as standing perfectly free and clear of harness in his roomy stall would have been, but the horse apparently appreciated the situation fully. While he was the reverse of elated over it, yet as the men worked on he stood at the pole and held his place there with steadiness and patience.—New York Sun.

The First Instance.

Wife—Do you mean to insinuate that your judgment is superior to mine?

Husband—Certainly not, my dear. Our choice of life partners proves it isn't.—Chicago News.

Lazy Liver

"I have been troubled a great deal with a torpid liver, which produces constipation. I found CASCARETS to be all you claim for them, and secured such relief the first trial, that I purchased another supply and was completely cured. I shall only be too glad to recommend Cascarets whenever the opportunity is presented." J. A. SMITH.

NEWS OF THE DIAMOND

STANDING OF THE CLUBS.

	Won.	Lost.	Pct.
Indianapolis	41	18	.695
Grand Rapids	37	25	.597
Fort Wayne	31	31	.500
Dayton	29	29	.500
Wheeling	28	28	.500
Toledo	27	29	.482
Marion	26	37	.383
Columbus	21	40	.344

The game yesterday was worth looking at although like the one played on Saturday, it was full of holes and the error column is something appalling to look at, it was a nice, hotly contested game nevertheless. The mighty Pardee was in the box and he got his familiar old bumps just the same as though they were coming to him. He pitched good ball and with perfect support might have won, but that is one of the lotteries of baseball. The game opened listlelssly for Fort Wayne, Toledo scoring one in the first inning, to which they had no more right than they had to twenty and yet in the comedy of scoring, it was the only earned run made in the game. Ganley scored because F. Miller in the first place held the ball in his hand like one in a trance and watched him run from second to third when he could have thrown him out in a walk, and on the next play, Babb, by an equally dumb spiel preferred to throw Graffius out at first, to stopping Ganley's run at the plate which was a dead easy chance. After that, however, everybody seemed to get into the game and notwithstanding the 110 degrees which Old Sol was pouring down, the boys played good ball, the errors which came later not being costly enough to lose the game. In the sixth the Mud Hens made two runs with only one hit back of them and only one error to charge; but sandwiched in with the mess was a base on balls a stolen base, and a couple of fielder's choices which let both men safe in each case. It was good sharp ball playing but it did not get ing but it did not get anything at the time. Mullin pitched great ball for Fort Wayne and pitched himself out of several tight holes which the erors of the fielders and the stupid plays heretofore referred to got him into. He was not so clever with the stick as usual, although he scored the first run by letting Fuller come in on his long hit to Bobby Gilks which that gentleman obligingly muffed. What Mullen missed at bat his partner, Fuller, made good, he having three hits out of four times up to his credit and one of them was a three bagger at that. If Fort Wayne can make good once more with Toledo today, she will be away out of the selling plater class and will have a cinch on the one, two, three column. The team goes away tomorrow and will not return until July 9, during which time they will play nine games, six of which the fan with good eyesight can already see dangling at "Doggie's" belt. Yesterday's score:

Toledo	1	0	0	0	0	2	0	0	0—3

Earned runs—Toledo, 1. Two-base hits—Bevans, Woodlock. Three-base hit—Fuller. Stolen base—Cargo. First base on balls—Off Mullin, 1. Struck out—By Mullin, 6; by Pardee, 4. Double plays—Nattress to F. Miller to Thornton 2; Graffius to Foutz. Umpire—Hornung. Time—1:20. Attendance—1,600.

OTHER ASSOCIATION GAMES

DAYTON, 15; INDIANAPOLIS, 8.

Dayton, Ohio, July 1.—The pride of the pennant-leaders was humbled yesterday by the locals, who hammered Alloway for twenty-one hits, netting a total of fifteen runs. Wright was not in prime good order. Score:

Dayton	6	0	0	3	1	1	2	2	*	—15
Indian'p'lis	2	0	2	0	2	0	0	1	1	— 8

Hits—Dayton, 21; Indianapolis, 10. Errors—Dayton, 3; Indianapolis, 3. Batteries—Wright and Blue; Alloway and Byers. Umpire—Mullane. Attendance—1,200.

GRAND RAPIDS, 7; COLUMBUS, 5.

Columbus, Ohio, July 1.—Columbus made a grand batting rally in the ninth, scoring four earned runs after two were out. Grand Rapids' lead was too great to overcome. Williams was hit hard and the locals fielded poorly. Score:

Columbus	0	0	0	0	1	0	0	0	4	—5
G'd Rapids	1	0	0	1	0	1	2	2	*	—7

Hits—Columbus, 8; Grand Rapids, 9. Errors—Columbus, 4; Grand Rapids, 4. Batteries—Williams and Zinram; Bailey and Zalusky. Attendance—1,806.

WHEELING, 13; MARION, 7.

Wheeling, W. Va., July 1.—The first Sunday game of the season was played yesterday at Sisters Island park in the Ohio river. Poor transportation facilities kept down the crowd. Both Streit and Eagan were hit hard but Wheeling fielded cleanly and batted consecutively. Yerkes started in to pitch for Marion but retired in the first with a split hand. Score:

Wheeling	0	0	0	0	6	0	0	2	4	—12
Marion	0	1	0	4	0	0	2	0	0	— 7

Hits—Wheeling, 16; Marion, 9. Errors—Wheeling, 0; Marion, 2. Batteries—Streit and Fox; Eagan, Yerkes and Kellner.

THE GAME SATURDAY.

Fort Wayne added one to its string and squeezed into third place on Saturday by defeating Toledo, by a mighty narrow majority. It took ten innings to do the job and then the victory was one of rather doubtful honor. The game was as full of holes as a ladder, but belieing the ragged looking score, it was a most interesting and exciting one to watch. Daniels started to pitch for Fort Wayne, but was found pretty regularly and hard in the fourth, so he asked to be relieved. Fricken substituted him and although they did some fierce business with Hon in the first inning he pitched, he soon squared accounts with them and pulled the game out. Following is the score by innings and the summary:

Ft. W....	2	1	1	2	0	0	2	0	1	—9
Toledo...	1	0	0	3	2	0	0	2	0	—8

Hits—Fort Wayne, 11; Toledo, 12. Errors—Fort Wayne 4; Toledo, 8. Two-base hits—Nattress, Bevans, McIntyre 2, Kane, Cargo. Three-base hit—F. Miller. Home runs—Foutz, McIntyre. Sacrifice hits—Ganley. Stolen bases—Bevans McCann 2, Kane, Joss. Innings pitched—Daniels, 4; Fricken, 6. Base hits—Off Daniels, 7; off Fricken, 5. First base on balls—Off Daniels, 1; off Joss, 2. Hit by pitched ball—By Joss, 2. Struck out—By Daniels, 1; by Fricken, 3; by Joss, 8. Double plays—Nattress to F. Miller to Thornton; Nattress to Fuller to F. Miller. Umpire—Hornung. Time—2:10. Attendance—700.

SHAMROCKS DEFEAT GREENS.

At South Bend yesterday afternoon the Shamrocks defeated the famous South Bend Greens in a pretty and exciting game. The battery work of Robbins and Tieman was brilliant. Cherry, Quinn, Collars and Tieman all hit for extra sacks. The game was witnessed by a large crowd, many Fort Wayne people, who were on the Benton Harbor excursion train, being among the spectators. Not a Green Stocking could steal a sack on Tieman. Starke, farmed to the South Bends by Fort Wayne, backstopped for the Greens. The score:

Shamrocks	3	0	0	0	0	0	0	0	2	—5
Greens	3	0	1	0	0	0	0	0	0	—4

Batteries—Robbins and Tieman; Schaefer and Starke. Hits—Shamrocks, 11; Greens, 6. Errors—Shamrocks, 4; Greens, 3.

BLUES DEFEAT KEYSTONE.

The Blues defeated the Keystone, Ind., team yesterday. The team at that place had not been defeated before this date. The features of the game was the pitching of Smith and the home run of Hellinger. Score: Blues, 8; Keystone, 6. Batteries—Smith and Longfield; O. Guess and J. Guess.

DIAMOND DUST.

Second Baseman Rothermel, of the Rock Island team of the I. I. I. league, played short for Wheeling last year.

The Frenchtown Grays defeated the Royals by a score of 21 to 6. Batteries—A. Shoyer and F. Louer; Spalden and Kale.

The Reds defeated the Frenchtown Yales by a score of 27 to 24. Batteries—Gusching and Lallow; Sanders, Walker and Bolen.

The Clover Leaf club defeated the All Star (colored) team by the score of 16 to 8. Batteries—McClaim and Parker; Green and Ridley.

The South Waynes were defeated at Logansport yesterday by a score of 15 to 8. Batteries—McCoy and Boseker for South Waynes; Cuppy and Kessling for Logansport.

The last game of the home series was played this afternoon and tomorrow the team goes to Wabash to play an exhibition game. Wednesday they open at Marion, playing two games on the Fourth. They then go to Toledo for three games and Wheeling comes for three games.

Amos Rusie will pitch the game for Cincinnati on July 4th, and if he makes any kind of a showing at all he will be retained, otherwise he will be dropped unconditionally. All kinds of reports have been current about the big fellow, but he denies the reports that he dissipates, and says he is going to win his game Thursday.

For the first time since the opening of the season Fort Wayne has a percentage of .500. The boys have struck their gait at last and are in the race for pennant honors. The rejuvenating effects of a winning streak on the fans is attested by the increasing attendance, and the fact is patent that as long as we have a winning team there will be large crowds at League park.

In the league batting averages up to June 27, five Fort Wayne players are batting over the .300 mark. They are Mullen, .333; Babb, .313; McCann, .311; Nattress, .306 and Thornton, .301. Nattress has been at bat oftener than any other player in the league, 338 times, having, when the averages were compiled, 73 hits to his credit. Meaney, of Marion, who stands second on the list with an average of 361, has made the greatest number of hits,, 82.

Fox and Bey, of Indianapolis, are not the only sprinters in the league. It is the opinion of many that Bevans, Fort Wayne's fleet center fielder, has them both beaten and as a "bunt artist" he can certainly show both of them a thing or two. Bevans can also be depended on to make a hit when one is needed. Furthermore, Bevans is one of the most gentlemanly players in the league and has never been known to indulge in any kicking, even when kicking was justifiable.

Catcher "Tacks" Labtimer was released last evening and big Bill Smink has been signed by the local management to take his place. "Old Tacks" was a great favorite with the fans, and has more tricks in his makeup than any other catcher in the league. He is full of ginger, is an excellent coach, and was able to keep the spectators in constant good humor while he was on the field, but during most of the time that he has been here, his health has not been good. He suffered some with pleurisy, and that interfered greatly with his hitting, his throwing and his wind. Besides he is a high priced man, too high to be carried on the bench, when a serviceable and much cheaper man could be secured. "Tacks" has a host of friends in Fort Wayne who will be sorry to see him go and will be correspondingly pleased to know that he is recovering rapidly and gaining strength so fast that he will be good as new in a week at the farthest. He is too good a player and knows the game too well to be idle long and whoever gets him will secure an honest and conscientious player of quality A behind the bat. Smink was tried out by Dayton early in the season, but he was unsatisfactory and was released when the Vets made their last appearance here. He was signed by Marion, but was again found wanting and was sent to the woods. He has a batting average of about .256 and considerable of a reputation as a kicker. It is hoped that he has now struck a hot weather gait and will "make good."

THE MARKETS.

Chicago, July 1.—Wheat opened higher today on better cables, but trade was extremely dull and the market eased off rapidly. September opened ¼c to ½c up at 66¾c to 66⅞, advanced to 67c and declined to 66⅝@66½c. Deliveries on July contracts were estimated at a million and a half bushels. Minneapolis and Duluth reported 514 cars, against 430 cars a week ago and 332 cars last year. Local receipts were 63 cars, 1 of contract grade.

September declined to 65½c. The close was ¾c lower at 65¾c.

Corn opened excited and higher on hot weather throughout the southwest. For a time the crowd seemed willing to pay almost any price, but profit-taking finally steadied the market. September opened ⅜@½c to 2¼@2⅜c higher at 46½c to 48c. Only one or two sales were made at the high point. The market then fell to 46¾@46⅞c. Deliveries on July contracts were heavy at two million bushels. Receipts were 222 cars, 4 of contract grade.

On reports of rain in Kansas September dropped back to 46½c and closed ⅝c higher at 46¼@46⅝c.

Oats opened strong with corn, but offerings were liberal and the market eased off slightly. September opened ½@¼c to ⅝c higher at 27¼@27⅜c to 27⅞c and steadied at 27½c. Receipts were 161 cars.

Provisions were firm early with corn. Pork opened unchanged at $14.95, lard unchanged at $8.75, and ribs 2½c lower at $8.15.

THE CLOSE.

Prices at the close were as follows:

Wheat—July, 64¾c; Aug., 65¼c, Sept., 65⅝c.

Corn—July, 44½c; Sept., 46¼@46⅜c.

Oats—July, 27c; Sept., 27¼@27⅜c.

Pork—July, $14.55; Sept., $14.75; Jan., $14.20.

Lard—July, $8.60; Sept., $8.67½; Oct., $8.65; Nov., $8.50; Dec., $8.25; Jan., $8.15.

Ribs—July, $8.00; Sept., $8.12½; Oct., $8.05; Jan., $7.32½.

Flax—Cash N. W., $1.88; No. 1, $1.88; Sept, $1.37; Oct., $1.35¼.

CHICAGO LIVE STOCK.

Chicago, July 1.—Cattle—Receipts, 23,000; steers generally weak; choice butchers steady; others slow. Good to prime steers, $5.20@6.25; poor to medium, $4.20@5.10; stockers and feeders slow, $2.75@4.75; cows, $2.70@4.75; heifers, $2.75@5.10; canners, $2.00@3.65; bulls, $2.85@4.50; calves, $4.00@6.25; Texas fed steers, $4.25@5.35; Texas grass steers, $3.50@4.15; Texas bulls, $2.75@3.75.

Hogs—Receipts today, 36,000; tomorrow, 18,000; left over, 1,450. Market a shade easier. Mixed and butchers, $5.80@6.15; good to choice heavy, $6.00@6.22½; rough heavy, $5.80@5.95; light, $5.80@6.10; bulk of sales, $5.95@6.10.

BUTTER, CHEESE AND EGGS.

Chicago, July 1.—Butter—Market steady; creameries, 17@19c; dairies, 13@16½c.

Cheese—Market steady, 9@10c.

Eggs—Market easy, 11c.

THE DAY ON WALL STREET.

New York, Jluy 1.—Changes were divided between gains and losses at the opening, but the most conspicuous stocks were heavy. Steel fell 1½ on the labor troubles in the trade and the preferred stock was off ¾. There were declines of 1¼ in Sugar, 1 in St. Paul and ¾ in Union Pacific and Pennsylvania. On the other hand Iowa Central preferred was up 1¼ and General Electric 1¾. Business was on a very small scale.

There was no material increase in the volume of stocks offered, but the concessions between transactions became lighter, and in the first hour many prominent stocks sold a point or over below Saturday's close. The losses about 2½ in St. Paul, Illinois Central and Tennessee Coal and 2 in Atchison preferred, the Southwestern, Pacific and Granger stock as a group showed the principal weakness on the reports of danger to corn from drought, and independent metal stocks were sympathetically affected by the labor difficulty confronting United States Steel.

Prices moved further downward, the absence of support for the speculative leaders prompting more general short selling than room traders. A few socks bore the brunt of the selling, notably St. Paul and Union Pacific, which scored losses of 3¼ and 2¼ respectively. New York Central, Delaware and Hudson and Rock Island also yielded 2 points and there were conspicuous losses in other stocks of prominence.

United States Steel touched 47¾. Purchases to cover steadied the market somewhat at noon, the leaders rallying a point or more. The market fell into intense dullness at the recovery.

Colorado and Southern, first and second preferred, rose ¾ to 1¾ respectively and American Tin sold off ½. There was a decline of 3 for Rock Island and Colorado Fuel, 3', for General Electric and 4¾ for Lackawanna. Prices generally drifted downward and the closing was heavy and semi-stagnant.

Bonds were dull and irregular.

NEW YORK PRODUCE.

New York, July 1.—Butter—Receipts, 13,181 pkgs; market quiet and steady; creamery, 15@19½c; factory, 12½@15c.

Cheese—Receipts, 1,857 pkgs; market dull and easy; fancy large colored, 9¼c; fancy large white, 9¼c; fancy small colored, 9½c; fancy small white, 9¼c.

Eggs—Receipts, 10,054 pkgs; market firm; western, candled, 12½@14½c; western, uncandled, 11@13c.

Sugar—Market steady; fair refining, 3 9-16c; centrifugal 96 test, 4 7-32c; molasses sugar, 3 5-16c; refined, steady; crushed, $6.00; powderde, $5.60; granulated, $5.50.

Coffee—Market quiet; No. 7 Rio, 6 11-16c.

THE MONEY MARKET.

New York, July 1.—Money on call firm at 6@8 per cent; prime mercantile paper, 4@5½ per cent; sterling exchange firm with actual business in bankers' bills at $4.87¾ for demand and at $4.86@4.85½ for 60 days; posted rates, $4.86 and $4.88½; commercial bills, $4.84½@4.84¾; silver certificates nominally at 60c; bar silver, 59½c; Mexican dollars, 47¼c.

THE BOND MARKET.

New York, July 1.—Government bonds steady:

What S. S. S. Does for Children

Children are constantly exposed to all sorts of diseases. The air they breathe is filled with germs, sewer gas and dust from the filthy streets are inhaled into the lungs and taken into the blood. At the crowded school rooms and other public places they come in contact almost daily with others recovering from or in the first stages of contagious diseases. You can't quarantine against the balance of the world, and the best you can do is to keep their blood in good condition, and thus prevent or at least mitigate the disease. You have perhaps learned from observation or experience that healthy, robust children (and this means, of course, children whose blood is pure) are not nearly so liable to contract diseases peculiar to them, and when they do it is generally in a mild form. On the other hand, weak, emaciated and sickly ones seem to catch every disease that comes along. This is because their blood is lacking in all the elements necessary to sustain and build up the body. Poisons of every description accumulate in the system, because the polluted and sluggish blood is unable to perform its proper functions.

Such children need a blood purifier and tonic to give strength and vitality to their blood, and S. S. S., being a purely vegetable remedy, makes it the safest and best for the delicate constitutions of children. S. S. S. is not only a perfect blood medicine, but is pre-eminently the tonic for children; it increases their appetites and strengthens the digestion and assimilation of food. If your children have any hereditary or acquired taint in their blood, give them S. S. S. and write to our physicians for any information or advice wanted; this will cost you nothing, and will start the little weaklings on the road to recovery. Book on Blood and Skin Diseases free.

BADLY MANGLED

WALTER STANLEY KILLED ON THE RAILROAD.

BODY FOUND HOUR LATER

COMRADES IDENTIFY REMAINS BY CLOTHING.

AN OLD ENGINEER DEAD

MICHAEL NOLAN CALLED TO HIS ETERNAL HOME.

While en route to his home shortly after 1 o'clock this morning, William Crane discovered the mangled body of a man lying upon the Lake Erie and Western tracks, about fifty yards north of the Main street crossing. He immediately turned about and reported the find to the firemen at engine house No. 7, who in turn summoned the coroner and reported the matter to the city police. In the meantime news of the find reached the Nickel Plate yards and some of the men employed there went to the scene of the accident and identified the remains as those of Walter L. Stanley, a caller of train crews for the Nickel Plate. The body was horribly mangled, but identification was made through a black silk cap and a suit of union uniform worn by Stanley; also by the stub of his left arm, he having lost a hand in an accident several years ago at Knox. When Coroner Barnett had viewed the remains he had them removed to the Peltier undertaking establishment, where they were more fully identified and prepared for burial. The body was badly disfigured, the head and both legs being severed from the trunk and ground into an unrecognizable mass by the wheels.

The news of the sad affair was not carried to the stricken family until this morning, when some neighbor ladies performed that sad duty. The wife was heartbroken over her loss, but the children, three of them, are too young to realize their loss, the oldest being only six years old.

Mr. Stanley has been working days for the past two weeks, but had made arrangement to take the night trick tonight. It was his intention to fish at Arnolds today, coming home this evening in time to resume work. He had made arrangements with Charlie Rouzer, seal clerk at the yards, to go to Arnolds on train No. 35, which left the city at 7 o'clock last evening, but on account of the intense heat Mr. Rouzer decided not to go. Mr. Stanley then decided to go to the lake alone, leaving on train 43, which was due at 1 o'clock this morning. He left his home, 93 Howell street, at 9:30 o'clock last night with this intention, telling his wife that he would spend the intervening time with a friend down town. En route to the city Mr. Stanley left a package and his fishing tackle with Crossing Watchman Carnahan, and it is presumed he was en route to the crossing to get his package when he was run down by the Lake Erie and Western excursion train on its return from Indianapolis, which passed that point at 12:45 o'clock this morning.

Mr. Stanley was born and reared near North Manchester, Ind., where some of his immediately relatives still reside. The remains will be shipped to that place for interment, leaving here probably this evening. He was thirty-one years old.

Walter Stanley was one of the most popular and courteous men ever engaged in his line of work. Everybody liked him and he seemed to like everybody. As evidence of the kindly feelings entertained for him, a Nickel Plate man this morning recalled the fact that Mr. Stanley has been riding a fine bicycle which was presented to him by the conductors and brakemen of that road. Walter was always willing to perform little errands for the men where the courtesy could be accomplished without neglect of his duties to the railway. He was also mild and courteous in his speech.

The accident which caused Mr. Stanley the loss of a hand occurred at Knox, Ind., in 1895, when he was a brakeman. When he recovered from the injury sufficiently to resume work, the company gave him the position he held when he met with the accident last evening.

The engine pulling the excursion train which is supposed to have struck Mr. Stanley was No. 46, with Engineer Cranson at the throttle. The engine crew knew nothing of the accident until told of it later.

BIG ABSENTEE LIST.

The absentee lists at the shops are increasing in proportion to the increase in heat and this morning almost every department was short of men. Among the absentees this morning, most of whom are either sick or indisposed by the intense heat, are J. C. Klingenberger, foreman of the cab builders at the Pittsburg shops; V. R. Burns, L. Gronau, L. C. Brudi, Dennis Collins, G. W. Whiteman, A. J. Huber, J. H. Cody, A. Burchard, S. G. Weller, W. M. Repine, H. C. Eix, C. Doehrmann, J. O. Langston, J. Ensch and James G. Roper.

SOME RESIGNATIONS.

Several men resigned their positions at the Pittsburg shops Saturday, not because of any grievance, but because they have secured more desirable positions. J. Poulson, an air brake assistant, quit to go back to his old home in Toledo; W. P. Lang, also an air brake inspector, resigned to take a position in the Wabash shops, and Ben T. Collins, caller of engine crews, retires to take a position elsewhere. There are plenty of applicants for the vacated positions.

WILL GO TO SWITZERLAND.

Next Wednesday G. F. Harbecker will leave for New York, from whence he will sail in a few days for Switzerland, his native land, to be absent three months. He has not been back there since he emigrated to America, several years ago. Mr. Harbecker is assistant hostler at the Pittsburg round house and a most worthy and hard working man.

A BIG EXCURSION.

The Lake Shore and Michigan Southern road carried 415 people to Benton Harbor yesterday, the occasion being the annual excursion event of the St. Joseph Athletic club. They had a good time and made the journey to and from the resort in good time and without any accidents. The Lake Erie and Western took 117 people to Indianapolis yesterday.

AN INSPECTION ENGINE.

A curious looking piece of machinery is the new inspection engine turned out for the Chicago, Burlington and Quincy railroad. It is a combination of a locomotive and passenger car, the car being set on and around the engine boiler, so that from the windows at sides and front the roadbed can be inspected by the railroad officials to the greatest advantage. It might appear such near proximity to the boiler would mean uncomfortable warmth, but this is avoided by an extra thickness of "plastic lagging," as it is called, a non-conductor of heat, in connection with an air chamber between this and the floor of the car. The machine is lighted with electricity, even to an electric headlight, and ten lights distributed under the engine to afford light when oiling. It will be used constantly on all inspection trips.

NEW RAILROAD WORK.

During the past week the contractors completed the concrete part of the south abuttment of the bridge across the Maumee river at New Haven and advanced the work of making the heavy embankments on the line where it passes through the ravine northwest of the town. The line crosses the creek three times there, but instead of building bridges the contractor will put in big sewer pipes to carry off the water from the east side of the embankment and make a new channel for the stream at the foot of the embankmen on the west side. The graders have commenced work on the north side of the river also and during the week the completed portion of the grade which extends across the field east of Farmer Kamp's barn and north of the river wagon road. The contractor complains of inability to get a sufficient number of teams and laborers, though he is paying good wages. This difficulty will, however, disappear when the wheat, hay and oats crops are harvested. Hundreds of Fort Wayne people went to New Haven on buggies or bicycles yesterday to take a look at the new railway.

SURPRISED THE GENTLEMAN.

Charles Trarbach, the venerable citizen who resides with his son Gustav A. Trarbach, the Pittsburg boilermaker, at 145 East Taber street, was seventy years old Saturday. In honor of the anniversary and to show their respect for Mr. Trarbach about sixty of his friends assembled at that place Saturday evening and gave their host a surprise. The amusements of the evening were cards and music, followed at 11 o'clock by a delicious lunch. Mr. Trarbach has resided in Fort Wayne since 1861 and is one of our best citizens. For a number of years he was employed in the Pittsburg blacksmith shop.

DEATH OF AN OLD ENGINEER.

Michael Nolan died at Lima, Ohio, last evening, after a long and painful sickness with cancer. He was seventy years old and leaves a wife, two sons and two daughters. The children are James Nolan, of the Pittsburg freight house, this city; John A. Nolan, who lives with the family in Lima; Mrs. Katie Fox and Miss Mamie Nolan, also of Lima. The remains will be brought here on Pennsylvania train No. 21, at 10:10 tomorrow morning, and be conveyed immediately to the Catholic cemetery for interment. Michael Nolan was one of the best known and most popular engineers on the Pittsburg road for a number of years, retiring from the throttle only when disease and the infirmities of age incapacitated him for that duty. Six or eight months ago he removed, with his wife and single daughter and son, to Lima, where the eldest daughter already resided. When he became too ill to work he was placed upon the extra pension list of the company, and January 1, when the pension system was placed in operation, he was placed on the list with a number of other old employes. John Nolan, the veteran Pittsburg shopman, is a brother to the deceased. Charles D. and John H. Nolan, of the Pittsburg machine shops, nephews of the deceased, went to Lima this afternoon to accompany the remains and the bereaved family here tomorrow.

INDUSTRIAL NOTES.

Nickel Plate Conductor S. S. Deahl is taking a few days' rest.

J. S. Carey has taken a position as brakeman on the Nickel Plate.

A. B. Sevens, yard conductor at the east yards, is taking a week's vacation.

Superintendent Fenton, of the Findlay, is in New York on business connected with the road.

The Bass company today shipped two large boilers to the Oneonta Street Car company, Oneonta, N. Y.

Henry Mennewisen, a heater at one of the big furnaces at the Bass blacksmith shop, is off duty on account of sickness.

After an illness of a week, A. J. Holzhauer resumed work this morning in the Pittsburg shops. He is a flue cutter.

A. R. Jay, a car inspector at the Pittsburg yards, is off duty on account of the serious illness of one of his children.

William Erwin, the boilermaker, who was sick four or five weeks, resumed work in the Pittsburg shops this morning.

Brakeman A. B. VanMeter, of the Nickel Plate, has taken a vacation for the purpose of visiting friends in Ohio a few days.

Brakeman T. H. Gallivan, of the Nickel Plate, is sick, and Brakeman J. Conners is taking a lay off for business purposes.

E. J. Agerter, who was firing on the engine hauling No. 6 this morning, was taken violently ill at Plymouth and Fireman G. K. Hoham was sent there to take his place at the scoop.

Alonzo Swank is looking after some business matters for the Fort Wayne Electric company at Gas City today.

Boilermaker J. J. Baches resumed work at the Pittsburg boiler shops this morning. He was sick two weeks.

Irvin J. Toy, an armature winder at the electric works, reported for duty this morning after a week spent at Rome City.

Master Mechanic G. P. Sweeley, of Allegheny, was in the city Saturday evening on business with Superintendent D. F. Crawford.

Fred Dickmeyer resumed his duties in the Pittsburg blacksmith shop this morning, after a week or more at the Pan-American exposition.

Alfred Smith, who had been visiting his cousin, Frank Closs, of the electric works, has returned to his home in Hicksville, Ohio.

A train loaded with silk from the Orient and running on passenger schedule passed through the city over the Pittsburg road last night.

Engineer Thomas Quinn, who was sick three weeks, and Fireman Bert Whitley, who had sore eyes, reported for duty on the Pittsburg this morning.

Conrad Rodenbeck, an old shopman, resumed work at the Pittsburg boler works this morning, after a month's absence on account of sickness.

Stuart Rehrer has returned from Eaton, where he was called several days ago to attend to some business for the Fort Wayne Electric company.

A number of naval reserves from Grand Rapids passed through the city Saturday night, en route over the Grand Rapids and the Pennsylvania.

The Pittsburg yard men insist that James Young, one of their number, is to be married at Van Wert, Ohio, one week from tomorrow. Jim denies the report, but the boys say it is true.

Dr. Brown, medical examiner at Grand Rapids for the Pennsylvania relief, spent a few hours in the city Saturday night. He was formerly assistant to Dr. E. F. Wagner at this point.

Master Mechanic J. W. Mitten, of the Lake Erie and Western road, went to Connersville this morning on business connected with the road. Thence he will go to Rushville before he returns home.

Conductor W. B. Kitzelman, who was entertaining his brother-in-law from Lima, and Brakeman C. D. Ream, who was sick for ten days, reported for duty on the Nickel Plate this morning.

Fireman C. A. Welsh, of the Pittsburg, had a finger mashed at Crestline, Ohio, last night and was unable to take his place on the run home. Another fireman was sent to Crestline to relieve Mr. Welsh.

F. A. Weigand, with a box of cigars for the "boys," reported for work at the Pittsburg tin shops this morning. He was given the "Wedding Chorus" in accordance with the custom at the shops, and received his honors with due solemnity.

C. B. Watterson resumed work in the blacksmith shop of the Pittsburg this morning, after an absence of three or four days on account of sickness. J. Gans, of the same shop, who had a hand hurt several days ago, also reported for duty.

J. A. Racht is the guest of relatives and friends in the city. He was formerly employed as a brakeman on the Grand Rapids and Indiana road, with headquarters in this city, but is now engaged in a similar capacity in Texas by the Santa Fe company.

Engineers C. M. Somers, G. C. Burchard and F. M. Enslen and Fireman W. F. Wibel, of the Pittsburg, are sick; Engineer D. Balyard is detained at home by the sikness of some member of his family, and Engineers J. B. Lease and Grant Rhodes and Firemen W. F. Botteran and G. W. Erwin are taking a lay off for private business.

Nickel Plate engine 152, which has just received general repairs at Stony Island, went into service on the third district of the road today. Engineer B. Fullerton and Fireman John M. Frase will preside in the cab.

William Hilgeman, formerly of Auburn, has taken a position with Foreman C. F. Knothe, at the electric works. He is a machinist. John Voirol has taken a position in the meter department at the works.

Harry Smith is at his post of duty in the packing room at the electric works again. Three or four weeks ago he was taken suddenly ill. James Dalton, of the shops, also resumed work this morning. He had been ill three weeks.

Another work train was sent to Plymouth this morning to assist in cutting down the Donaldson hill and building double track. The train will be pulled by engine 127, with Engineer M. Murphy and Fireman G. S. Bates in the cab.

Fireman Frank DeTurk, who was off a week on account of a sprained ankle, resumed work on the Pittsburg road this morning. Fireman G. S. Bates, who had a leg injured three weeks ago, also reported for work on the same road this morning.

The Fort Wayne Electric company this morning sent a car load of machinery and supplies to Fredericksburg, Md., where a plant is being installed. Included in the shipments were an 100-light arc dynamo, seventy-five arc lamps and a switchboard.

J. Baillie, blacksmith at the Wabash shops, had the pleasure of a visit from an old acquaintance, Dennis Cook, last Saturday. They had not seen each other since they parted in the east many years ago. Mr. Cook is superintendent of the Russia Iron works, of Pittsburg.

E. J. Grime took his place as brakeman on the Nickel Plate last night, in accordance with the announcement made in The Sentinel several days ago. He was formerly a yard conductor on the Wabash and Yardmaster Dennis Hayes says he was a most excellent employe.

The Nickel Plate is now employing three switch engines in its yards at Bellevue, Ohio. That city is the middle division point and the many cars turned over between that place and Fort Wayne by connecting lines for the east have to be handled and made up into through trains at Bellevue.

David Majers, who has been wrestling with neuralgia and ulcerated teeth for several days, was unable to resume his duties this morning as he expected. Instead he and the dentist had an engagement, which resulted in the removal of the offending teeth. Mr. Majers will probably report for duty Wednesday.

General Yardmaster H. R. Bowden, of Bellevue, who has been very sick for two or three weeks, left last Saturday, in company with his wife, for Cumberland, Md., where Mr. Bowden hopes to receive physical benefits from a two or three weeks' sojourn. Mr. Bowden was stationed at Fort Wayne until last fall, when he was transferred to Bellevue.

LONG STRIKE SETTLED.

Binghamton, N. Y., July 1.—The strike of Erie boilermakers, which has lasted six months, has been settled. The men, who number about 500, will return to work July 8. All the demands of the strikers, with the exception of abolition of the piece work system, have been granted.

FIRE DESTROYS DOCKS.

Boston, July 1.—A fire which for an hour threatened to do great damage, broke out on pier 5 of the Hoosac Tunnel docks in Charlestown today. The pier which is the Boston terminus of the Warren line steamship company, was destroyed, with a large quantity of merchandise. The steamer Bachem, from Liverpool, which was unloading at the pier, was towed out of danger before she suffered seriously. Six freight cars on the dock were consumed. The loss is placed at $200,000.

RACES ON THE FOURTH.

The entries for the Fourth of July races of the Amateur Driving club have been closed and all arrangements have been completed for the events. The races will be called at 1:30 o'clock, and William H. Fleming will act as starter. The City band will furnish music. Following are the entries for the different events:

—2:30 Trot.—

Ethel Rose	C. F. Centlivre
True Bell	Gus Holbrock
Bessie B	H. Mertz
Bud N	Frank Notestine
Paragon	William France
Jim T	John Wilkins

—2:30 Pace.—

Rozella	John Wilkins
Lottie S	C. B. Buuck
Roxie	William Pape
Indian Chief	Fred Tapp
Zenoia	C. F. Centlivre
Sorrel Dan	J. H. Stewart
Bessie O	J. J. O'Ryan
Busy Bell	William France

—Running Race, Four Furlongs.—

Horse.	Jockey.
Lady Wayne	Rosenthal
Daisy Muller	Froeschaug
Pandora	Mr. Murphy
Pluto	Sprague

A fortune awaits the man who can find a substitute for sponges. New York dealers are wondering what is to become of their business, for, while the supply is not increasing, the demand for sponges grows larger every year. Five years ago the price began to go up, and this season's quotations show an advance of 100 per cent over those of 1895 and 1896. Many varieties cost the buyer on the fishing grounds more today than they formerly sold for in the local markets.

Nerve Slavery

It is present-day conditions—heaping burdens of work upon the nervous system that tells the story—premature breaking up of health.

It tells why so many men and women, who so far as age is concerned, should be in the prime of health, find themselves letting go of the strength, the power, the vitality they once possessed. It is because that great motor power of the body, nerve force, is impaired. Neither will the heart, the brain, the liver, the kidneys, the stomach act right without their proper nerve force supply. Let any organ be lacking in this essential and troubles begin—some of them are:

Throbbing, palpitating heart.
Sleepless nights.
Sudden startings.
Morning languor.
Brain fag.
Inability to work or think.
Exhaustion on exertion.
Flagging appetite.
Digestion slow.
Food heavy.
Easily excited, nervous, irritable.
Strength fails.
Loss of flesh and muscular power.
Settled melancholia.

The above is the genuine package of Dr. A. W. Chase's Nerve Pills, are sold by dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y.

Sold in Fort Wayne by Meyer Bros. & Co.

EXTRAORDINARY BARGAINS

At the Gigantic Closing Out Sale of the James Taft Dry Goods Store---Sale Lasts for Two Weeks.

THE WEATHER.

Chicago, July 1.—Forecast for Indiana: Generally fair and continued warm tonight and Tuesday; south to southwest winds.

THE TEMPERATURE.

Contrary to general belief, yesterday was not the hottest day of the year, that honor belonging to Tuesday of last week when at 1 and 2 o'clock the mercury registered 93 degrees. The highest point reached yesterday was 92 degrees at 3 o'clock. The record at the gas office today is as follows:

	Degrees.
6 a. m.	78
7 a. m.	78
8 a. m.	80
9 a. m.	83
10 a. m.	84
11 a. m.	86
12 m.	89
1 p. m.	91
2 p. m.	91

LOCAL NEWS.

A. H. Bittinger visited at Indianapolis yesterday.

E. L. McClure, of Argos, was a visitor in the city yesterday.

Mr. and Mrs. J. A. Quince left this morning for a stay at Rome City.

Miss Virginia Carnahan is at home from a visit at Sewickley, Pa.

Charles Moreland, day clerk at the Randall, has returned from a stay at Indianapolis.

William Fosler, of The Sentinel composing room, left today to enjoy a vacation of one week.

Attorney H. I. Smith will deliver a Fourth of July oration at Miller's grove, near New Haven.

J. M. Landenberger and family went to Rome City today to occupy their cottage for the summer.

Mrs. Frank I. Brown is at home from a visit at Chicago and is entertaining Miss Myrtle Hartwell, of that city.

Miss Hedwig Schrey, who has been an instructor in music in this city for the past five years, has removed to Buffalo.

Mrs. Julia Homsher and daughters, the Misses Minnie and Ethel Homsher, went to Rome City today for a two weeks' stay.

W. H. Robertson, who has been the guest of Mr. and Mrs. J. H. Bilderback, of South Broadway, has returned to his home at Garrett.

St. Paul's and Concordia Lutheran churches will unite in a picnic at the Concordia college grounds July 4. The congregation of Emanuel's church will picnic at Williams' grove. The Auburn band has been secured for the Concordia picnic.

Huntington Herald: "Harry I. Young, who had both of his limbs cut off at Fort Wayne last winter, will go to Fort Wayne tomorrow for the purpose of having another amputation made of a portion of his left limb. The leg never healed right since its first amputation owing to an excess of flesh at the point where the amputation was made."

A large number of Fort Wayne people were in attendance at the Eel River township Sunday school convention, which was held Sunday in the grove near the Valentine school house. Rev. D. T. Williams, of the South Congregational church, delivered an address, and the Leslie male quartet, Mr. Craig and Mr. Komp were among those who contributed to the program. Among others present were Mr. and Mrs. E. R. Gesaman, Mrs. Easley, W. D. Williams and W. H. Latourette, of this city.

PRESERVING KETTLES AND ETC.

50 dozen 4-qut Iron Enameled Kettles, special prices, 25c each.

WHITE FRUIT HOUSE.

Patterson sells the "Elgin" colored soft shirts for $1.00.

ALL AFTER THEM.

The boys and girls are all flocking to the Greatest Grocery for the unique advertising fans that Mr. Pfeiffer is giving away. The fan is a great novelty, telling your fortune as well as keeping you cool.

The Knights of Columbus will hold a special meeting Tuesday evening.

Mrs. Joseph Evans, of West Jefferson street, left today for a visit of two weeks at Van Wert.

The Amateur Driving club will give a moonlight picnic and band concert on the evening of July 4, after the races.

Martin Greven, the bookseller, was initiated at Logansport yesterday as a member of the Fort Wayne council of the Knights of Columbus.

Mr. and Mrs. S. W. Kelsey and daughter, Julia, have returned from a fishing trip to Loon lake. They caught sixty bass during their visit at the resort.

Mrs. J. R. Shafer, of 120 Washington boulevard, is entertaining her sister, Mrs. O. S. Adams, and son, Walter, of Allegheny, Pa. Mrs. Adams will be joined by her husband in a few weeks.

Miss Mamie Barry entertained a number of friends last evening, previous to her departure for visits in New Haven, Garr Creek, Huntington and Columbia City. She expects to return in September.

Ex-Trustee M. F. Schmetzer and daughter, Miss Fredericka, and Mr. and Mrs. Frank Thompson have returned from a fishing trip at northern lakes. As a fisherman the venerable ex-trustee can easily out-do many younger men.

Tomorrow, July 2, the public library will begin calling in all books preparatory to removing into the temporary quarters in the Elektron building. Subscribers will greatly facilitate the work by handing in their books immediately.

Louis Lauternier, son of Mr. and Mrs. A. J. Lanternier, of 133 Walton avenue, was a member of Company A, Thirty-Eighth United States Volunteer infantry, which was mustered out at the Presidio in California yesterday. Mr. Lanternier is expected home this week. He has been in the Philippines for the past two years.

IN THE JUSTICES' COURTS.

In Bullerman's court Deputy Fish Commissioner Fleming has filed an affidavit against Frederick Bashelier for having a fish-net in his possession contrary to law. A search warrant was issued and the net was found, as charged. Mr. Basheler, who is a farmer of good repute living about five miles north of the city, promised to come into court today and square the matter up, which "squaring" process will cost him at least $45. The state commissioner is allowed $20 in fees, the deputy $10 and this with the prosecutor's, justice's, constable's and other fees will make a pretty bill to pay.

Jacob Zuber, who lives on Beaver street, went over to Christian Rabel, a neighbor, to collect a bill or debt which he claims was due him. The best of feeling did not previously exist between the parties and immediatel there was a riot. Mr. Zuber hied himself at once to the prosecutor's office and filed an affidavit charging Mary, Christian, Henry and William Rabel for rioting. Mr. Zuber can easily prove that he was in a riot of some kind, as he is pretty thoroughly used up. Justice Fiance will hear the evidence as soon as the parties are brought in.

On Saturday afternoon Justice Tancey fined Philip B. Smith $1 and costs for provoking his wife, Elizabeth Smith. The couple have been in court almost continuously for the past several months, and as stated in the police reports another affidavit has been filed by Mrs. Smith against her husband for associating with prostitutes.

Constable Ford, of France's court, went to Eel River township this morning to arrest Thomas Johnson for assault and battery on Lydia Johnson and for public intoxication.

ABOUT THE COURT HOUSE

George Manning has commenced suit against Sarah O. Witt to foreclose a mechanic's lien for $325.

Township Assessor Becker reports taxes paid on 1,330 dogs in Wayne township, an increase of 90 over last year's returns.

Charles H. Hammer has commenced suit against Joseph Treuchet and Joseph Bosler, praying for an injunction, alleging fraud and demanding damages in the sum of $500 Hammer bought a saloon of the defendants, situated on Main street, next to the Journal office. He claims that while negotiations for the transfer of the place were in progress the defendants put in a lot of "rounders" to boost business and tried to impress on him that they were selling him gold dollars for about fifty cents apiece. He bought the place and then discovered that the trade which he had observed before was artificial had melted away. He claims that he was misled and wants to be protected from paying certain notes, and wants his purchase money back.

The county commissioners were considering liquor licenses today. There were about a dozen applications and one remonstrance. The latter was against John W. Suelzer, who sought a license to conduct a saloon on Lafayette street. The remonstrants stated that in the first place the publication of the application was irregular, because it was published in the Monroeville Breeze, instead of in a Fort Wayne daily, as the law requires for all licenses asked for within the city limits. In the second place the remonstrants alleged that the applicant is not a proper person to conduct a saloon, and in the third place that they believed he wanted the license only for the use of one Frank Cour, who was refused a license for the same place only a short time ago. The commissioners sustained the remonstrance and refused the license.

The cases of Wilbur vs. the Fort Wayne Water Power company have been carried over to the next term of the Superior court by agreement.

The suit of Nierman vs. the Fort Wayne Gas company has been sent to Huntington county on a change of venue.

In the case of Curdes vs. Yaple set for this morning in the Superior court the defendant defaulted.

The county board of review today increased assessment valuations as follows: Wayne Knitting Mills, from $55,000 to $65,000; C. F. Pfeiffer, from $7,975 to $11 525; Rastetter & Son, from $2,300 to $2,500.

MARRIAGE LICENSES.

Willilam Whitfield and Lucy C. Doswell.

Ludwig Waldschmidt and Alice N. Cutshall.

Jonathan Sanders and Celia Fox.

BEGAN NEW TERM TODAY.

United States Commissioner T. J Logan today began his second term in that office which he has held for the past four years. Some days ago Judge Baker notified Mr. Logan of his re-appointment, and the oath of office was administered by County Clerk Belot.

Professor Crull and other instructors at Concordia college, are in Milwaukee attending an educational convention.

A GREAT HOWL.

If you hear a tremendous howl you will know one of our competitors is howling about our selling fishing tackle, base ball and sporting goods. What is he howling for? Evangelist Sam Jones says: "It's the hit dog that yelps," so our competitor must have reason to howl. You see, there is an awfully sore spot somewhere. The reason is that people are coming to trade with us on account of competitor having always charged such high prices for fishing tackle and sporting goods before we started into business. He used to charge you $2 for fifty yards of Knoxall line, but since we started in business he cut his price to $1.20 for the same line. It's the same way all through the list; we are beating his prices everywhere. He can compete with us no longer. We are outselling him at every point. His prices on every kind of sporting goods are way above ours. We feel very sorry for a back number competitor, who has to send friends around to our store and get our low prices to post himself up.

If you want new goods and low prices come to see us before you buy. We also have a complete line of hardware, Jewel ranges, and the largest stock and lowest prices in bicycles in the city. Come and see us when you think of buying.

KOEHLINGER & BAUR,
31 East Columbia St.

HEARTRENDING SCENE AT GRAVE.

At the burial of a lady at Portland, Ind., the casket was dropped and turned over in the grave by one of the new-fangled lowering devices now being used by country undertakers. No such occurrence will happen at Lindenwood cemetery, as the board have peremptorily refused to allow them to be used within their grounds. The board at Catholic cemetery have forbidden their men to have anything to do with them. The undertakers who use it must run their own risk of such an occurrence as happened at Portland.

FRIGID SHIRTS FOR TORRID WEATHER AT TEMPERATE PRICES.

Shirts that make a man smartly dressed
Without either coat or vest.
Invisible suspenders you should wear;
We have 'em—they're fifty cents a pair.
And then if you wish both ends to meet,
A pretty belt and you're complete.

Everything to make a man or boy cool. Flannel suits, serge suits, light underwear and straw hats. Complete line of everything for men. The only thing we are low in is the price.

ESTABLISHED 1833. FORT WAYNE, IND., MONDAY; JULY 1, 1901. PRICE TWO CENTS

WEATHER MAN DOES FANCY TURN

Fort Wayne Swelters in Highest Temperature of Year---Thousands Flock to the Parks to Seek Relief from the Heat.

Between merciless rays of a sun which has beaten down with pitiless intensity and blistering heat waves which rise from pavements surcharged with an extremely high temperature Fort Wayne people have been sweltering for two days in the throes of genuine summer weather. It is the hot weather record of the year, and it would have been at least neighborly on the part of the ice man and the weather man to have dropped a hint of their intentions before cooking up this conspiracy against public comfort and complacency. And there is also evidence accumulating that tends to show the guilty participation of the ice cream soda man and vendors of sundry other summer beverages in the collusion.

The prophet who went on record some weeks ago in the positive assurance that there would be no hot weather this summer started in yesterday morning to hunt up his friends and square himself. Even at 6 o'clock Sunday morning the thermometer at the Gas office had crawled up to 72 degrees, and it got so early a start that the high mark of the day, 92 degrees, was reached at 3 o'clock without perceptible exhausting effort upon the part of the machine.

STILL WARMER TODAY.

The man who has religiously refrained from consulting a thermometer may have difficulty in believing it, but the fact remains that the record today is still higher than that of Sunday, though the heat is tempered partially by a slight breeze that takes off the edges somewhat. The record by hours since midnight as shown by the Gas company's thermometer on Court street today is as follows:

1 a. m.	77
2 a. m.	75
3 a. m.	75
4 a. m.	74
5 a. m.	74
6 a. m.	76
7 a. m.	78
8 a. m.	80
9 a. m.	83
10 a. m.	84
11 a. m.	86
Noon	89

At 1 o'clock this afternoon the 91 mark was reached; an hour later there had been little change, but Sunday's record will undoubtedly be passed before the afternoon is done. The temperature during the morning hours ranged considerably higher than for the corresponding hours yesterday. Thermometers in other parts of the city have almost invariably shown a higher temperature than that at the Gas office, the machine at Pellens & Polster's drug store at noon today registering 97 degrees.

SOUGHT COOL SPOTS.

There were several hundreds of visitors in the city yesterday and they joined in the general rush for the parks and other cool spots to seek relief from the oppressive heat which hung a persistent burden over the city, with hardly a breath of breeze stirring to give relief. All the parks in the city, and many groves adjacent, held their quota of visitors, and toward evening the rush to Robison park became tremendous. Twenty-five cars were in operation on the park line with a three minute service last night, and at one time more than five hundred people were gathered at the transfer corner awaiting transportation to the park. More than 5,000 people made the trip during the day.

Despite the tremendous heat remarkably few prostrations have been reported, and despite the discomfort it is probable still more of the same brand of weather is to be served up. The weather indications today give no promise of immediate relief, though Chicago reports a big drop in temperature and a fierce thunder storm.

SUNDAY'S TEMPERATURE.

NO CIVIL LIBERTY IN SOUTH AFRICA

London, July 1.—The Daily News publishes an article by its parliamentary correspondent on the political situation in Cape Colony, in view of the prorogation of the cape parliament, the writer saying that an issue of the gravest moment, namely, the suspension of the constitution of Cape Colony, is involved. He adds:

"From the night of June 30 for an indefinite period the king's subjects in Cape Colony will be deprived of the protection of law and will be governed contrary to its express provisions. Taxes will be applied under warrantee of the government without appropriation by parliament, which has been prorogued until August 27, and is not likely to sit even then. This illegal method has been resorted to by the governor and the ministry doubtless at the instigation of Lord Milner and Colonial Secretary Chamberlain. In a word, the imperial government has abrogated every article of the compact under which a free people owes allegiance to its rulers.

"Liberty is dead, so far as our Dutch subjects are concerned. The critics call for the authoritative intervention of the liberal party, in which there is a feeling in favor of summoning a great popular conference to consider the situation."

LIGHTNING SLAYS TWELVE MEN

Single Flash Deals Death to Party of Men Fishing on the Lake Front in Chicago---Fatal Bolt Struck Pier on Which they Sat.

Chicago, July 1.—Eleven boys were killed and another probably fatally injured this afternoon by a single bolt of lightning. The victims were fishing on Lake Michigan at the foot of Montrose boulevard, on the north side. The fatal bolt struck the pier where they were seated, and all were thrown into the lake.

A policeman attracted to the pier by the crashing timbers found it impossible to rescue any of the victims. The heavy timbers of the pier had been shattered and the whole structure toppled into the water. He hurried to a patrol box and called for assistance. Nearly half an hour elapsed before aid arrived. The work of recovering the bodies was extremely difficult, but finally all were carried ashore.

Owing to the terrific thunder storm prevalent the work of identification was extremely slow.

Oppressed by the extreme heat, the boys had gone in bathing. When the rain began to fall and it became evident a severe electrical storm was coming, they rushed to a shelter they had built on the pier. Willie Anderson, 12 years of age, was the only survivor of the shock which followed a moment later. To a policeman he gave a hare idea of the horrible ending of an hour's sport and then fainted. He was carried to a nearby house, where medical assistance was rendered.

The fatal stroke was the most powerful seen here in years. The pier was demolished in a trice, giving the boys not the slightest chance of escape.

In age the victims ranged from twelve to twenty-five years.

LOOTERS ARE CAPTURED.

Pekin, July 1.—Five men calling themselves Americans were captured by Chinese troops in a town fifty miles from Pekin, and were today turned over to Major Roberts, commander of the United States legation guard here. The men, who were armed, demanded 5,000 taels from the keeper of a pawn shop and got 500. They filled five carts with plunder and then began shooting, not knowing the town was occupied by 100 Chinese troops. The United States legation was notified, and the quintete were brought in. All parts of Pekin occupied by the British for police purposes were turned over today to the Chinese authorities. The foreigner ministers will meet July 3.

MAY END READING STRIKE

NEGOTIATIONS NOW UNDER WAY MAY SUCCEED.

Bitter Struggle Likely to Be Ended on a Basis of Fair Compromise —Other Strike News.

Reading, Pa., July 1.—It now looks as if the end of the strike of the Reading railway shop hands, inaugurated ten days ago, is in sight. President Baer, of the railroad company, and Chairman Boscher, of the strikers' committee, will hold a conference in New York tonight. Mr. Boscher will reports to the employes here tomorrow. Concessions have already been made by both sides.

STRIKERS HOLD OUT.

Newport News, Va., July 1.—The striking machinists at the ship yard are adhering to their determination to hold out for their demands. The strike is no in its fiftieth week and seems no nearer a settlement than on the day of its inauguration.

The machinists claim they have 98 per cent. of the number solid for a continuance of the strike. The ship yard employed 7,500 men before the present trouble.

Now about 3,000 are employed. General Superintendent Post states that no concessions will be made.

MAY SETTLE IT.

Cincinnati, Ohio, July 1.—A conference was held here today which may result in settlement, locally, of the machinists' strike. No details have yet been given out.

ABOUT THE CITY HALL.

At the board of works meeting this afternoon City Engineer Randall presented plans and specifications for the paving of Wayne street, from Hanover street to Grant avenue. It was contemplated to extend the Wayne street pavement through to Glasgow avenue, but an examination of the premises at once convinced the engineer as well as the board of the utter inadvisability of such an extension at this time. From Grant avenue to Glasgow avenue the street is narrow and on the north side a long fill of an average of six feet would be required. No pavement would stand on a fill of this kind until long after the made ground had thoroughly settled and become compact. For this reason the engineer prepared his plans to Grant avenue only.

This is regular monthly pay day at the city hall and about $7,000 was disbursed. Of this amount $3,895 was paid to the fire department and $2,605 to the police department.

City Clerk A. M. Schmidt returned from Buffalo last night and was at his desk at the city hall as usual this morning. He says that Buffalo has a great show on hand, but that people who go there, as a rule, expect too much. It does not compare with the world's fair, and aside from that, he don't think that Buffalo can play any better ball than Fort Wayne.

Mrs. H. E. Taylor, who is to remove to Columbus, where her husband is in charge of the Union Pacific Tea company's store, was ready to leave Saturday, when her little son, Lloyd, was taken very ill, and it has been necessary to postpone her departure.

French scientists have been making experiments in regard to the effect of certain perfumes upon the voice. Many of the most successful teachers in singing have cautioned their pupils stringently against the use of perfumes or the proximity of odorous flowers. Some masters go so far as to forbid their pupils the use of any perfumes at all, and if one of them is detected wearing a bunch of violets, the lesson is postponed. The perfume of the violet has been found by the use of the laryngoscope to be particularly injurious.

The eastern Canadian seacoast from the Bay of Funday to the Straits of Belle Isle, covers a distance of 5,000 miles, and British Columbia, with its multitude of bays and mountainous islands, has a seacoast of 7,180 miles and a salt water inshore area, not including minor indentations, of 1,500 square miles.

BEATS NEW BOAT

GALLANT OLD COLUMBIA OUTSAILS CONSTITUTION.

FIRST OF YEAR'S RACES

THE VICTORIOUS 1899 DEFENDER GOOD AS EVER.

LED NEW BOAT ALL THE WAY

RACE IS SAILED IN A VERY GOOD WIND.

Bateman's Point, R. I., July 1.—Columbia, the gallant and victorious defender of the America's cup in the international races of 1899, defeated the new defender Constitution today. Columbia crossed the line at the finish at 2:32:35 and was followed by the Constitution at 2:33:18.

Just after crossing the finish line the Columbia's main boom broke at the middle. This acident may cause a postponment of the second trial race, which was set for Wednesday.

When the Constitution and the Columbia hoisted sail for the first race of the season between American cup defender yachts the breeze inside the bay was very light and the yachts had some difficulty in getting out to the starting point.

The contest was a windward and leeward affair of thirty miles. By the time the yachts has reached the lightship they found a good breeze from the southwest, and at 10:30 there seemed little chance of postponement. Both yachts came out of the harbor with large club top sails set. The Columbia was the first out, but she was only a few minutes ahead of the Constitution. The boats were almost identical in appearance. After waiting at the lightship about ten minutes the judge decided that the wind was too near the southwest to risk starting from the lightship, so the whole fleet started off to the eastward.

On the way signals were hoisted on the flagship to indicate a beat to windward for fifteen miles and return.

The starting gun was fired at 11:30. Five minutes later the warning signal was given.

Both yachts at the time were to leeward of the line, the Constitution being farther away. Both yachts at once began maneuvering for position.

The starting guns was fired at 11:40, the Columbia crossing first and to windward at 11:40:21, and the Constitution right under her lee at 11:40:33.

Both boats went that distance on the starboard tack under all sail and stood about south, wind being southwest.

In the first eighth of a mile the Columbia pulled out a bit on the Constitution; later, however, the new boat drew upon her so that she was almost on even terms, although still to leeward. When the yachts had covered about a mile of the course they were still standing out to sea on the starboard tack.

The Columbia from this point seemed to have gained a bit to windward. During the next five minutes the Columbia outpointed the Constitution and gained to windward.

TWO UNFORTUNATES.

Herman Lempke, a driver for S. W. Hull, was thrown from his wagon Saturday afternoon and sustained a fracture of the right wrist, besides other injuries. He was removed to his home, on Madison street, where Dr. McCausland attended him.

The 8-year-old son of John Neumeyer, the East Lewis street grocer, fell down stairs yesterday afternoon and received a bad gash over his right eye. Dr. McCausland put several stitches in the wound.

THE BIRTH RECORD.

Born, to Mr. and Mrs. Henry Dornte, of 230 West Washington street—a daughter.

Born, to Mr. and Mrs. Henry Paulsen, of 107 Wall street—a son.

Born, to Mr. and Mrs. Frank Shane, of 6 Orchard street—a son.

DID NOT GET HERE.

Officials of the new Fort Wayne, Dayton and Cincinnati Traction Railway company, who were to have arrived in the city Saturday evening, did not come. The Commercial club's committee was in waiting to receive them, but a message to Mayor Berghoff from Decatur said: "Impossible to make Fort Wayne at present." Will write." No later word has been received from them and it is assumed that the extremely hot weather has necessitated the temporary postponement of the inspection tour. It is likely they will reach Fort Wayne tomorrow.

CAR OFF THE TRACK.

Just before the noon hour today a Belt line car left the track at Broadway and Lavina street, but there was no damage aside from delaying traffic for about fifteen minutes.

The entire street car system was tied up for nearly half an hour Sunday evening by a break in the trolley line near Centlivre park.

NEGRO IS LYNCHED.

Richmond, Va., July 1.—The negro who attempted a criminal assault upon a young lady in Brunswick county a few days ago, was taken from the jail at Lawrenceville Sunday night by a mob and lynched.

A SATURDAY HALF HOLIDAY

MOVEMENT AFOOT TO CLOSE STORES.

Well Known Women Inaugurate an Effort to Give Salesladies and Salesmen a Day of Rest.

Well known women of this city have inaugurated a movement for the closing of retail dry goods stores Saturday afternoon during the term of extreme hot weather. A petition will at once be circulated for signatures to a request to proprietors of the large stores that business be suspended at noon Saturday.

There are hundreds of men and women employed in the large dry goods establishments of Fort Wayne to whom such an innovation would be a great boon. In most of the larger cities the Saturday half holiday has long been established and the people have become so accustomed to it that they suffer no inconvenience nor the stores any loss of patronage. The wholesale houses and the banks of Fort Wayne several years ago adopted the Saturday half holiday rule and it has been found to work most admirably. It is believed by the promoters of the present movement that the retail stores of Fort Wayne would suffer none by establishment of the custom. It is pointed out that the people of Fort Wayne after years of familiarity with the custom of grocers to keep their stores open every weekday night until 9 or 10 o'clock very readily accommodated themselves to the new rule of closing at 6 o'clock in the evening, excepting Saturday. Every one is now used to the new order and no complaint is heard.

It is proposed that the dry goods stores close at noon from July 4th to September 1st, less than two months, much interest is being taken in the movement.

TAFT IS MADE GOVERNOR

APPOINTED CIVIL RULER OF PHILIPPINES.

According to Expectations the President Makes Appointment of Important Official.

Washington, July 1.—Among the commissions signed by the president today was that of Judge William H. Taft of Ohio, to be civil governor of the Philippine islands.

Judge Taft was notified some time ago when instructions were sent him relative to the inauguration of civil government in the islands July 4 that he would be appointed civil governor.

NEW MOVE IN BARKER CASE.

Trenton, N. J., July 1.—Counsel for Thomas Barker, who was sentenced to five years' imprisonment for assaulting Rev. Dr. John Keller at Arlington, today took out a writ of error, which will carry the case to the court of errors and appeals. In the meantime Barker will be at liberty.

NEW LAUNDRY STARTS.

The Union laundry, a new institution at 20 East Columbia street, opened its doors for business this morning. C. E. Brown and C. E. Pierce are the owners. Mr. Pierce was formerly with the Banner laundry.

There are 28,804 juvenile temperance societies in the British islands, with a membership of 3,536,000.

OLD SOL SMITES THE COUNTRY

Fierce Heat Prevails from the Rockies to the Atlantic---Many Deaths in Large Cities--- Baltimore the Hottest Place.

Baltimore, Md., July 1.—This city today is the hottest place in the United States, according to the weather bureau's reports. At 8 a. m. the mercury registered 88 degrees, which is four degrees higher than at the same time yesterday.

At 2 p. m. the thermometer indicated a temperature of 101 degrees and the relative humidity was about 65 per cent. Two prostrations have been reported, but as yet no deaths are known to have occured due directly to the heat.

IN WASHINGTON.

Washington, July 1.—The hot wave in Washington shows no signs of breaking. At 8 o'clock this morning the down town thermometers registered 85 degrees and at 9 o'clock the mercury had climbed up to 92 degrees. This is 7 degrees hotter than at 9 o'clock yesterday morning. The weather bureau thermometer at 9:30 this morning recorded 91. It was 86 at 8 o'clock and the mercury rose to 90 by 9 o'clock. The hot wave is general east of the Rocky mountains and there is no immediate prospect of relief.

At 2 o'clock this afternoon the official temperature was 100. Twelve prostrations have been reported during the past twenty-four hours, none fatal, but one of the victims is expected to die.

SUFFERING IN NEW YORK.

New York, July 1.—The hot weather which has caused so much suffering in this city last week, continued today. At 9 o'clock the weather bureau thermometer showed a temperature of 87 degrees as compared with 83 at the same hour yesterday. At 10 o'clock the temperature was 89. Between 1 and 9 o'clock seven deaths due to the heat were reported in this city.

Six deaths from the heat were reported from Brooklyn between midnight and 10 a. m.

At 2 o'clock the weather bureau reported a temperature of 96 degrees. This was within one degree of yesterday's highest, which was recorded at 4 p. m. There were twenty-three deaths due to the heat in New York and Brooklyn between midnight and 1 p. m. today.

MANY DEATHS IN ST. LOUIS.

St. Louis, July 1.—Intense heat continued here today. At 5 a. m. the lowest point reached during the past twenty-four hours was recorded. The thermometer then registered 80 degrees, and two hours later it had risen to 82. There were eight deaths and twelve prostrations yesterday. The dead: Edward Conrad, John B. Ward, Anthony Siegmaszki, George Overstreet, James Monohan, Henry Miller, Peter Melvin, Mrs. G. Siebolt.

Weather bureau thermometer at 1:20 this afternoon registered 95. Up to that time four deaths and four prostrations had been reported.

FIERCE IN PITTSBURG.

Pittsburg, July 1.—The torrid wave continues. Last night was one of the hottest in years and at 8 o'clock this morning the mercury registered 84 degrees. Two deaths and eight prostrations were reported at noon. The

(Continued on Second Page.)

THIRD BROTHER TO DIE IN ACCIDENT

The tragic death of Charles J. Dinkel, the carpenter, who succumbed to injuries received in a frightful fall from the Bayer building at Wayne and Barr streets last Wednesday, brings to light a strange fatality that has attended the family.

Mr. Dinkel was the third brother to meet his death in a violent manner. Some years ago Fred Dinkel was killed in an accidental fall from a windmill in Pleasant township, and later another brother succumbed to injuries received in a runaway accident in the same locality. The sad circumstance is certainly a very unusual one.

THE BIG STRIKE IS UNDER WAY

Amalgamated Steel Workers are Prepared to Obey President Shaffer's Order---May be Biggest in History.

Pittsburg, Pa., July 1.—As a result of the refusal of the representatives of the American Sheet Steel company and the American Steel company, subsidiary companies of the Great United States Steel corporation, to sign the workers' new scale at Saturday's conference, circulars were sent out from the national headquarters of the Amalgamated Association of Iron, Steel and Tin Workers yesterday and today declaring a strike at all the plants of the two combines. The great strike is now on, but it will be several days before its actual extent is known.

PLANTS NOW AFFECTED.

At the outset, however, over 35,000 men will be involved, as follows:

Union Sheet Mills—Aetna-Standard Steel mills, Bridgeport, Ohio, 2,500; Midland Steel mills, Muncie, Ind., 1,000; Old Meadow Rolling mill, Scotdale, Pa., 400; Saltsburg Rolling mill, Saltsburg, Pa., 300; W. Dewes Woods mills, McKeesport, Pa., 1,000; Cambridge Iron and Steel mills, Cambridge, Ohio, 400; Canton Rolling mills, Canton, Ohio, 250; Charter Iron and Steel mills, Carnegie, Pa., 300; Dennison Rolling mills, Dennison, Ohio, 350; Dresden Iron and Steel mills, Dresden, Ohio, 300; Falcon Iron and Nail mills, Niles, Ohio, 450; New Philadelphia mills, New Philadelphia, Ohio, 700; Piqua Rolling mills, Piqua, Ohio, 600; Reeves Iron mills, Canal Dover, Ohio, 750; Struthers Iron mills, Struthers, Ohio, 400; Corning Steel mills, Hammond, Ind., 300; Lauffman Steel mills, Faulton, Pa., 200; Hyde Park Iron and Steel mills, Hyde Park, Pa., 350. Total, 11,650.

Non-Union Sheet Mills—Apollo Iron and Steel mills, Vandergrift, Pa., 3,600; Kirkpatrick mills, Leechburg, Pa., 550; Wellsville Plate and Sheet Iron mills, Wellsville, Ohio, 400; Scotdale Iron and Steel mills, Scotdale, Pa., 550. Total, 5,100.

American Steel Hoop company, 14,000; Independent plants, twenty in number, 5,000.

TOTAL OF 35,000.

Total number of men involved in strike, 35,750.

The American Steel Hoop company's main offices are in this city. The company has three non-union plants in this city. They are Painters' mills, this city, and Lindsy & McCutcheon's and Clarke's, located in Allegheny.

The company has also a non-union plant at Monessen, Pa., and one at Duncanville, Pa., though the employes of the latter are ready for organization as soon as the amalgamated people will take them in. The other plants of the company are claimed by the amalgamated people as union. There are two at Youngstown, and one each at Sharon, Girard, Greenville, Pomeroy, and Warren, Ohio.

RESULTS PROBLEMATICAL.

What the strike just inaugurated may eventually lead to is problematical. Three months ago when a strike occurred in the Wood plant of the American Sheet Steel company, at McKeesport, when the company refused to allow its men to become members of the Amalgamated association, President Shaffer threatened if the McKeesport strikers could not win with their own strength he would order a strike of every plant of the company. If the latter would not yield he would then call out the union men in every plant of the United States Steel corporation.

MAY BE GIGANTIC.

Such a course would end in the biggest strike the country has ever seen, involving several hundred thousand men. For the first few weeks the situation will not show the strength of the association. Almost all the plants of the company, union and non-union, will be compelled to shut down during the early part of July to give the men a rest. They have been working steadily since the first of the year, many of

(Continued From First Page.)

dead: Samuel Jones, aged 66 years; Edward J. Rowen, aged 28 years. The intense heat played havoc among the mill men and many prostrations are reported. Oliver's puddling department at South Tenth street, the puddling department of A. M. Byers' mills and the Pennsylvania car wheel works were forced to suspend operations. In the latter plant 400 men and boys are thrown out of work. The Pittsburg forge and iron works, Allegheny, also closed down, throwing 500 men out of employment. The temperature at noon was 93 degrees.

The temperature at 2 p. m. was 96 degrees and still rising. Three deaths from heat were reported up to that hour making twelve in twenty-four hours. Eighteen prostrations were also recorded.

BOSTON SWELTERS.

Boston, July 1.—There was little promise of a change in the weather conditions early today. The record at 8 o'clock was the same as it was on the hot days of last week, 88. The wind was very light from the westward.

HOTTEST OF SPELL.

Philadelphia, Pa., July 1.—Today opened hotter than any day during the past week. The temperature, according to the weather bureau officials, was 86 at 8 o'clock, 2 degrees hotter than at the same hour yesterday, and at 9 o'clock had risen 2 degrees. The humidity registered 61 per cent.

The official thermometer at 1 p. m. recorded 96 degrees, a fall of two degrees since noon. At 2:30 p. m. the police and hospitals reported seven deaths today from heat, three adults and four children. There have been twenty prostrations thus far.

CHICAGO GETS RELIEF.

Chicago, July 1.—At 8 a. m. today thermometers at the street level showed 88 degrees, and during the next hour a rise to 89 degrees was noted. The humidity intensified suffering, the air showing 85 per cent. moisture.

At noon the official temperature was 91 degrees. Instruments on the street level at the same hour marked 96. At 12:30 p. m. suffering from the intense heat was allevinted by a sudden drop in temperature to 71 and shortly afterward by a heavy fall of rain. No prostrations were reported during the morning.

IN OTHER CITIES.

Cincinnati, July 1.—At 8 a. m. the mercury registered 82 above, and two to five degrees higher on the street level.

Three persons died today from the heat. Sixteen prostrations were reported. This brings the total up to fifteen deaths and sixty-nine prostrations within the past week. At noon the mercury registered 90 degrees.

Milwaukee, July 1.—At 8:30 a. m. street thermometers registered 82 above.

Buffalo, July 1.—The thermometer at the weather bureau registered 77 at 10 o'clock this morning, with a good breeze from the lake.

Rochester, N. Y., July 1.—The thermometer here at 8 o'clock this morning stood at 86, with indications that it would reach 90 by noon.

Kansas City, Mo., July 1.—At 9 a. m. the temperature was 87 degrees. No relief is predicted for the present.

At noon the government thermometer registered 94 degrees. Only two prostrations have been reported since Saturday.

Louisville, Ky., July 1.—Street thermometers registered 87 degrees at 8:30 o'clock and indications were favorable to a record breaking day.

At 1 p. m. the temperature was 94 and the humidity was excessive. Two prostrations were reported today.

New Haven, Conn., July 1.—At 9 o'clock the official temperature was 94, the same as yesterday at the same hour.

Detroit, July 1.—The temperature at 8:30 this morning was 76 and Forecaster Congor prophesied that it would pass 90 before the day was over. Last night was the hottest of the summer, with 76 as the minimum temperature.

At 1:30 this afternoon the official temperature was 92 degrees, with a fifteen-mile northwest breeze blowing. No prostrations have been reported.

Cleveland, Ohio, July 1.—There was no abatement in the heat in this city today, the mercury hovering around 90 during the morning hours.

At noon the weather bureau thermometer on top of a ten story building still registered 90. Down on the streets, however, the thermometers in the shade indicated from 97 to 99. Six prostrations reported up to noon.

St. Paul, Minn., July 1.—During the early hours the mercury here hovered about 70 mark. A storm appears probable.

Columbus, July 1.—Three prostrations from the heat had been reported at 1 p. m. The thermometer at that hour stood at 95.

Omaha, July 1. — At the weather bureau the mercury at 1 p. m. reached 93, four degree below yesterday's record. No prostrations were reported. The hot winds prevailent in the state the past three days have abated.

Indianapolis, Ind., July 1.—At 2 p. m. the mercury registered 92. No prostrations.

Consul Warner writes from Leipzig that according to the Leipsiger Tageblatt a new device for removing slag has been patented, by which the grate is lowered into the ash box or pit, a set of iron rods which fit into the spaces between the bars passing upward between them and knocking off any clinkers or slag which may have adhered to the bars of the grate.

TWO PERFORMANCES DAILY

IN POLICE COURT IF THEY ARE REQUESTED.

Judge Louttit May Hold a Session at 8 O'clock and the Matinee at Advertised Hour.

Judge Louttit held no police court this morning but intimated that he might soon make a few more rules. He suggested that possibly he would hold one sesiion of his court at 8 o'clock and another at 2 and thus give everybody a chance. He might run in a few more somewhere else and give a sort of continuous performance and bye and bye might add another ring and an elevated stage. He said that those who wanted a trial at 8 o'clock could have it.

A man who gave his name as Brown was arrested yesterday morning for being drunk. Later he was released on his own recognizance by Judge Louttit who was informed on reliable authority that the man's wife was in a delicate condition and that the husband's presence at home was needed. He promised to report at any time he was called upon and went home. He may report at today's matinee performance.

Two Syrians with unpronounceable names were arrested yesterday afternoon for vagrancy and mendicancy. They said that they had but recently reached this country and were not accustomed to American ways. In their native country when a fellow gets broke he is allowed to go out into the highways and byways and beg until he has enough to start him up in business, and they did not know that it was different in Fort Wayne. When they struck here they took account of cash and found that they were short so they lost no time in getting to work, even if it was Sunday. They started down West Berry street and missed nobody. When arrested they had all their pockets filled with food and had a little money, too, which they had gathered by the way. Salem Bashara stood good for their appearance at the afternoon matinee at the city hall and they were released.

Philip B. Smith, the man who has volumes of trouble with his wife, has finally broken into the municipal court. His wife has filed an affidavit against him charging him with associating with prostitutes. His case will be heard this afternoon, he being released on bail.

Another false burglary alarm was sent in from 3 Hanover street last night. Officers made an investigation but found nothing to warrant any suspicion.

Another fight was reported at the Consumers' Ice company's barn on Columbia street yesterday. When the officers arrived the belligerants had seperated and nobody seemed to know anything about any scrap. The superintendent of police says that Sunday fights are getting so regular there that he will detail a man next Sunday to be on hand when the scrapping commences.

Theodore Johnson got on a rampage on Saturday night and began doing things down in Duck alley. He started a fight or two but did no harm and when the officers got around to take him in he had faded.

The drinking fountain at the corner of Broadway and Taylor streets has been reported broken.

An attempt to burglarize the Wayne club on Saturday night failed because the burglars provided themselves with too short a ladder. The ladder was found placed at one of the side windows but was too short to be of any service. An investigation by the officers at about 2 o'clock showed nothing unusual about the place.

Affidavits were today filed against the following named saloonkeepers for volation of the law and Mayor Berghoff's explicit orders regarding to position of screens and curtains after 7 o'clock on Sunday evening: William Christen, Ed O'Mera, William Hollenbeck, John Condon, L. Singleton and Ed Kleindinst. All of the offenders have salons on Calhoun street and the affidavits were made by Officers Blum, Elliot and Cheviron.

ARRESTS IN JUNE.

Trespass	1
Keeping gaming house	1
Giving liquor to minors	1
Total	112

BARROOMS OF THE BISHOP.

The people of England are much interested these days concerning the working of the plan of the bishop of Chester for dealing with the evil of excessive drinking, says a London correspondent. The bishop thinks that prohibition does not prohibit and that regulation is much better. As regulation has in view the evil done by drinking, special pains are taken to supply only the purest drinks. The houses under the bishop's scheme are to have a uniform external appearance, distinguishing them from ordinary licensed houses, notices prominently displayed that food and non-intoxicants are supplied at popular prices, the intoxicants to be placed at one end of the bar and the non-intoxicants at the other, with tables at which buns, sandwiches, tea, coffee, etc., can be served.

In villages the houses are to have club, temperance and recreation rooms, and where space is available a billiard room and library, with backgammon, drafts and similar games, are to have also a bowling green and other counter attractions to the bar and tap room. The idea is that it is hopeless to try to extinguish thirst for stimulants, but wise to reduce the danger arising from excess or from bad whisky and beer to the minimum. The good of the drinker, not the promotion of a theory, is the main object.

The making of spools and the sawing of wood for them have assumed such immense proportions that they are classed among the leading industries of Maine. Not all the spool bars sawed in Maine are made into spools within the state, but are shipped to Europe. About 15,000,000 feet are sent across the water annually, chiefly to Scotland, one-half of the total being shipped by one concern in Bangor, almost all in steamships.

A new method for producing anaesthesis was discussed at a recent meeting of the Medical society of Berlin. Dr. Wohlgemuth has constructed an apparatus by which patients inhale chloroform mixed with oxygen. It has been tried by many prominent surgeons, with results that are reported as satisfactory, the disagreeable sensations being obviated.

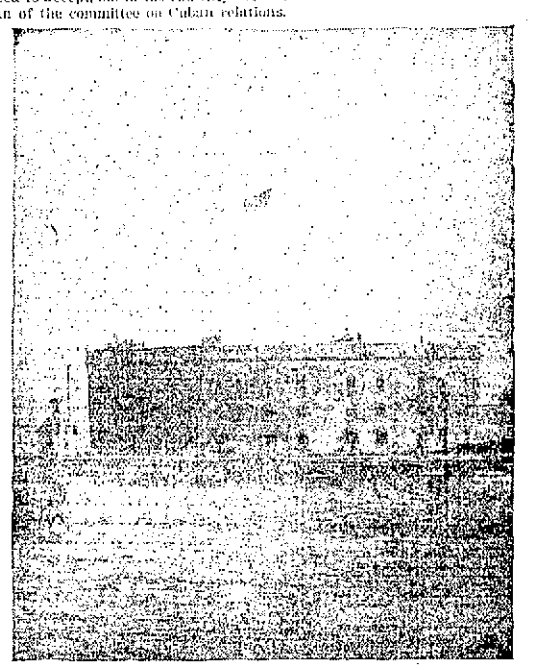
SENATOR O. H. PLATT, AUTHOR OF THE MUCH DEBATED CUBAN AMENDMENTS.

Something in the nature of a personal victory to Senator Orville H. Platt of Connecticut has been the recent acceptance by the Cuban constitutional convention of the amendments which he proposed to the resolutions adopted by congress. These amendments the Cubans for a long time stubbornly refused to accept, but in the end they "toed the mark." Senator Platt is chairman of the committee on Cuban relations.



CASTLE WILLIAM, GOVERNORS ISLAND, NEW YORK.

The war department is planning an elaborate enlargement of Governors Island, New York harbor. It is intended to make this little islet at the end of Manhattan the chief Atlantic headquarters of the quartermaster's department and to use it as a place for the loading and unloading of transports. Definite plans for the proposed work, which, it is estimated, will cost something like $1,500,000, will soon be submitted to the secretary of war.

According to the official reports regarding the state of the crops in France winter wheat is very good in 3 departments, good in 43, fairly good in 34 and passably good in 5. Spring wheat is given as very good in 1 department, good in 18, fairly good in 20 and passably in 3 departments.

AT ROBISON PARK.

Yesterday was a record breaker in point of attendance at Robison park, and it is estimated that fully 5,000 people visited the pretty resort during the day. From the time the cars started in the morning, parties made their way to the park to spend the day, and in the afternoon the crush at the transfer corner was so great that twenty cars were put on the line, and even these were not adequate to accomodate the crowds. In the evening twenty-five cars were in service and every one was crowded. The Fourth of July illuminations at the park are magnificent. Strung along both banks of the river were hundreds of red, white and blue lights in festoons, and the island across from the pavilion was a mass of colored globes. Near the bridge was an anchor of red, white and blue lights, and at the tower the words "Robison Park" stood out in colored lights in letters ten feet high. One of the headsomest pieces is the American flag in colored lights over the band stand. It is thirty feet long and fifteen feet high and is very beautiful when seen from a distance. The illuminations this evening will be even more beautiful than they were last evening. On the island will appear the outlines of a gigantic trolley car in colored lights, and the big loving cup will have been completed. Two thousand lights failed to arrive yesterday but they will be put in place in time for tonight's illumination. There will be a big display of fireworks on the evening of the Fourth.

RICH GIFT FROM CARNEGIE.

Detroit, Mich., July 1.—Geo. W. Bradford, member of the Detroit public library board, has received a letter from Andrew Carnegie, stating that Mr. Carnegie will contribute $750,000 toward the erection of a new public library building in this city.

ENFORCE PAYMENT.

Warsaw, Ind., June 29.—What are known as the canning factory cases are being heard in the circuit court. Several years ago lots were sold at $100 each to raise money with which to locate a factory here. The lots were raffled off and the company is now trying to collect the money. About fifty suits have been filed against persons who have refused to pay for the lots.

Mr. and Mrs. H. G. Olds and three grandchildren, together with Miss Carlie Olds, Mrs. S. C. Lumbard, Miss Effie Lumbard, of Fort Wayne, and Mr. and Mrs. S. D. Bond and daughters, of Indianapolis, left at 4:15 o'clock this afternoon on Grand Rapids train No. 3 for Petoskey, where they will remain during the summer months.

NOTICE TO CONTRACTORS.

Sealed proposals will be received by the Trustees of the Public Schools at the office of the trustees in the High School Building, Fort Wayne, Indiana, until 7:30 o'clock p. m., July 6, 1901, for adding another story (4 rooms) to the Nebraska Public School building.

Plans of building and detailed specification can be obtained from Frank F. Allen, architect, 208 W. Creighton avenue.

The board reserves the right to reject any and all bids.

The brothers who have been teaching in the Cathedral school will leave this week for retreat and recreation at Notre Dame. The sisters of the various orders represented here will also leave for their respective mother houses for the annual retreat.

A meeting of Rome City cottagers will be called for the near future to make preliminary arrangements for the annual Venetian night entertainment at the resort, which will take place in the latter part of August. The celebration this year will eclipse anything ever given before, and many new features will be added.

Mrs. Celia Fox and John Saunders were united in marriage at noon Sunday at the residence of Mr. and Mrs. John W. Pfeiffer. Rev. L. J. Motschman was the officiating clergyman. Mr. Saunders is a prominent farmer near Angola and the bride, who has made her home in this city for several years, has made many friends. Mr. and Mrs. Saunders left at once for Angola.

THE COMMUTER.

How He Spends His Hours of Daily Railroad Traveling.

The much abused suburbanites, whom the cartoonists picture as coming to the city every morning from "Lonesomehurst," "Lost Man's Lane," "Prunehurst-by-the-Trolley" and other places with equally suggestive names, are an interesting class of individuals. The transient element of the city's population spends several hours every day whirling over the railroads. When the novelty of these daily bits of railroading has passed into the monotony of years of travel through the same country the commuter has learned to make the best of the time he spends on the train.

The "card fiend" is a prominent figure in this class. Both morning and evening four or five games of cards are going on in every smoking car, and it is safe to say that thousands of dollars change hands in this "innocent amusement" while the players are hurrying to or from business.

Next to the "card sharp" is the man who only enjoys his cigar and paper. He is oblivious to all his surroundings and only shows animation when he is at his journey's end.

Many of the policies and plans of some of this city's most successful business men have been born or developed on these trains. The short respite between the bustle of the city and the cares of home life is to this type of man a season for meditation.

Another interesting commuter is the individual who is on good terms with all his fellows. He travels up and down through the car exercising his repertory of latest jokes or sympathizing with some gloomy looking friend who thinks that all the world is against him. He seems to never grow weary in his well doing.

The train life of the commuter is now and then enlivened by wrecks. Though tossed about and sometimes cut and bruised, he generally escapes serious injury. Such experiences as these he considers the spice and coloring of his existence.—New York Mail and Express.

COLOR OF GOLD COINS.

Reasons For Differences In Tint of Coins of French Mintage.

Some time ago a Frenchman placed together a number of gold coins of French mintage of the beginning, middle and end of the last century. He was much surprised to see that they differed in color. He set about finding out the reasons for this difference, and the results of his investigations have been published in La Nature.

There is a paleness about the yellow of the 10 and 20 franc pieces which bear the effigies of Napoleon I and Louis XVIII that is not observed in the goldpieces of later mintage. One admirer of these coins speaks of their color as a "beautiful paleness" and expresses regret that it is lacking in later coins. The explanation of it is very simple. The alloy that entered into the French gold coins of those days contained as much silver as copper, and it was the silver that gave the coins their interesting paleness.

The coins of the era of Napoleon III were more golden in hue. The silver had been taken out of the alloy.

The gold coins of today have a still warmer and deeper tinge of yellow. This is because the Paris mint, as well as that in London, melts the gold and the copper alloy in hermetically sealed boxes, which prevents the copper from being somewhat bleached, as it always is when it is attacked by hot air. So the present coins have the full warmness of tint that a copper alloy can give.

If the coins of today are not so handsome in the opinion of amateur collectors as those issued by the first Napoleon, they are superior to those of either of the Napoleons in the fact that it costs less to make them. The double operation of the oxidation of the copper and cleaning it off the surface of the coin with acids is no longer employed, and the large elimination of copper from the surface of the coins, formerly practiced, made them less resistant under wear and tear than are the coins now in circulation.

No Keys to White House.

In these modern days the front door of the White House is not locked at night. Practically no doors are locked, and if the steward should look around for keys he would probably not find half of those formerly in use. Big policemen are about the only doors at the executive mansion. They guard the main doors at all hours of day and night, and there is no need to close and lock the inner doors. Before President Lincoln's time policemen were rare at the president's home, and when all the clerks and servants had gone home at night the housekeeper went around and carefully locked all the doors inside and outside except to rooms occupied by those going in and coming out. - Washington Star.

Don't Be Sparing of Your Love.

The power of love is one of the greatest gifts to humanity. It generates the sunshine of the moral universe, without which life would be a desert waste. Use this divine power without stint. Be prodigal of your love. Let it radiate freely. It will brighten the dark places. It will gladden the sorrowing. It will lift you above the petty, grinding cares that so soon corrode the mind and sap the energies. It is the golden key that will admit you to the palace of the true life.—Success.

Well Enough.

"Didn't I tell you to let well enough alone?" said the doctor to the convalescent who had disobeyed and was suffering a relapse.

"Yes, doctor," whined the patient, "but I wasn't well enough."—Detroit Free Press.

Mrs. W. C. Cassidy and two sons, of Lenora, Tenn., are visiting the lady's parents, Mr. and Mrs. Martin Kramer.

BADLY INJURED IN A FALL.

Mary Sieler, 8 years of age, a daughter of Peter Sieler, of Adams Center, fell from a step ladder while engaged in picking cherries on Saturday, sustaining a compound fracture of the right elbow, a fracture of the wrist with dislocation of the joint, and injury to the shoulder. The arm may be saved from amputation, but it is not believed the full use of it will ever be regained.

MAY RETURN TO PHILIPPINES.

Lieut. J. B. Fonner, who arrived in the city Saturday after a service of twenty-two months with the Thirty-first regiment in the Philippines, states that he is favorably impressed with the islands, and may return there in a civil capacity. Lieutenant Fonner is considerably heavier than when he left Fort Wayne and looks the picture of health. He was stationed during the entire term of service on the island of Mindanao, and his regiment got no taste of the fighting, being located for fourteen months at one point. It was in a delightful climate and on the seacost, but the life grew very monotonous.

Wear the "Knox" straw hat sold by Patterson.

Spend the 4th of July at Rome City. 75c round trip.

There is no need for any one to suffer from indigestion when Bromo-Pepsin is so easily obtainable. Physicians prescribe it for headache, indigestion and insomnia, because it cures and because it is absolutely harmless. All druggists. 10c, 25c and 50c per bottle.

FOR SALE.

A good route on this paper. 162 East Tabor St. 1-3t

Robison Park Theater—Vaudeville, special Fourth of July illuminations on grounds.

JUDGE LOUTTIT'S RULE.

Municipal Judge Louttit has made a grave mistake in establishing 2 o'clock in the afternoon as the hour for convening police court. Unless he has conceived that such a rule will better serve his private conveniences we do not see a single advantage that can come out of it to anyone. If Judge Louttit has, as he claims, really had in mind a purpose to give patrolmen of the night force who appear as witnesses an opportunity to obtain more repose than the former order of things permitted, he has calculated most wretchedly. Night patrolmen do not go off duty until 6 o'clock in the morning. By the time they have reached their homes, breakfasted and prepared for rest from an hour to two hours must elapse. In case any patrolman is to appear at 2 o'clock in police court his rest must end not later than 1 o'clock in the afternoon, possibly earlier than that. About five and one-half hours of sleep is what in most cases he will be able to get under Judge Louttit's new order. Thus Judge Louttit's assigned reason for convening police court in the afternoon is no reason at all. It is the proof that he simply gave the matter no intelligent consideration.

The effect of this new rule will be in the main outrageous. The majority of offenders arraigned at Judge Louttit's bar are men arrested for public intoxication. A large if not the larger percentage of these are taken into custody in the latter part of the afternoon or in the earlier hours of the evening. These poor unfortunates, who in most cases have punished themselves sufficiently for their transgressions of the law, must lie all night and the greater part of the following day in the ill-ventilated, dark and foul-smelling city prison, without food if they are without money—and most of them are—until police court convenes. The poor sots who make up the bulk of the police court grist are guilty of nothing to deserve such affliction.

Judge Louttit's rule is utterly senseless and indefensible. The effect of it will in no instance be beneficial and in many cases it will prove inhumane and outrageous. Judge Louttit ought to revoke his new order as soon as possible.

The privilege allowed by the postoffice department to carriers on the rural free delivery mail routes of making purchases, carrying parcels and the like for the patrons along their routes has fostered several abuses, according to reports. In some instances, it is said, carriers have gone quite extensively into the peddling business, carrying goodsized stocks of notions in their mail carts. But the worst abuse is one which the postmaster general has just abolished with a stringent order. It has been found that some of the carriers have been regularly making purchases of whisky in quarts and pints and delivering it to their patrons. Postmaster General Smith announces that any rural free delivery carrier hereafter found guilty of this practice will be punished with instant dismissal. There is not only no harm but there is much good in carriers making themselves generally useful to their patrons in the doing of legitimate errands, but engaging in peddling and especially in purveying whisky ought not to be tolerated and it is evident that the latter at least will not be. No complaints on such score have so far as we have learned ever been made of any of the carriers on the free delivery routes of Allen county.

One reading the exhortations of "Elijah-St. John" Dowie to his Zion congregations in Chicago, is apt to be impressed by the fact that the reincarnated prophet appeals more strenuously for the cash of his followers than for their repentance. Indeed, giving all they can get to Dowie seems to be the Zion overseer's notion of repentance.

WILL COME SOME DAY.

(Ella Wheeler Wilcox in Chicago American.)

Some day there will be no idlers, either among the rich or poor, because enormous properties will no longer exist, and consequently pauperism will cease. It is useless to smile and tell me I am a dreamer of impossible dreams. What man has done man can do. And America is especially happy in the ability to perfect other nations' good ideas.

There are large and successful cooperative societies existing in Holland and in Flanders. They have existed for twenty years, steadily growing in strength and power. No pauper—no object of charity—is known among them, though one society is 35,000 strong, the other nearly as large.

Mr. Bradford Peck, of Lewiston, Me., has begun a similar movement in his Co-operative Association of America. Success to it.

In New Zealand wonderful things have been achieved by changing the laws of taxation.

Henry Lloyd, in a work called "Newest England," describes this improved system in New Zealand, and says of it:

"It enters upon the practice of direct construction by the state of its own public works and direct employment, without middlemen, of its own labor. The men hired by the new regime to build the railroads, bridges, public buildings, make roads, etc., are taken by preference from those citizens who need work.

"In giving them work the new regime also gives them farms and homes from the public lands near by or from the private estates which it buys up for that purpose. The workingmen themselves are made their own contractors, and taught, even the tramp and the casual, to work together co-operatively.

"The state as an employer sees and saves for the community the economic value of the labor of the old and incompetent, the unskilled and the tramp, which the private employer lets go to waste."

I would advise all intelligent workingmen to get this book and learn how the old miserable conditions were changed to the present happy and hopeful ones. I would advise them to think well on what they read and be ready to lend comprehensive aid to our own country when the hour comes for a similar right about face.

OUT IN SYMPATHY STRIKE.

Easton, Pa., July 1.—The carpenters, painters, tinsmiths, plumbers and electricians of this city quit work today in sympathy with the bricklayers and plasters, who went on strike May 1 for shorter hours, with no reduction in pay.

CELEBRATE SILVER JUBILEE

TWENTY-FIFTH ANNIVERSARY IS OBSERVED.

By St. Stephen's Young Men's Society of St. Peter's Catholic Church—Special Program.

The twenty-fifth anniversary of the organization of St. Stephen's Young Men's Society of St. Peter's Catholic church was observed yesterday with special services during the day and an appropriate program in the evening. In the morning Father Koerdt read solemn high mass, and at 10 o'clock Rev. John Tremmel, of Covington, Ky., who was a former member of the parish, officiated. In the afternoon the society attended vespers in a body.

A very interesting program was observed in the evening in St. Peter's school hall. The opening address was delivered by the president, Charles Roth, and Mayor Henry C. Berghoff delivered a brief speech. Joseph Becker, one of the pioneer members, gave a short history of the society. The society was organized February 6, 1876, under the direction of Father Wemhoff. In the years 1889 and 1890 the organization was on the verge of disbanding but determined efforts on the part of Rev. Messman prevented a dissolution. The society was reorganized in 1890 with a membership of 100 and it has been most prosperous since.

The closing address was made by Secretary Willian Rhine. The program was interspersed with many interesting features, and at its conclusion a banquet was served, Mayor Henry Berghoff presiding.

DOSWELL—WHITFIELD.

Miss Lucy Caroline Doswell, daughter of Mr. and Mrs. George Doswell, was united in marriage at 8 o'clock Saturday evening to William E. Whitfield, of Chicago, and the event was one of the prettiest of the season. It was solemnized at the home of the bride's parents, under a floral arch beneath a canopy on the lawn. The grounds were lighted with Chinese lanterns, and the tent was beautifully decorated with ropes of evergreen, pots of flowering fuschias and an abundance of carnations. Rev. A. W. Seabrease officiated and Mrs. G. W. Doswell played the wedding march as the bridal party appeared. Two flower maidens, Rhoda Doswell and Hnidee Adams, were first, strewing the pathway with flowers which they carried in hats hung from their arms. Miss Nellie Brady was bridesmaid, and was attired in pink, while John Adams was best man. The bride wore a charming gown of white batiste, made over a silk slip, and carried an arm bouquet of bride's roses. She walked with her father, who gave her away. After the ceremony a delicious supper was served by Seidel, on tables set on the lawn and under the canopy. The bride's table was done in green and white. The decorating, which was very artistic, was done by Miss Flick. Mr. and Mrs. Whitfield left on an early morning train for Buffalo and Niagara, and on their return will reside in Chicago. Out-of-town guests were Mrs. W. Whitfield and daughter, Miss Whitfield, mother and sister of the groom; Mr. and Mrs. Ensweiler, Mr. and Mrs. Burton and Miss Nettie Burton, all of Chicago.

ILL AT COLUMBIA CITY.

(Columbia City Post.)

"Wm. Harris, of Fort Wayne, reached this city Friday at 12:51 and started to walk over to his brother's saloon on Whitley street. When he reached the bridge at the brewery he was seized with cramps and was also suffering from pleurisy. He managed to get as far as the Wabash tracks, when he collapsed. Several bystanders went to his assistance, among them his brother Frank. The sick man was taken to the home of his brother and was able to afford him such relief that he returned to his home at 10 o'clock. Mr. Harris is a carpenter and builder and his purpose in coming here was to make a settlement for a car load of lumber he had purchased of Mosher & Grant."

TWO KILLED AT SEDAN.

Auburn, Ind., July 1.—Lee Hine and Isaac Tryor were struck by a Lake Shore train at Sedan Saturday afternoon, while crossing the tracks in a buggy, and both were instantly killed. Tryer carried the mails between the postoffice and the depot and was 50 years of age. Hine was about 35, and both were married.

WILLIAM HELWIG HURT.

William Helwig, residing at 105 Taylor street, was struck by a Wabash engine at the crossing of the shop track on Fairfield avenue shortly after 3 o'clock Saturday afternoon and sustained painful injuries. Helwig was formerly employed at the organ factory, but is convalescing from recent illness, and lately has been devoting his time to canvassing for a patent ironing board. He carried one of these boards at the time he was struck Saturday, and to this fact probably owes his life. The engine had just left the repair shops and was being tested. Helwig did not notice the aproach of the engine which was backing slowly toward the shops, but the ironing board he carried received the force of the impact in such a manner as to throw Helwig clear of the rails. The injured man was unconscious when yard men rushed to his assistance, and he was taken to his home. Dr. Maurice Rosenthal, who was summoned to attend him, found the patient suffering from concussion of the brain. There was also a severe cut across the forehead and numerous bruises upon the body, but no bones were broken.

FOREIGN CROP OUTLOOK.

London, July 1.—The Mark Lane Express in its weekly review of the crop situation says today:

"The official report giving the yield of the Indian wheat crop as 30,920,000 quarters should mean that nearly six millions will be available for export, but as the granaries are completely depleted it is not likely that more than three millions will be exported."

Summarizing the continental position the Mark Lane Express says it expects over the average wheat yield in Russia, Spain and Servia, average yield in Italy, Austria-Hungary, Roumania and the Netherlands and belowe the average yield in Germany, Poland and Scandinavia. The feature of the maize trade continues to be the spirited competition of Roumania, Bulgaria and Turkey with the United States and Argentina.

WANT EIGHT HOUR DAY.

Boston, July 1.—Carpenters of this city who had not been granted the eight-hour working day presented a demand today for that schedule. There are only a few hundred of the 3,000 carpenters in the city whose employers have not already conceded the eight-hour rule.

HEALTH BREAKING IN JAIL.

Lexington, Ky., July 1.—James Howard, of the noted Howard feud faction of Clay county, and Caleb Powers, secretary of state under W. S. Taylor, both convicted of complicity in the assassination of Senator William Goebel and both awaiting new trials, are almost physical wrecks as the result of their long confinement in jail. The narrow steel cells, almost without ventilation, are ruining the health of the men, already weakened by confinement. Both were fine specimens of mountain manhood, but they are now thin and pale.

A number of the women of the state started a movement to raise funds for the defense of the men and to create sympathy for them. Close on the heels of this were statements that the noted prisoners had planned to escape and they were then placed in even closer quarters than before. Republicans claim that there was nothing but political malice in the rumor of escape, but Jailer Lawrence, of the Franklin county jail, says that a mysterious stranger visited Powers' cell and left a large sum of money and that Powers immediately began to insist on the jail employes drinking at his expense. Lawrence claims also to have observed other indications of a plot to escape.

DEATH TERMINATES A VISIT.

Dublin, Ind., July 1.—Mrs. James Conn yesterday stepped from the train in London, in Shelby county, where she contemplated making a visit to her sister, Mrs. John Vernon. The sisters twenty-five years ago were separated and have not seen each other since. Recently Mrs. Conn, who lives in Missouri, learned the whereabouts of her long lost sister and at once started for Indiana to meet her. Mrs. Conn was much excited over the glad tidings, and, filled with the joy of meeting her sister, she rushed into her home and surprised her. In ten minutes after she reached her sister's home she died.

What's the secret of happy, vigorous health? Simply keeping the bowels, the stomach, the liver and kidneys strong and active. Burdock Blood Bitters does it.

Diphtheria relieved in twenty minutes. Almost miraculous. Dr. Thomas' Eclectric Oil. At any drug store.

Hives are a terrible torment to the little folks, and some older ones. Easily cured. Doan's Ointment never fails. Instant relief, permanent cure. At any drug store, 50 cents.

A little life may be sacrificed to an hour's delay. Cholera Infantum, Dysentery, Diarrhoea comes suddenly. Only safe plan is to have Dr. Fowler's Extract of Wild Strawberry always on hand.

ASK FIFTY-YEAR FANCHISES

MUNCIE-FORT WAYNE LINE MEN ARE MOVING.

Say the New Electric Road is Practically Assured—Cleveland Capitalists Interested.

"Promoters of the proposed electric line, which has been built so many times, are hustling, despite the warm weather, and the line is practically assured, not only to Hartford City, but to Fort Wayne," says the Muncie Herald.

The above information was given out this morning by a conservative business man of this city who has been interested in the enterprise for some time. The decision of the eastern men, who are to furnish the greater part of the capital, the informant continues, have virtually not only accept the proposition, but are seeing about the granting of franchises for fifty years, instead of only twenty, as was the case in many instances. They feel assured that the territory is valuable, and that the road will be a winner. The line will extend to Hartford City first, but it is as much assured that it will eventually be built into Fort Wayne.

Mr. Hexter, one of the Cleveland men interested in the proposed road, is in Chicago at present. He will be in Muncie within a few days, and the matter will be given more serious consideration. The name of the company, as spoken of in the franchise, a number of which have already been secured, is the Muncie, Hartford City and Fort Wayne Traction company.

The work of securing the remaining franchises will require but a short time, when the organization of the company will follow. This will be completed with the closing of the franchises and the completion of the great amount of other detail work necessary in such a project. It is expected that the company will be organized in this city in the near future. Other binding features, which will insure the completion of the road will also occur soon.

MARS A TORONTO SABBATH.

Toronto, Ont., July 1. — The first Sunday steamboat excursion ever run to Toronto arrived shortly after 2 o'clock yesterday afternoon by the steamer Argyle, from Buffalo. Passengers were mostly Buffalo street railway employes and were greatly amused over the fact that they could get no intoxicating liquors in this city, all saloons being closed. The vessel left again shortly after 5 o'clock. Police got all information as to captain and owner and will prosecute both. The Ontario government has promised that if the existing legislation is not stringent enough to prevent such trips further legislation will be attempted. The Sunday steamboat excursions from the city have heretofore left at midnight Saturday, returning after midnight Sunday.

BARKER GIVES UP APPEAL.

New York, July 1.—No appeal will be taken from the sentence of Judge Blair by Thomas G. Barker, who was convicted of shooting Rev. John Keller and given five years' imprisonment in the Trenton state prison. Mr. Barker, after consultation with his friends, has decided that the money which was to have been raised to make an appeal shall be used to keep Mrs. Barker in comfortable circumstances while he is serving his sentence. But for this fund Mrs. Barker would be practically penniless. It is said that Barker will begin serving his sentence before the end of this week. Mrs. Barker will probably make one more visit to the Hudson county jail to see her husband and bid him good-bye. His attorneys will also call and after this Barker will ask that he be sent to the penitentiary at once, so that he may begin his term.

Mothers, be sure and use Mrs. Winslow's Soothing Syrup for your children while cutting teeth. It is the best remedy of all. may 8eod&w

BANK'S DOORS CLOSED.

Buffalo, N. Y., July 1.—The City National bank, which was placed in the hands of a receiver on Saturday night by Comptroller of the Currency Dawes, did not open its doors this morning. M. D. Lynch, chief of the division of insolvent banks, and Special Bank Examiner W. A. Mason took charge of the bank today pending the arrival of Mr. Vaughn, the temporary receiver. President Cornwell said that he would probably make a statement later in the day, but had nothing to say just now. Not more than fifty people were at the bank at 10 o'clock, the usual opening hour, and a few minutes later most of those had left.

The per capita of wealth in the United States was $308 in 1850, $780 in 1870 and is now $1,200.

WILL GO TO PEKIN

CHINESE COURT TO RETURN TO OLD CAPITAL.

CONTRARY REPORTS DENIED

CAPITAL NOT TO BE FIXED IN HUNAN PROVINCE.

DISCUSSION OF INDEMNITY

THE SUBJECT HAS NOT YET BEEN EXHAUSTED.

Berlin, July 1.—Nothing is known in German official circles regarding the news from Shanghai to the effect that Kai-Fang-Fu, in the province of Ho-Nan, is to become the Chinese capital. The latest reports received here from Pekin reiterate the statement that it is the court's intention to return to Pekin.

The German government has not been informed touching the plans of Prince Chuan, further than that he is coming to Berlin to apologize for the Baron Von Ketteler murder. If Prince Chuan's plans are to visit other European courts and Washington, the Berlin authorities have not been informed. In relation to the present status of the Pekin diplomatic negotiations, the representative of the Associated Press here learns on reliable authority that the question of the guarantees of bonds securing the indemnities is still unsolved, a difference of opinion between Great Britain and Russia still existing. Russia's proposition is to raise the sea tolls from 5 to 10 per cent., but if the junk and salt taxes with 5 per cent. of sea tolls shall not hold sufficient.

Great Britain's objections to the Russian proposition are believed to be dictated by practical reasons, since the above taxes would most probably suffice, than by the popular sentiment in Great Britain and by parliament. The Berlin authorities believe, also, like other powers, that Russia's proposition is not likely to go into effect.

Hence Germany confidently expects a final agreement upon the above question. The matter of the renewal and modification of commercial treaties with China has meanwhile been taken up jointly by the Pekin diplomatists, since this, like the indemnities matter, is expected to be settled in unison, at least in its general features. Germany, with the other China sea trading powers, advocates the principal of the "open door," the opening of additional harbors and the greatest possible commercial liberty. Well informed circles here believe Russia does not oppose the above on principle, but though she may object to certain details when the treaty negotiations are more advanced.

The Library Hall Athletic Association will meet this evening.

Little prices and high quality at Patterson's.

CELERY KING

A Girl's Experience.

My daughter's nerves were terribly out of order. She was thin and weak; the least noise startled her, and she was wakeful at night. Before she had taken one package of Celery King the change in her was so great that she could hardly be taken for the same girl. She is rapidly growing well and strong, her complexion is perfect, and she sleeps well every night.—Mrs. Lacey McNutt, Brush Valley, Pa.

Celery King cures Constipation, and Nervousness, Liver and Kidney Disease. 4

THE BIG STRIKE IS UNDER WAY

(Continued From First Page.)

them without a week's cessation, Union and non-union alike, they are demanding a short vacation, and the prediction is made that the companies will be unable to keep any one at work for two or three weeks after tomorrow. The heat is intense and the men, one vice president said today, are almost in a state of revolt.

THE REAL BATTLE.

It will be after, perhaps, the first of August when the combine makes a serious attempt to start up in full, that the real battle will beg'n if no settlement has been reached at that time. The company cannot well delay operations longer than that on account of the present floods of orders. In fact, the urgent orders now on the books can scarcely wait through July.

Thus the association has almost a month more to prepare for the coming struggle. It is the boast of the Amalgamated association officials that by that time they will control 80 per cent of the capacity of the combines of the plants.

SHAFFER'S PLANS.

Gradually the plans of President T. J. Shaffer, of the Amalgamated association are being uncovered. Since the trouble in the W. Dewes Wood Mills, in McKeesport, a few months ago, the Amalgamated association has been actively engaged in breaking up the present arrangement of the plans of the combine in operating parts of the plants with non-union men and the others with union men. Mr. Shaffer says that if this is not checked, the life of the Amalgamated association is threatened, for the combine will always work their union mills last, and the union men will be sufferers by this discrimination.

It was believed by the Amalgamated association that the promptness with which the sheet steel combine came to their terms in the McKeesport trouble and allowed the union to exist in that plant would prove a boom to further aggressive action on the part of organized workmen. Taking advantage of the new United States Steel corporation as the parent head of all the other combines with which the Amalgamated association had to deal, it was felt that by a threatened strike of all the union men in all the branches of the steel business would so frighten the combine officials that they would give in and allow every one of the non-union plants to be unionized.

WHY THEY STRIKE.

The strike order against the American Sheet Steel company has been ordered because this portion of the United States Steel corporation has thus far stood out against the increase in union mills, now recognized as union, to remain so. The American Steel Hoop company stands in the same position.

Thus is arrayed against the union organization the two branches of the United States steel corporation. The scale for the American tin plate company, also a part of the greater corporation has been signed. It is said, however, that in case the struggle continues the Amalgamated officials have the power to call out these tin plate workers as a means of defense against the parent corporation which they hold responsible for all disagreements.

The strike now threatened in the bar mills, following so closely upon that of the sheet mills, has therefore a most serious aspect and may spread to enormous proportions.

A PREDICTED STRUGGLE.

Indeed, in some circles, it is predicted that the gigantic struggle that has been talked of since the organization of the United States Steel corporation was formed is on the eve of breaking out, and that its coming is much sooner than many believed was possible.

The position that the greater combination was placed in, practically frees the independent plants from complicity in the battle. The fight is not for wages, but for organization. Either the Amalgamated association must bow to the will of the greater combine or else the greater combine will have to give up its non-union mills.

Members of the advisory board of Amalgamated association declare that the association has a surprise in store for the combine.

ORGANIATION STRONG.

"We have not been idle during the first half of the present year," said one. "We have strong lodges organized in several non-union plants over which the combine imagines it has absolute control. We are in better shape for a strike than we ever were before. Our membership among the sheet workers is stronger than it has been in years, and our treasury has a larger defense fund than we ever had in our history. The question of signing for all mills must be settled this year. Next year or the year following will be too late."

At McKeesport the strike outlook is regard seriously. W. Dewes Wood mill was shut down a week ago and no effort will be made by the company to start up the mill within a few weeks. A party of twenty-two of the employes left yesterday for Fort Marion, where they will go into camp. Other employes are to follow. The members of the Amalgamated association all endorse the stand taken by President Shaffer, and predict that unless the company signs the scale, the mill cannot be started. The Amalgamated people say men are joining their organization every day.

MEN FOLLOW ORDER.

In accordance with President Shaffer's orders the crews of sixteen furnaces in the Lindsay and McCutcheon's mills, Allegheny, are out on strike, and the four other crews are expected to quit today. The men say they will remain out until the scale is signed.

The strike began at 3:30 a. m. when four of the crews went to work and found that none of the men working on the other sixteen furnaces had shown up. The four crews went to work but were approached by the strikers, and it is understood have agreed to quit when the day's turn is over. The finishing and all other departments in the plant are running full.

At the Isabella furnace of the American steel hoop combine, at Aetna, it was stated today that the strike would not affect it. There are 800 employes, 700 of whom are Italians. The remaining 100 are machinists and are satisfied with their scale.

At the Lockhart Iron works, McKees Rocks, it was announced that the strike would not affect the operation of the plant, as the amalgamated scale was signed by the works on Saturday afternoon.

OUT AT MUNCIE.

A telegram from Muncie, Ind., reports that the plant closed down. Five hundred men are out.

An early settlement is expected. Signatures to the amalgamated scales from the following concerns were received at the headquarters this morning: Lockhart Iron and Steel company, McKees Rock, Pa.; Sharon Tin Plate company, South Sharon Pa.; Stewart Iron company, limited, Sharon, Pa.; N. and G. Taylor Tin Plate company, Cumberland, Md.; American Rolling Mill company, Muskegon, Mich.; Southern Car and Foundry company, Anderson, Ala.; Bessemer Rolling Mill company, Bessemer, Ala.

CHRISTIAN JAUTZ NO MORE

SUCCUMBED TODAY AFTER A LONG ILLNESS.

Was a Gardener for More Than Fifty Years—Frederick Frey Dead—Other Mortuary Matters.

Christian Jautz, a well known gardener and for more than fifty years a resident of this section, died at 7 o'clock this morning at the home of his son-in-law, Caristian Vollriede, corner of High and DeGroffe streets.

Death was due to dropsy and cancer and it followed an extended period of illness. Mr. Jautz was a native of Germany, but practically all his life had been spent in Allen county. His age was 68 years, 8 months and 14 days, and since his health began declining he and his aged wife have been making their home with their only child, Mrs. Vollriede. There are several grandchildren.

Funeral services will be held Wednesday at 2 o'clock from the residence and at 2:30 from Trinity Lutheran church.

FREY.

Frederick Frey, 82 years of age, died Sunday morning at St. Joseph hospital, from septicaemia, at the age of 82 years. Mr. Frey was a native of Germany, but came to Fort Wayne at an early age.

Thirty-five years ago he removed to Burlington, Iowa, where he resided for twenty-five years, and where his wife and two sons are buried. For the past ten years the deceased made his home with his brother-in-law, George Brouwer, in Madison township.

The remains were removed to the residence of J. H. Cable, No. 17 West Leith street, and will be taken to Burlington, Iowa, for interment, leaving in charge of Mr. Brouwer Thursday morning at 3:30 over the Pennsylvania railroad.

FUNERAL ANNOUNCEMENTS.

Dinkel.—The remains of Charles J. Dinkel were removed today from Klnehn & Melching's undertaking rooms to the residence, 1 Victoria avenue, where friends may view the body. Funeral services will be held Tuesday afternoon at 2 o'clock from the residence and at 2:30 from Zion's Lutheran church. The Carpenters' union will attend in a body. The interment will be at Concordia. Mr. Dinkel's immediate family consists of the widow and four children. Other surviving relatives include the father, Christian Dinkle, of Battle Creek, Neb.; one brother, William Dinkel, and three sisters, Mrs. Mary Schacher, of this city, and the Misses Lizzie and Caroline Dinkel, residing in Nebraska.

MAYOR TOM JOHNSON'S WAY.

Major W. J. Gleason appeared before the board of control one day last week and announced that he wished to make a complaint.

"Go ahead," said Mayor Tom L. Johnson.

"The Big Consolidated Stree Car company is preparing to relay its tracks on Cedar avenue and put down the old cobble stones between tracks."

"What's the kick?"

"They're an eyesore and—"

"Come forward, Mr. McCormick," called the mayor to the manager of the manager of the Big Consolidated.

"We're only relaying one track," said McCormick, "next year we'll relay the other and put down Medina block stone between both tracks."

"Is that satisfactory, Mr. Gleason?" asked the mayor.

"Yes, if they do it."

"Will you write a letter to the board agreeing to do that?" inquired the mayor of Mr. McCormick.

"I will."

"Another thing," said Mr. Gleason, "they're putting those cobble stones on our lawns."

"Will you repair all lawns?" said the mayor, turning to McCormick.

"We are willing to do anything we can."

"Will you repair the lawns?"

"We'll put down boards and protect them."

"Will you repair the lawns?"

"Um-er-yes."

"Will you include that in your letter?"

"Yes."

"Are you satisfied, major?"

"I am."

"What's the next business?" inquired the mayor.

Before the board adjourned Manager McCormick returned with the letter in question.

"Hold on," exclaimed the mayor, "this don't say you are going to relay the second track next summer. If you don't agree to relay it we'll make you pave between the tracks you are now tearing up with block stone if we can."

"I think we will relay the second track next summer, but if you insist on that I want to consider the matter further."

"All right. How long do you want?"

"Until tomorrow."

"Have you begun laying any of those cobble stones?"

"Yes."

"Stop it, will you, until we agree as to that second track."

"I don't know as I should."

"Then you won't?"

"I don't see why I should."

"Tom Gavin," cried the mayor. The deputy director of public works came forward. "Go right to Cedar avenue and stop the men who are relaying cobble stones there. Don't allow them to begin again until you hear from this board."

Galvin hustled out. McCormick's face flushed, but he didn't have a word to say.

Lazy Liver

"I have been troubled a great deal with a torpid liver, which prethey constitution. I found CASCARETS to be all you claim for them, and received such relief the first trial, that I purchased another supply and was completely cured. I shall only be too glad to recommend Cascarets whenever the opportunity is presented."

THE ACT OF A HERO.

He Snatched a Life Out of a Pool of Molten Metal.

Three men came up carrying a long iron shaft, which had been cut in two, so that an iron ring could be inserted between the two halves. An empty crucible a foot wide and deep hung in the ring. The forward end of the pole held a crossbar, making it, as it were, a huge T. Two men held the T part of the pole; the third grasped the rear end. The crucible hung between. The remainder of the molten metal from the caldron was tipped into one crucible, and the men trotted off with it, the two in front with strained faces, the man behind driving them complacently, the oddest team in the world. He steered them through a doorway, and they emptied their crucible into a small mold. As they went they kept step in an unusual manner. Instead of stepping out right foot with right foot the left man's right leg and the right man's left leg went forward together, knee with knee, foot with foot. We asked why.

"That," said our guide, "is to prevent them from tripping. If they should fall, you know, that metal would pour over them."

"Of course such a thing never happened?"

"Yes, it did once. One of the men went down. The other jumped clear, but the fellow on the floor swam in it."

"Horrible! Of course he died instantly, poor man?"

"No; the foreman of the carrying gang, taking in the situation, made several terrific leaps for him, jumped right into the middle of it, picked him up and threw him out of it bodily. Then he jumped clear himself, with the stuff dropping from his shoes. They both went to the hospital, but they are all right now. Heroic, wasn't it? By the way, that's him, the foreman, Jim H., over there now. He is still looking after those fellows."

We looked over to where a big muscular fellow was directing a gang of men manipulating molten metal. He was not disfigured, and he did not look like a hero, but thereafter the grime that covered him seemed noble indeed, and he would not say a word of his feat when we sought to talk with him about it. But Jim H. will probably never want for a job as long as Baldwin's is working.—From an Article on the Baldwin Locomotive Works in Frank Leslie's Popular Monthly.

ONLY AN OLD SONG.

But It Illustrated the Curiosity of a New York Crowd.

It was only a song, and an old one at that, but it came near causing a block on the Broadway surface line the other day. The singer was as black as the coal in the cart he was driving, but that fact cast no shadow on his exuberant spirits. As he swung his chariot from Broadway into Cortlandt street he raised his voice. Then the trouble began.

When the notes of "Old Black Joe" rang out high and clear above the din of traffic, expressions of blank amazement overspread the faces of the hurrying pedestrians who thronged the sidewalks. Necks were craned in a vain search for the location of some newly patented phonograph. Crowds collected and gazed vacantly upon the air, as if they expected to locate the sound in some office window; teams were drawn up until a long line of trucks extended up Cortlandt street to Broadway, barring access to the street, that their drivers might ascertain the cause of the crowd's curiosity. Suddenly a newsboy cried:

"Ah, rubbers! Dontcher see it's only de nigger a-singin'?"

The crowd laughed. The darky, now lustily holding forth on "The Suwannee River," turned sharply into Church street, totally oblivious to the excitement he had caused. The crowd then dispersed, and the long line of wagons began to move once more.

"Well," exclaimed a horseman on his way to the ferry, "New Yorkers and country people curious, but"— He shrugged his shoulders and passed on.—New York Mail and Express.

Treasures of the White House.

There are doubtless in every large city in the country larger and more valuable collections of bric-a-brac and art furniture than that to be found in the private apartments of the executive mansion, but it is a question whether there is in the length and breadth of the land any other half so interesting. Hardly is, of course, a universal characteristic of the artistic gems scattered through the home of the presidents, but better than that is the fact that almost every piece is fraught with memories and associations that make it a prized possession. Of the whole number probably half are the gifts of kings and rulers, tokens of appreciation from friendly nations, and the remainder, having been fashioned especially for the White House, have no duplicates anywhere else in the world.—Woman's Home Companion.

Very Like a Scandal.

"This dollar that I hold in my hand," he said, "reminds me of a deep, dark, scandalous secret."

"Oh, George!" his wife exclaimed, dropping her hands in her lap and bending forward eagerly, "tell me about it."

"Yes," he went on, "it reminds me of a secret of that kind, because it's so hard to keep."

And then she refused to speak to him for three hours.—Chicago Times-Herald.

It's Withholding That Costs.

Diner—Come, tell me straight. Is it any real advantage to a man who gives you a tip?

Truthful Waiter—Honestly, I can't say that it is, but it is apt to go hard with the gentleman that doesn't tip me.—Boston Transcript.

Took No Chances.

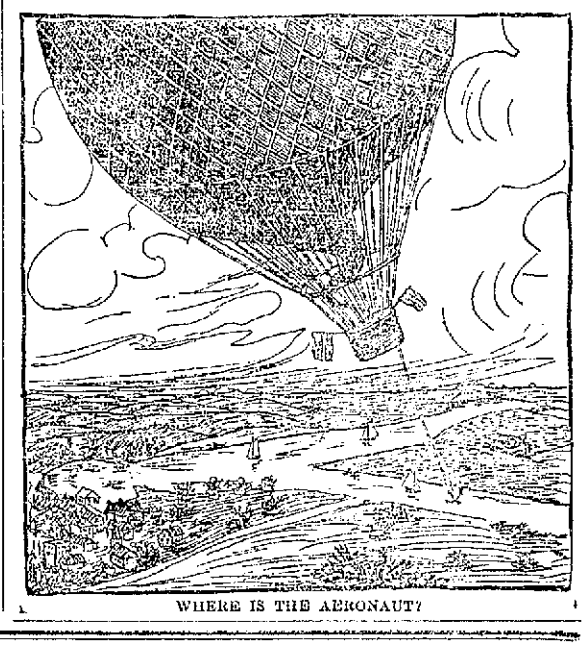
The passerby who happened to look through the open door of an up town fire engine house the other day might have wondered why one horse of the engine team was kept standing at the pole of the engine, hitched up, the horse belonging to the other being in his stall. The reason was extremely simple. Some men on electrical wires were occupied in front of the horse's stall, where in case of an alarm they would have offered more or less impediment to his free movement from the stall to the engine. Of course the firemen took no chances on anything of this sort, so while the work was going on they hitched the horse up in his place on the engine. This was not so comfortable for him as standing perfectly free and clear of harness in his roomy stall would have been, but the horse apparently appreciated the situation fully. While he was the reverse of elated over it, yet as the men worked on he stood at the pole and held his place there with steadiness and patience.—New York Sun.

The First Instance.

Wife—Do you mean to insinuate that your judgment is superior to mine?

Husband—Certainly not, my dear. One choice of life partners proves it isn't.—Chicago News.

A PUZZLE PICTURE.



WHERE IS THE AERONAUT?

THE 4th OF JULY

Will soon be with us. We have some things in straw hats, flannel suits and madras shirts that are "crackers." The wholesale houses have been making "sky-rocket" advances on summer goods—but we are "Independent" as we anticipated our wants and have just what you want to wear the 4th.

REUBEN S. PATTERSON,

The man who shows you how to keep cool.

Toledo	27	29	.482
Marion	23	37	.383
Columbus	21	40	.344

The game yesterday was worth looking at although like the one played on Saturday, it was full of holes and the error column is something appalling to look at, it was a nice, hotly contested game nevertheless. The mighty Pardee was in the box and he got his familiar old bumps just the same as though they were coming to him. He pitched good ball and with perfect support might have won, but that is one of the lotteries of baseball. The game opened listlessly for Fort Wayne, Toledo scoring one in the first inning, to which they had no more right than they had to twenty and yet in the comedy of scoring, it was the only earned run made in the game. Ganley scored because F. Miller in the first place held the ball in his hand like one in a trance and watched him run from second to third when he could have thrown him out in a walk, and on the next play, Babb, by an equally dumb spiel preferred to throw Graffius out at first, to stopping Ganley's run at the plate which was a dead easy chance. After that, however, everybody seemed to get into the game and notwithstanding the 110 degrees which Old Sol was pouring down, the boys played good ball, the errors which came later not being costly enough to lose the game. In the sixth the Mud Hens made two runs with only one hit back of them and only one error to charge; but sandwiched in with the mess was a base on balls a stolen base, and a couple of fielder's choices which let both men safe in each case. It was good sharp ball playing but it did not get ing but it did not get anything at the time. Mullin pitched great ball for Fort Wayne and pitched himself out of several tight holes which the erors of the fielders and the stupid plays heretofore referred to got him into. He was not so clever with the stick as usual, although he scored the first run by letting Fuller come in on his long hit to Bobby Gilks which that gentleman obligingly muffed. What Mullen missed at bat his partner, Fuller, made good, he having three hits out of four times up to his credit and one of them was a three bagger at that. If Fort Wayne can make good once more with Toledo today, she will be away out of the selling plater class and will have a cinch on the one, two, three column. The team goes away tomorrow and will not return until July 9, during which time they will play nine games, six of which the fan with good eyesight can already see dangling at "Doggie's" belt. Yesterday's score:

Earned runs—Toledo, 1. Two-base hits—Bevans, Woodlock. Three-base hit—Fuller. Stolen base—Cargo. First base on balls—Off Mullin, 1. Struck out—By Mullin, 6; by Pardee, 4. Double plays—Nattress to F. Miller to Thornton 2; Graffius to Foutz. Umpire—Hornung. Time—1:20. Attendance—1,600.

OTHER ASSOCIATION GAMES

DAYTON, 15; INDIANAPOLIS, 8.

Dayton, Ohio, July 1.—The pride of the pennant-leaders was humbled yesterday by the locals, who hammered Alloway for twenty-one hits, netting a total of fifteen runs. Wright was not in prime good order. Score:

Dayton	6	0	0	3	1	1	2	2	*	—15
Indian'p'lis	2	0	2	0	2	0	0	1	1	— 8

Hits—Dayton, 21; Indianapolis, 10. Errors—Dayton, 3; Indianapolis, 3. Batteries—Wright and Blue; Alloway and Byers. Umpire—Mullane. Attendance—1,200.

GRAND RAPIDS, 7; COLUMBUS, 5.

Columbus, Ohio, July 1.—Columbus made a grand batting rally in the ninth, scoring four earned runs after two were out. Grand Rapids' lead was too great to overcome. Williams was hit hard and the locals fielded poorly. Score:

Columbus ..	0	0	0	1	0	0	0	0	4	—5
G'd Rapids .	1	0	0	1	0	1	2	2	*	—7

Hits—Columbus, 8; Grand Rapids, 9. Errors—Columbus, 4; Grand Rapids, 4. Batteries—Williams and Zinram; Bailey and Zalusky. Attendance—1,806.

WHEELING, 12; MARION, 7.

Wheeling, W. Va., July 1.—The first Sunday game of the season was played yesterday at Sisters Island park in the Ohio river. Poor transportation facilities kept down the crowd. Both Streit and Eagan were hit hard but Wheeling fielded cleanly and batted consecutively. Yerkes started in to pitch for Marion but retired in the first with a split hand. Score:

Wheeling .	0	0	0	0	6	0	0	2	4	—12
Marion ...	0	1	0	4	0	0	2	0	0	— 7

Hits—Wheeling, 16; Marion, 9. Errors—Wheeling, 0; Marion, 2. Batteries—Streit and Fox; Eagan, Yerkes and Kellner.

THE GAME SATURDAY.

Fort Wayne added one to its string and squeezed into third place on Saturday by defeating Toledo, by a mighty narrow majority. It took ten innings to do the job and then the victory was one of rather doubtful honor. The game was as full of holes as a ladder, but belicing the ragged looking score, it was a most interesting and exciting one to watch. Daniels started to pitch for Fort Wayne, but was found pretty regularly and hard in the fourth, so he asked to be relieved. Fricken substituted him and although they did some fierce business with Hon in the first inning he pitched, he soon squared accounts with them and pulled the game out. Following is the score by innings and the summary:

Ft. W....	2	1	1	2	0	0	2	0	1	—9
Toledo...	1	0	0	3	2	0	0	2	0	—8

Hits—Fort Wayne, 11; Toledo, 12. Errors—Fort Wayne 4; Toledo, 8. Two-base hits—Nattress, Bevans, McIntyre 2, Kane, Cargo. Three-base hit—F. Miller. Home runs—Foutz, McIntyre. Sacrifice hits—Ganley. Stolen bases—Bevans McCann 2, Kane, Joss. Innings pitched—Daniels, 4; Fricken, 6. Base hits—Off Daniels, 7; off Fricken, 5. First base on balls—Off Daniels, 1; off Joss, 2. Hit by pitched ball—By Joss, 2. Struck out—By Daniels, 1; by Fricken, 3; by Joss, 8. Double plays—Nattress to F. Miller to Thornton; Nattress to Fuller to F. Miller. Umpire—Hornung. Time—2:10. Attendance—700.

SHAMROCKS DEFEAT GREENS.

At South Bend yesterday afternoon the Shamrocks defeated the famous South Bend Greens in a pretty and exciting game. The battery work of Robbins and Tieman was brilliant. Cherry, Quinn, Collars and Tieman all hit for extra sacks. The game was witnessed by a large crowd, many Fort Wayne people, who were on the Benton Harbor excursion train, being among the spectators. Not a Green Stocking could steal a sack on Tieman, Starke, farmed to the South Bends by Fort Wayne, backstopped for the Greens. The score:

Shamrocks .	3	0	0	0	0	0	0	0	2	—5
Greens	3	0	1	0	0	0	0	0	0	—4

Batteries—Robbins and Tieman; Schaefer and Starke. Hits—Shamrocks, 11; Greens, 6. Errors—Shamrocks, 4; Greens, 3.

BLUES DEFEAT KEYSTONE.

The Blues defeated the Keystone, Ind., team yesterday. The team at that place had not been defeated before this date. The features of the game was the pitching of Smith and the home run of Hellinger. Score: Blues, 8; Keystone, 6. Batteries—Smith and Longfield; O. Guess and J. Guess.

DIAMOND DUST.

Second Baseman Rathermel, of the Rock Island team of the I. L. I. league, played short for Wheeling last year.

The Frenchtown Grays defeated the Royals by a score of 21 to 6. Batteries—A. Shoyer and F. Louer; Spalden and Kale.

The Reds defeated the Frenchtown Yales by a score of 27 to 24. Batteries—Gusching and Lallow; Sanders, Walker and Bolen.

The Clover Leaf club defeated the All Star (colored) team by the score of 16 to 8. Batteries—McClaim and Parker; Green and Ridley.

The South Waynes were defeated at Logansport yesterday by a score of 15 to 8. Batteries—McCoy and Boseker for South Waynes; Cuppy and Kessling for Logansport.

The last game of the home series was played this afternoon and tomorrow the team goes to Wabash to play an exhibition game. Wednesday they open at Marion, playing two games on the Fourth. They then go to Toledo for three games and Wheeling comes for three games.

Amos Rusie will pitch the game for Cincinnati on July 4th, and if he makes any kind of a showing at all he will be retained, otherwise he will be dropped unconditionally. All kinds of reports have been current about the big fellow, but he denies the reports that he dissipates, and says he is going to win his game Thursday.

For the first time since the opening of the season Fort Wayne has a percentage of .500. The boys have struck their gait at last and are in the race for pennant honors. The rejuvenating effects of a winning streak on the fans is attested by the increasing attendance, and the fact is patent that as long as we have a winning team there will be large crowds at League park.

In the league batting averages up to June 27, five Fort Wayne players are batting over the .300 mark. They are Mullen, .333; Babb, .313; McCann, .311; Nattress, .306 and Thornton, .301. Nattress has been at bat oftener than any other player in the league, 335 times, having, when the averages were complied, 73 hits to his credit. Meaney, of Marion, who stands second on the list with an average of 361, has made the greatest number of hits, 82.

Fox and Hey, of Indianapolis, are not the only sprinters in the league. It is the opinion of many that Bevans, Fort Wayne's fleet center fielder, has them both beaten and as a "hunt artist" he can certainly show both of them a thing or two. Bevans can also be depended on to make a hit when one is needed. Furthermore, Bevans is one of the most gentlemanly players in the league and has never been known to indulge in any kicking, even when kicking was justifiable.

Catcher "Tacks" Lattimer was released last evening and big Bill Smink has been signed by the local management to take his place. "Old Tacks" was a great favorite with the fans, and has more tricks in his makeup than any other catcher in the league. He is full of ginger, is an excellent coach, and was able to keep the spectators in constant good humor while he was on the field, but during most of the time that he has been here, his health has not been good. He suffered some with pleurisy, and that interfered greatly with his hitting, his throwing and his wind. Besides he is a high priced man, too high to be carried on the bench, when a serviceable and much cheaper man could be secured. "Tacks" has a host of friends in Fort Wayne who will be sorry to see him go and will be correspondingly pleased to know that he is recovering rapidly and gaining strength so fast that he will be good as new in a week at the farthest. He is too good a player and knows the game too well to be idle long and whoever gets him will secure an honest and conscientious player of quality. A helmet the bat. Smink was tried out by Dayton early in the season, but he was unsatisfactory and was released when the Vets made their last appearance here. He was signed by Marion, but was again found wanting and was sent to the woods. He has a batting average of about .250 and considerable of a reputation as a kicker. It is hoped that he has now struck a hot weather gait and will "make good."

THE MARKETS.

Chicago, July 1.—Wheat opened higher today on better cables, but trade was extremely dull and the market eased off rapidly. September opened ¼c to ⅜c up at 66¾c to 66⅞, advanced to 67c and declined to 66⅜@66½c. Deliveries on July contracts were estimated at a million and a half bushels. Minneapolis and Duluth reported 514 cars, against 430 cars a week ago and 332 cars last year. Local receipts were 63 cars, 1 of contract grade.

September declined to 65½c. The close was ¾c lower at 65¾c.

Corn opened excited and higher on hot weather throughout the southwest. For a time the crowd seemed willing to pay almost any price, but profit-taking finally steadied the market. September opened ⅜@½c to 2¼@2⅜c higher at 46⅜c to 46c. Only one or two sales were made at the high point. The market then fell to 46¼@46⅜c. Deliveries on July contracts were heavy at two million bushels. Receipts were 222 cars, 4 of contract grade.

On reports of rain in Kansas September dropped back to 46½c and closed ⅝c higher at 46½@46⅝c.

Oats opened strong with corn, but offerings were liberal and the market eased off slightly. September opened ½@⅝c to ¾c higher at 27¼@27⅜c to 27⅝c and steadied at 27⅜c. Receipts were 161 cars.

Provisions were firm early with corn. Pork opened unchanged at $14.95, lard unchanged at $8.75, and ribs 2½c lower at $8.15.

THE CLOSE.

Prices at the close were as follows:

Wheat—July, 64¾c; Aug., 65¼c; Sept., 65¾c.

Corn—July, 44½c; Sept., 46¼@46⅜c.

Oats—July, 27c; Sept., 27¼@27⅜c.

Pork—July, $14.55; Sept., $14.75; Jan., $14.20.

Lard—July, $8.60; Sept., $8.67½; Oct., $8.65; Nov., $8.50; Dec., $8.25; Jan., $6.15.

Ribs—July, $8.00; Sept., $8.12½; Oct., $8.05; Jan., $7.32½.

Flax—Cash N. W., $1.88; No. 1, $1.88; Sept, $1.37; Oct., $1.35¼.

CHICAGO LIVE STOCK.

Chicago, July 1.—Cattle—Receipts, 25,000; steers generally weak; choice butchers steady; others slow. Good to prime steers, $5.30@6.25; poor to medium, $4.20@5.10; stockers and feeders slow, $3.75@4.75; cows, $2.70@4.75; heifers, $2.75@5.10; canners, $2.00@3.65; bulls, $2.85@4.50; calves, $4.00@6.25; Texas fed steers, $4.25@5.35; Texas grass steers, $3.50@4.15; Texas bulls, $2.75@3.75.

Hogs—Receipts today, 36,000; tomorrow, 18,000; left over, 1,450. Market a shade easier. Mixed and butchers, $5.80@6.15; good to choice heavy, $6.00@6.22½; rough heavy, $5.80@5.95; light, $5.80@6.10; bulk of sales, $5.95@6.10.

BUTTER, CHEESE AND EGGS.

Chicago, July 1.—Butter—Market steady; creameries, 17@19c; dairies, 13@16½c.

Cheese—Market steady, 9@10c.

Eggs—Market easy, 11c.

THE DAY ON WALL STREET.

New York, July 1.—Changes were divided between gains and losses at the opening, but the most conspicuous stocks were heavy. Steel fell 1⅛ on the labor troubles in the trade and the preferred stock was off ¾. There were declines of 1¼ in Sugar, 1 in St. Paul and ⅝ in Union Pacific and Pennsylvania. On the other hand Iowa Central preferred was up 1¼ and General Electric 1¾. Business was on a very small scale.

There was no material increase in the volume of stocks offered, but the concessions between transactions became lighter, and in the first hour many prominent stocks sold a point or over below Saturday's close. The losses about 2½ in St. Paul, Illinois Central and Tennessee Coal and 2 in Atchison preferred, the Southwestern, Pacific and Granger stock as a group showed the principal weakness on the reports of danger to corn from drought, and independent metal stocks were sympathetically affected by the labor difficulty confronting United States Steel.

Prices moved further downward, the absence of support for the speculative leaders prompting more general short selling than room traders. A few socks bore the brunt of the selling, notably St. Paul and Union Pacific, which scored losses of 3¼ and 2¼ respectively. New York Central, Delaware and Hudson and Rock Island also yielded 2 points and there were conspicuous losses in other stocks of prominence.

United States Steel touched 47¾. Purchases to cover steadied the market somewhat at noon, the leaders rallying a point or more. The market fell into intense dullness at the recovery.

Colorado and Southern, first and second preferred, rose ¾ to 1¾ respectively and American Tin sold off ½. There was a decline of 3 for Rock Island and Colorado Fuel, 3½ for General Electric and 4¾ for Lackawanna. Prices generally drifted downward and the closing was heavy and semi-stagnant.

Bonds were dull and irregular.

NEW YORK PRODUCE.

New York, July 1.—Butter—Receipts, 13,181 pkgs; market quiet and steady; creamery, 15@19½c; factory, 12½@15c.

Cheese—Receipts, 1,857 pkgs; market dull and easy; fancy large colored, 9¼c; fancy large white, 9¼; fancy small colored, 9½c; fancy small white, 9½c.

Eggs—Receipts, 10,054 pkgs; market firm; western, candled, 12½@14½c; western, uncandled, 11@13c.

Sugar—Market steady; fair refining, 3 9-16c; centrifugal 96 test, 4 7-32c; molasses sugar, 3 5-16c; refined, steady; crushed, $6.00; powderde, $5.60; granulated, $5.50.

Coffee—Market quiet; No. 7 Rio, 6 11-16c.

THE MONEY MARKET.

New York, July 1.—Money on call firm at 6@8 per cent; prime mercantile paper, 4@5½ per cent; sterling exchange firm with actual business in bankers' bills at $4.87¾ for demand and at $4.85@4.85⅛ for 60 days; posted rates, $4.86 and $4.88⅛; commercial bills, $4.84½@4.84¾; silver certificates nominally at 60c; bar silver, 59½c; Mexican dollars, 47¼c.

THE BOND MARKET.

New York, July 1.—Government bonds steady:

What S. S. S. Does for Children

Children are constantly exposed to all sorts of diseases. The air they breathe is filled with germs, sewer gas and dust from the filthy streets are inhaled into the lungs and taken into the blood. At the crowded school rooms and other public places they come in contact almost daily with others recovering from or in the first stages of contagious diseases. You can't quarantine against the balance of the world, and the best you can do is to keep their blood in good condition, and thus prevent or at least mitigate the disease. You have perhaps learned from observation or experience that healthy, robust children (and this means, of course, children whose blood is pure) are not nearly so liable to contract diseases peculiar to them, and when they do it is generally in a mild form. On the other hand, weak, emaciated and sickly ones seem to catch every disease that comes along. This is because their blood is lacking in all the elements necessary to sustain and build up the body. Poisons of every description accumulate in the system, because the polluted and sluggish blood is unable to perform its proper functions.

Such children need a blood purifier and tonic to give strength and vitality to their blood, and S. S. S., being a purely vegetable remedy, makes it the safest and best for the delicate constitutions of children. S. S. S. is not only a perfect blood medicine, but is pre-eminently the tonic for children; it increases their appetites and strengthens the digestion and assimilation of food. If your children have any hereditary or acquired taint in their blood, give them S. S. S. and write to our physicians for any information or advice wanted; this will cost you nothing, and will start the little weaklings on the road to recovery. Book on Blood and Skin Diseases free.

BADLY MANGLED

WALTER STANLEY KILLED ON THE RAILROAD.

BODY FOUND HOUR LATER

COMRADES IDENTIFY REMAINS BY CLOTHING.

AN OLD ENGINEER DEAD

MICHAEL NOLAN CALLED TO HIS ETERNAL HOME.

While en route to his home shortly after 1 o'clock this morning, William Crane discovered the mangled body of a man lying upon the Lake Erie and Western tracks, about fifty yards north of the Main street crossing. He immediately turned about and reported the find to the firemen at engine house No. 7, who in turn summoned the coroner and reported the matter to the city police. In the meantime news of the find reached the Nickel Plate yards and some of the men employed there went to the scene of the accident and identified the remains as those of Walter L. Stanley, a caller of train crews for the Nickel Plate. The body was horribly mangled, but identification was made through a black silk cap and a suit of union uniform worn by Stanley; also by the stub of his left arm, he having lost a hand in an accident several years ago at Knox. When Coroner Barnett had viewed the remains he had them removed to the Peltier undertaking establishment, where they were more fully identified and prepared for burial. The body was badly disfigured, the head and both legs being severed from the trunk and ground into an unrecognizable mass by the wheels.

The news of the sad affair was not carried to the stricken family until this morning, when some neighbor ladies performed that sad duty. The wife was heartbroken over her loss, but the children, three of them, are too young to realize their loss, the oldest being only six years old.

Mr. Stanley has been working days for the past two weeks, but had made arrangement to take the night trick tonight. It was his intention to fish at Arnolds today, coming home this evening in time to resume work. He had made arrangements with Charlie Rouzer, seal clerk at the yards, to go to Arnolds on train No. 35, which left the city at 7 o'clock last evening, but on account of the intense heat Mr. Rouzer decided not to go. Mr. Stanley then decided to go to the lake alone, leaving on train 43, which was due at 1 o'clock this morning. He left his home, 93 Howell street, at 9:30 o'clock last night with this intention, telling his wife that he would spend the intervening time with a friend down town. En route to the city Mr. Stanley left a package and his fishing tackle with Crossing Watchman Carnahan, and it is presumed he was en route to the crossing to get his package when he was run down by the Lake Erie and Western excursion train on its return from Indianapolis, which passed that point at 12:45 o'clock this morning.

Mr. Stanley was born and reared near North Manchester, Ind., where some of his immediately relatives still reside. The remains will be shipped to that place for interment, leaving here probably this evening. He was thirty-one years old.

Walter Stanley was one of the most popular and courteous men ever engaged in his line of work. Everybody liked him and he seemed to like everybody. As evidence of the kindly feelings entertained for him, a Nickel Plate man this morning recalled the fact that Mr. Stanley has been riding a fine bicycle which was presented to him by the conductors and brakemen of that road. Walter was always willing to perform little errands for the men where the courtesy could be accomplished without neglect of his duties to the railway. He was also mild and courteous in his speech.

The accident which caused Mr. Stanley the loss of a hand occurred at Knox, Ind., in 1895, when he was a brakeman. When he recovered from the injury sufficiently to resume work, the company gave him the position he held when he met with the accident last evening.

The engine pulling the excursion train which is supposed to have struck Mr. Stanley was No. 46, with Engineer Cranson at the throttle. The engine crew knew nothing of the accident until told of it later.

BIG ABSENTEE LIST.

The absentee lists at the shops are increasing in proportion to the increase in heat and this morning almost every department was short of men. Among the absentees this morning, most of whom are either sick or indisposed by the intense heat, are J. C. Klingenberger, foreman of the cab builders at the Pittsburg shops; V. R. Burns, L. Gronau, L. C. Brudi, Dennis Collins, G. W. Whiteman, A. J. Huber, J. H. Cody, A. Burchard, S. G. Weller, W. M. Repine, H. C. Eix, C. Doehrmann, J. O. Langston, J. Ensch and James G. Roper.

SOME RESIGNATIONS.

Several men resigned their positions at the Pittsburg shops Saturday, not because of any grievance, but because they have secured more desirable positions. J. Poulson, an air brake assistant, quit to go back to his old home in Toledo; W. P. Lang, also an air brake inspector, resigned to take a position in the Wabash shops, and Ben T. Collins, caller of engine crews, retires to take a position elsewhere. There are plenty of applicants for the vacated positions.

WILL GO TO SWITZERLAND.

Next Wednesday G. F. Harbecker will leave for New York, from whence he will sail in a few days for Switzerland, his native land, to be absent three months. He has not been back there since he emigrated to America, several years ago. Mr. Harbecker is assistant hostler at the Pittsburg round house and a most worthy and hard working man.

A BIG EXCURSION.

The Lake Shore and Michigan Southern road carried 415 people to Benton Harbor yesterday, the occasion being the annual excursion event of the St. Joseph Athletic club. They had a good time and made the journey to and from the resort in good time and without any accidents. The Lake Erie and Western took 117 people to Indianapolis yesterday.

AN INSPECTION ENGINE.

A curious looking piece of machinery is the new inspection engine turned out for the Chicago, Burlington and Quincy railroad. It is a combination of a locomotive and passenger car, the car being set on and around the engine boiler, so that from the windows at sides and front the roadbed can be inspected by the railroad officials to the greatest advantage. It might appear such near proximity to the boiler would mean uncomfortable warmth, but this is avoided by an extra thickness of "plastic lagging," as it is called, a non conductor of heat, in connection with an air chamber between this and the floor of the car. The machine is lighted with electricity, even to an electric headlight, and ten lights distributed under the engine to afford light when oiling. It will be used constantly on all inspection trips.

NEW RAILROAD WORK.

During the past week the contractors completed the concrete part of the south abutment of the bridge across the Maumee river at New Haven and advanced the work of making the heavy embankments on the line where it passes through the ravine northwest of the town. The line crosses the creek three times there, but instead of building bridges the contractor will put in big sewer pipes to carry off the water from the east side of the embankment and make a new channel for the stream at the foot of the embankmen on the west side. The graders have commenced work on the north side of the river also and during the week the completed portion of the grade which extends across the field east of Farmer Kamp's barn and north of the river wagon road. The contractor complains of inability to get a sufficient number of teams and laborers, though he is paying good wages. This difficulty will, however, disappear when the wheat, hay and oats crops are harvested. Hundreds of Fort Wayne people went to New Haven on buggies or bicycles yesterday to take a look at the new railway.

SURPRISED THE GENTLEMAN.

Charles Trarbach, the venerable citizen who resides with his son Gustav A. Trarbach, the Pittsburg boilermaker, at 145 East Taber street, was seventy years old Saturday. In honor of the anniversary and to show their respect for Mr. Trarbach about sixty of his friends assembled at that place Saturday evening and gave their host a surprise. The amusements of the evening were cards and music, followed at 11 o'clock by a delicious lunch. Mr. Trarbach has resided in Fort Wayne since 1861 and is one of our best citizens. For a number of years he was employed in the Pittsburg blacksmith shop.

DEATH OF AN OLD ENGINEER.

Michael Nolan died at Lima, Ohio, last evening, after a long and painful sickness with cancer. He was seventy years old and leaves a wife, two sons and two daughters. The children are James Nolan, of the Pittsburg freight house, this city; John A. Nolan, who lives with the family in Lima; Mrs. Katie Fox and Miss Mamie Nolan, also of Lima. The remains will be brought here on Pennsylvania train No. 21, at 10:10 tomorrow morning, and be conveyed immediately to the Catholic cemetery for interment. Michael Nolan was one of the best known and most popular engineers on the Pittsburg road for a number of years, retiring from the throttle only when disease and the infirmities of age incapacitated him for that duty. Six or eight months ago he removed, with his wife and single daughter and son, to Lima, where the eldest daughter already resided. When he became too ill to work he was placed upon the extra pension list of the company, and January 1, when the pension system was placed in operation, he was placed on the list with a number of other old employes. John Nolan, the veteran Pittsburg shopman, is a brother to the deceased. Charles D. and John H. Nolan, of the Pittsburg machine shops, nephews of the deceased, went to Lima this afternoon to accompany the remains and the bereaved family here tomorrow.

INDUSTRIAL NOTES.

Nickel Plate Conductor S. S. Deahl is taking a few days' rest.

J. S. Carey has taken a position as brakeman on the Nickel Plate.

A. B. Sevens, yard conductor at the east yards, is taking a week's vacation.

Superintendent Fenton, of the Findlay, is in New York on business connected with the road.

The Bass company today shipped two large boilers to the Oneonta Street Car company, Oneonta, N. Y.

Henry Mennewisen, a heater at one of the big furnaces at the Bass blacksmith shop, is off duty on account of sickness.

After an illness of a week, A. J. Holzhauer resumed work this morning in the Pittsburg shops. He is a flue cutter.

A. R. Jay, a car inspector at the Pittsburg yards, is off duty on account of the serious illness of one of his children.

William Erwin, the boilermaker, who was sick four or five weeks, resumed work in the Pittsburg shops this morning.

Brakeman A. B. VanMeter, of the Nickel Plate, has taken a vacation for the purpose of visiting friends in Ohio a few days.

Brakeman T. H. Gallivan, of the Nickel Plate, is sick, and Brakeman J. Conners is taking a lay off for business purposes.

E. J. Agerter, who was firing on the engine hauling No. 6 this morning, was taken violently ill at Plymouth and Fireman G. K. Holham was sent there to take his place at the scoop.

Alonzo Swank is looking after some business matters for the Fort Wayne Electric company at Gas City today.

Boilermaker J. J. Baches resumed work at the Pittsburg boiler shops this morning. He was sick two weeks.

Irvin J. Toy, an armature winder at the electric works, reported for duty this morning after a week spent at Rome City.

Master Mechanic G. F. Sweeley, of Allegheny, was in the city Saturday evening on business with Superintendent D. F. Crawford.

Fred Dickmeyer resumed his duties in the Pittsburg blacksmith shop this morning, after a week or more at the Pan-American exposition.

Alfred Smith, who had been visiting his cousin, Frank Closs, of the electric works, has returned to his home in Hicksville, Ohio.

A train loaded with silk from the Orient and running on passenger schedule passed through the city over the Pittsburg road last night.

Engineer Thomas Quinn, who was sick three weeks, and Fireman Bert Whitley, who had sore eyes, reported for duty on the Pittsburg this morning.

Conrad Rodenbeck, an old shopman, resumed work at the Pittsburg boiler works this morning, after a month's absence on account of sickness.

Stuart Rehrer has returned from Eaton, where he was called several days ago to attend to some business for the Fort Wayne Electric company.

A number of naval reserves from Grand Rapids passed through the city Saturday night, en route over the Grand Rapids and the Pennsylvania.

The Pittsburg yard men insist that James Young, one of their number, is to be married at Van Wert, Ohio, one week from tomorrow. Jim denies the report, but the boys say it is true.

Dr. Brown, medical examiner at Grand Rapids for the Pennsylvania relief, spent a few hours in the city Saturday night. He was formerly assistant to Dr. E. F. Wagner at this point.

Master Mechanic J. W. Mitten, of the Lake Erie and Western road, went to Connersville this morning on business connected with the road. Thence he will go to Rushville before he returns home.

Conductor W. B. Kitzelman, who was entertaining his brother-in-law from Lima, and Brakeman C. D. Ream, who was sick for ten days, reported for duty on the Nickel Plate this morning.

Fireman C. A. Welsh, of the Pittsburg, had a finger mashed at Crestline, Ohio, last night and was unable to take his place on the run home. Another fireman was sent to Crestlinn to relieve Mr. Welsh.

F. A. Weigand, with a box of cigars for the "boys," reported for work at the Pittsburg tin shops this morning. He was given the "Wedding Chorus" in accordance with the custom at the shops, and received his honors with due solemnity.

C. B. Watterson resumed work in the blacksmith shop of the Pittsburg this morning, after an absence of three or four days on account of sickness. J. Gans, of the same shop, who had a hand hurt several days ago, also reported for duty.

J. A. Bacht is the guest of relatives and friends in the city. He was formerly employed as a brakeman on the Grand Rapids and Indiana road, with headquarters in this city, but is now engaged in a similar capacity in Texas by the Santa Fe company.

Engineers C. M. Somers, G. C. Burchard and F. M. Enslen and Fireman W. F. Wibel, of the Pittsburg, are sick; Engineer D. Bulyard is detained at home by the sikness of some member of his family, and Engineers J. B. Lease and Grant Rhodes and Fireman W. F. Botteran and G. W. Erwin are taking a lay off for private business.

Nickel Plate engine 152, which has just received general repairs at Stony Island, went into service on the third district of the road today. Engineer B. Fullerton and Fireman John M. Frase will preside in the cab.

William Hilgeman, formerly of Auburn, has taken a position with Foreman C. F. Knothe, at the electric works. He is a machinist. John Voirol has taken a position in the meter department at the works.

Harry Smith is at his post of duty in the packing room at the electric works again. Three or four weeks ago he was taken suddenly ill. James Dalton, of the shops, also resumed work this morning. He had been ill three weeks.

Another work train was sent to Plymouth this morning to assist in cutting down the Donaldson hill and building double track. The train will be pulled by engine 127, with Engineer M. Murphy and Fireman G. S. Bates in the cab.

Fireman Frank DeTurk, who was off a week on account of a sprained ankle, resumed work on the Pittsburg road this morning. Fireman G. S. Bates, who had a leg injured three weeks ago, also reported for work on the same road this morning.

The Fort Wayne Electric company this morning sent a car load of machinery and supplies to Fredericksburg, Md., where a plant is being installed. Included in the shipments were an 100-light arc dynamo, seventy-five arc lamps and a switchboard.

J. Baillie, blacksmith at the Wabash shops, had the pleasure of a visit from an old acquaintance, Dennis Cook, last Saturday. They had not seen each other since they parted in the east many years ago. Mr. Cook is superintendent of the Russia Iron works, of Pittsburg.

E. J. Grimo took his place as brakeman on the Nickel Plate last night, in accordance with the announcement made in The Sentinel several days ago. He was formerly a yard conductor on the Wabash and Yardmaster Dennis Hayes says he was a most excellent employe.

The Nickel Plate is now employing three switch engines in its yards at Bellevue, Ohio. That city is the middle division point and the many cars turned over between that place and Fort Wayne by connecting lines for the east have to be handled and made up into through trains at Bellevue.

David Majers, who has been wrestling with neuralgia and ulcerated teeth for several days, was unable to resume his duties this morning as he expected. Instead he and the dentist had an engagement, which resulted in the removal of the offending teeth. Mr. Majers will probably report for duty Wednesday.

General Yardmaster H. R. Bowden, of Bellevue, who has been very sick for two or three weeks, left last Saturday, in company with his wife, for Cumberland, Md., where Mr. Bowden hopes to receive physical benefits from a two or three weeks' sojourn. Mr. Bowden was stationed at Fort Wayne until last fall, when he was transferred to Bellevue.

LONG STRIKE SETTLED.

Binghamton, N. Y., July 1.—The strike of Erie boilermakers, which has lasted six months, has been settled. The men, who number about 500, will return to work July 8. All the demands of the strikers, with the exception of abolition of the piece work system, have been granted.

FIRE DESTROYS DOCKS.

Boston, July 1.—A fire which for an hour threatened to do great damage, broke out on pier b of the Hoosac Tunnel docks in Charlestown today. The pier which is the Boston terminus of the Warren line steamship company, was destroyed, with a large quantity of merchandise. The steamer Sachem, from Liverpool, which was unloading at the pier, was towed out of danger before she suffered seriously. Six freight cars on the dock were consumed. The loss is placed at $200,000.

RACES ON THE FOURTH.

The entries for the Fourth of July races of the Amateur Driving club have been closed and all arrangements have been completed for the events. The races will be called at 1:30 o'clock, and William H. Fleming will act as starter. The City band will furnish music. Following are the entries for the different events:

Daisy Muller	Froeschaug
Pandora	Mr. Murphy
Pluto	Sprague

A fortune awaits the man who can find a substitute for sponges. New York dealers are wondering what is to become of their business, for, while the supply is not increasing, the demand for sponges grows larger every year. Five years ago the price began to go up, and this season's quotations show an advance of 100 per cent over those of 1895 and 1898. Many varieties cost the buyer on the fishing grounds more today than they formerly sold for in the local markets.

Nerve Slavery

It is present-day conditions—heaping burdens of work upon the nervous system that tells the story—premature breaking up of health.

It tells why so many men and women, who so far as age is concerned, should be in the prime of health, find themselves letting go of the strength, the power, the vitality they once possessed. It is because that great motor power of the body, nerve force, is impaired. Neither will the heart, the brain, the liver, the kidneys, the stomach act right without their proper nerve force supply. Let any organ be lacking in this essential and troubles begin—some of them are:

Throbbing, palpitating heart.
Sleepless nights.
Sudden startings.
Morning languor.
Brain fog.
Inability to work or think.
Exhaustion on exertion.
Flagging appetite.
Digestion slow.
Food heavy.
Easily excited, nervous, irritable.
Strength fails.
Loss of flesh and muscular power.
Settled melancholia.

The above is the genuine package of Dr. A. W. Chase's Nerve Pills, are sold by dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y.

Sold in Fort Wayne by Meyer Bros. & Co.

EXTRAORDINARY BARGAINS

At the Gigantic Closing Out Sale of the James Taft Dry Goods Store---Sale Lasts for Two Weeks.

THE WEATHER.

Chicago, July 1.—Forecast for Indiana: Generally fair and continued warm tonight and Tuesday; south to southwest winds.

THE TEMPERATURE.

Contrary to general belief, yesterday was not the hottest day of the year, that honor belonging to Tuesday of last week when at 1 and 2 o'clock the mercury registered 93 degrees. The highest point reached yesterday was 92 degrees at 3 o'clock. The record at the gas office today is as follows:

	Degrees.
6 a. m.	78
7 a. m.	78
8 a. m.	80
9 a. m.	83
10 a. m.	84
11 a. m.	86
12 m.	89
1 p. m.	91
2 p. m.	91

LOCAL NEWS.

A. H. Bittinger visited at Indianapolis yesterday.

E. L. McClure, of Argos, was a visitor in the city yesterday.

Mr. and Mrs. J. A. Quince left this morning for a stay at Rome City.

Miss Virginia Carnahan is at home from a visit at Sewickley, Pa.

Charles Moreland, day clerk at the Randall, has returned from a stay at Indianapolis.

William Fosler, of The Sentinel composing room, left today to enjoy a vacation of one week.

Attorney H. L. Smith will deliver a Fourth of July oration at Miller's grove, near New Haven.

J. M. Landenberger and family went to Rome City today to occupy their cottage for the summer.

Mrs. Frank I. Brown is at home from a visit at Chicago and is entertaining Miss Myrtle Harbwell, of that city.

Miss Hedwig Schrey, who has been an instructor in music in this city for the past five years, has removed to Buffalo.

Mrs. Julia Homsher and daughters, the Misses Minnie and Ethel Homsher, went to Rome City today for a two weeks' stay.

W. H. Robertson, who has been the guest of Mr. and Mrs. J. H. Bilderback, of South Broadway, has returned to his home at Garrett.

St. Paul's and Concordia Lutheran churches will unite in a picnic at the Concordia college grounds July 4. The congregation of Emanuel's church will picnic at Williams' grove. The Auburn band has been secured for the Concordia picnic.

Huntington Herald: "Harry I. Young, who had both of his limbs cut off at Fort Wayne last winter, will go to Fort Wayne tomorrow for the purpose of having another amputation made of a portion of his left limb. The leg never healed right since its first amputation owing to an excess of flesh at the point where the amputation was made."

A large number of Fort Wayne people were in attendance at the Eel River township Sunday school convention, which was held Sunday in the grove near the Valentine school house. Rev. D. T. Williams, of the South Congregational church, delivered an address, and the Leslie male quartet, Mr. Craig and Mr. Komp were among those who contributed to the program. Among others present were Mr. and Mrs. E. R. Geeaman, Mrs. Easley, W. D. Williams and W. H. Latourette, of this city.

ALL AFTER THEM.

The boys and girls are all flocking to the Greatest Grocery for the unique advertising fans that Mr. Pfeiffer is giving away. The fan is a great novelty, telling your fortune as well as keeping you cool.

The Knights of Columbus will hold a special meeting Tuesday evening.

Mrs. Joseph Evans, of West Jefferson street, left today for a visit of two weeks at Van Wert.

The Amateur Driving club will give a moonlight picnic and band concert on the evening of July 4, after the races.

Martin Greven, the bookseller, was initiated at Logansport yesterday as a member of the Fort Wayne council of the Knights of Columbus.

Mr. and Mrs. S. W. Kelsey and daughter, Julia, have returned from a fishing trip to Loon lake. They caught sixty bass during their visit at the resort.

Mrs. J. R. Shafer, of 120 Washington boulevard, is entertaining her sister, Mrs. O. S. Adams, and son, Walter, of Allegheny, Pa. Mrs. Adams will be joined by her husband in a few weeks.

Miss Mamie Barry entertained a number of friends last evening, previous to her departure for visits in New Haven, Garr Creek, Huntington and Columbia City. She expects to return in September.

Ex-Trustee M. F. Schmetzer and daughter, Miss Fredericka, and Mr. and Mrs. Frank Thompson have returned from a fishing trip at northern lakes. As a fisherman the venerable ex-trustee can easily out-do many younger men.

Tomorrow, July 2, the public library will begin calling in all books preparatory to removing into the temporary quarters in the Elektron building. Subscribers will greatly facilitate the work by handing in their books immediately.

Louis Lanternier, son of Mr. and Mrs. A. J. Lanternier, of 133 Walton avenue, was a member of Company A, Thirty-Eighth United States Volunteer infantry, which was mustered out at the Presidio in California yesterday. Mr. Lanternier is expected home this week. He has been in the Philippines for the past two years.

IN THE JUSTICES' COURTS.

In Bullerman's court Deputy Fish Commissioner Fleming has filed an affidavit against Frederick Basheller for having a fish-net in his possession contrary to law. A search warrant was issued and the net was found, as charged. Mr. Basheller, who is a farmer of good repute living about five miles north of the city, promised to come into court today and square the matter up, which "squaring" process will cost him at least $15. The state commissioner is allowed $20 in fees, the deputy $10 and this with the prosecutor's, justice's, constable's and other fees will make a pretty bill to pay.

Jacob Zuber, who lives on Beaver street, went over to Christian Rabel, a neighbor, to collect a bill or debt which he claims was due him. The best of feeling did not previously exist between the parties and immediatel there was a riot. Mr. Zuber hied himself at once to the prosecutor's office and filed an affidavit charging Mary, Christian, Henry and William Rabel for rioting. Mr. Zuber can easily prove that he was in a riot of some kind, as he is pretty thoroughly used up. Justice France will hear the evidence as soon as the parties are brought in.

On Saturday afternoon Justice Tancey fined Philip B. Smith $1 and costs for provoking his wife, Elizabeth Smith. The couple have been in court almost continuously for the past several months, and as stated in the police reports another affidavit has been filed by Mrs. Smith against her husband for associating with prostitutes.

Constable Ford, of France's court, went to Eel River township this morning to arrest Thomas Johnson for assault and battery on Lydia Johnson and for public intoxication.

ABOUT THE COURT HOUSE

George Manning has commenced suit against Sarah O. Witt to foreclose a mechanic's lien for $325.

Township Assessor Becker reports taxes paid on 1,330 dogs in Wayne township, an increase of 90 over last year's returns.

Charles H. Hammer has commenced suit against Joseph Treuchet and Joseph Besler, praying for an injunction, alleging fraud and demanding damages in the sum of $500. Hammer bought a saloon of the defendants, situated on Main street, next to the Journal office. He claims that while negotiations for the transfer of the place were in progress the defendants put in a lot of "rounders" to boost business and tried to impress on him that they were selling him gold dollars for about fifty cents apiece. He bought the place and then discovered that the trade which he had observed before was artificial had melted away. He claims that he was misled and wants to be protected from paying certain notes, and wants his purchase money back.

The county commissioners were considering liquor licenses today. There were about a dozen applications and one remonstrance. The latter was against John W. Suelzer, who sought a license to conduct a saloon on Lafayette street. The remonstrants stated that in the first place the publication of the application was irregular, because it was published in the Monroeville Breeze, instead of in a Fort Wayne daily, as the law requires for all licenses asked for within the city limits. In the second place the remonstrants alleged that the applicant is not a proper person to conduct a saloon, and in the third place that they believed he wanted the license only for the use of one Frank Cour, who was refused a license for the same place only a short time ago. The commissioners sustained the remonstrance and refused the license.

The cases of Wilbur vs. the Fort Wayne Water Power company have been carried over to the next term of the Superior court by agreement.

The suit of Nierman vs. the Fort Wayne Gas company has been sent to Huntington county on a change of venue.

In the case of Curdes vs. Yarle set for this morning in the superior court the defendant defaulted.

The county board of review today increased assessment valuations as follows: Wayne Knitting Mills, from $55,000 to $65,000; C. F. Pfeiffer, from $7,975 to $11,525; Rastetter & Son, from $2,300 to $2,500.

MARRIAGE LICENSES.

William Whitfield and Lucy C. Doswell.

Ludwig Waldschmidt and Alice N. Cutshall.

Jonathan Sanders and Celia Fox.

BEGAN NEW TERM TODAY.

United States Commissioner T. J. Logan today began his second term in that office which he has held for the past four years. Some days ago Judge Baker notified Mr. Logan of his re-appointment, and the oath of office was administered by County Clerk Belot.

Professor Crull and other instructors at Concordia college, are in Milwaukee attending an educational convention.

A GREAT HOWL.

If you hear a tremendous howl you will know one of our competitors is howling about our selling fishing tackle, base ball and sporting goods. What is he howling for? Evangelist Sam Jones says: "It's the hit dog that yelps," so our competitor must have reason to howl. You see, there is an awfully sore spot somewhere. The reason is that people are coming to trade with us on account of competitor having always charged such high prices for fishing tackle and sporting goods before we started into business. He used to charge you $2 for fifty yards of Knoxall line, but since we started in business he cut his price to $1.20 for the same line. It's the same way all through the list; we are beating his prices everywhere. He can compete with us no longer. We are outselling him at every point. His prices on every kind of sporting goods are way above ours. We feel very sorry for a back number competitor, who has to send friends around to our store and get our low prices to post himself up.

If you want new goods and low prices come to see us before you buy. We also have a complete line of hardware, Jewel ranges, and the largest stock and lowest prices in bicycles in the city. Come and see us when you think of buying.

KOEHLINGER & BAUR,
31 East Columbia St.

HEARTRENDING SCENE AT GRAVE.

At the burial of a lady at Portland, Ind., the casket was dropped and turned over in the grave by one of the new-fangled lowering devices now being used by country undertakers. No such occurrence will happen at Lindenwood cemetery, as the board have peremptorily refused to allow them to be used within their grounds. The board at Catholic cemetery have forbidden their men to have anything to do with them. The undertakers who use it must run their own risk of such an occurrence as happened at Portland.

FRIGID SHIRTS FOR TORRID WEATHER AT TEMPERATE PRICES.

Shirts that make a man smartly dressed
Without either coat or vest.
Invisible suspenders you should wear;
We have 'em—they're fifty cents a pair.
And then if you wish both ends to meet,
A pretty belt and you're complete.

Everything to make a man or boy cool. Flannel suits, serge suits, light underwear and straw hats. Complete line of everything for men. The only thing we are low in is the price.

REUBEN S. PATTERSON.

Not "First in war, etc.," but first in style, quality and fit. "Fathers of good clothing in Fort Wayne."
